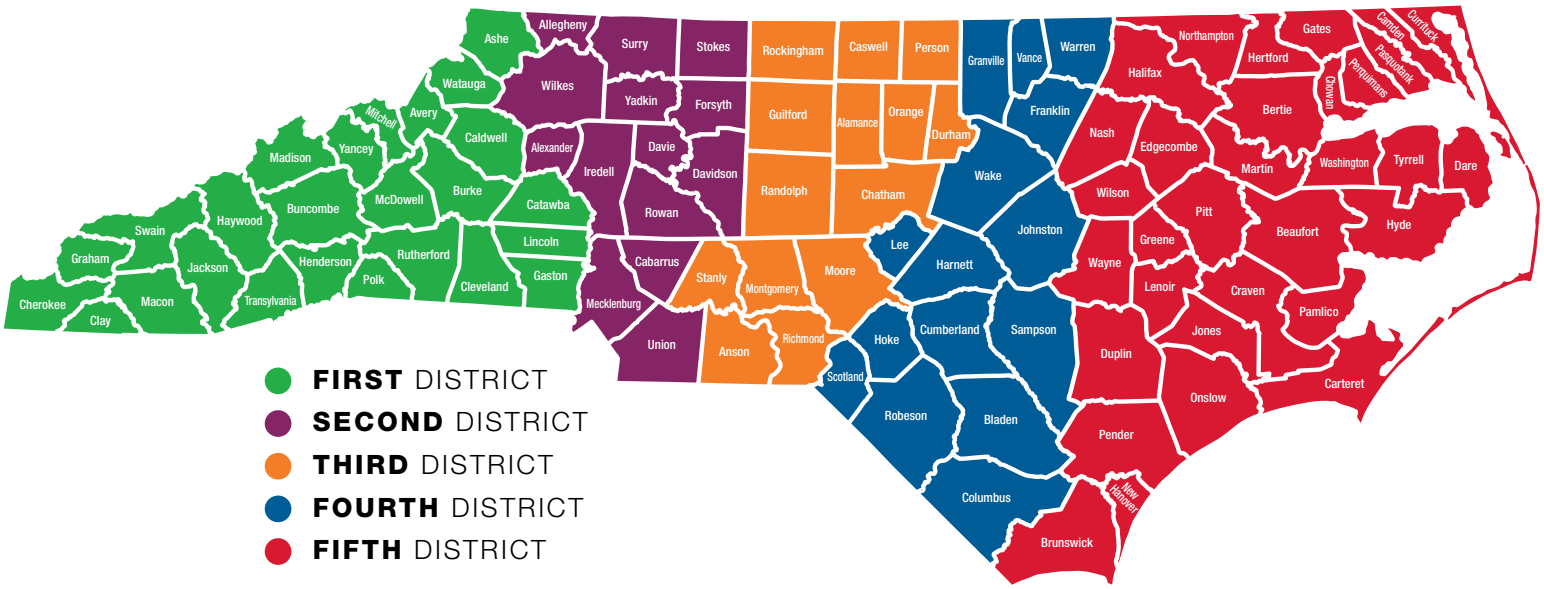
# This Is Your North Carolina Dental Society.

The North Carolina Dental Society represents more than 3,800 member dentists across the state. Headquartered in Cary, our mission is to help all members succeed. One of the oldest dental societies in the country, the NC Dental Society is a part of the American Dental Association, which gives more than 161,000 dentists across the United States a voice. In addition to your ADA and NC Dental Society membership, you are also a member of one of our five districts.



## We're Here For You.

If you want to get involved, volunteer, attend an event or learn more about the issues facing dentists in North Carolina, send us a note and get in touch. We look forward to hearing from you.

**First District**
Dr. Joe Hendrick
joehendrickjr@josephrhendrickjr.com
