ON-SITE COVID-19 POLICIES

Mask wearing is recommended, but not required.

Attendees are not required to be vaccinated and proof of vaccine status will not be required to attend, however FDC encourages attendees to be vaccinated and boosted.

We ask that you stay home if feeling unwell or experiencing COVID-19 symptoms.

Please use hand sanitizer, wash hands frequently and cover your mouth and nose with your elbow or tissue when coughing or sneezing.

Sanitations stations will be conveniently located throughout the hotel and convention center.

Gaylord Palms staff will be disinfecting high touch surfaces throughout the hotel and convention center using electrostatic sprayers.

On-site policies are subject to change. FDC will continue to follow the Center for Disease Control and Prevention, Gaylord Palms, and state/local ordinances. Visit floridadentalconvention.com for health and safety updates.

Join Us!

On behalf of the Florida Dental Association (FDA) and the Committee on Conventions and Continuing Education, we invite you and your team to join us for the 2022 Florida Dental Convention (FDC) "Dentistry & Systemic Health: Mouth, Mind and Body Connection!"

FDC2022 will feature a comprehensive technology-rich scientific program offering more than 130 continuing education (CE) courses and hands-on workshops for the entire dental team, opportunities to meet with 300+ leading dental vendors to learn about new products and technologies, and networking opportunities to build morale and come together as a dental family and community. FDC2022 will take place June 23-25 at the beautiful newly expanded Gaylord Palms Resort & Convention Center.

To help our members succeed, FDA members continue to receive **FREE** preregistration and 17 free courses to choose from, along with other high-quality paid course offerings. FDA membership has its perks and free FDC is a great one!

Our 2022 Scientific Program Chair, Dr. Stephen Perez, has prepared a stellar program with some of the nation's best speakers to present state-of-the-art information to help you, your practice and your patients thrive. We will kick off Thursday and Friday morning with free, dynamic keynote speakers guaranteed to get you energized for a full day of learning. There will be featured courses on oral and overall health and wellness for our patients and for us as caregivers, in addition to significant two- and three-day mini-residencies.

Clinically, you will find excellent lectures, cutting-edge workshops, deep-dive courses and mini-residencies covering 3D printing, ergonomics, tongue-tie/lip release and myofunctional therapy. As an FDC first, we are excited to have Dr. Lee Ann Brady and colleagues from the Pankey Institute presenting **Pankey Essentials 1** at a discounted rate for FDA members! Drs. Jonathan Ng, George Merijohn, Tieraona Low Dog and Javier Vasquez will be on-site to provide first-class, relevant professional development to help grow your behavioral and technical skills.

FDC2022 will have an Exhibit Hall full of friendly faces who were chosen to cater to your comprehensive dental needs. The Exhibit Hall will be open on Thursday from 11 AM-6 PM, Friday from 8:45 AM-6 PM, and Saturday from 9 AM-2 PM for you to connect with our vendors. For those not taking CE but still wanting to experience a piece of FDC, **FREE** Exhibit Hall Only Passes are available to non-FDA members and team members (registration required). All registered attendees are welcome and encouraged to attend the Welcome Cocktail Reception in the Exhibit Hall on Thursday from 4-6 PM.

Come for the CE, Stay for the FUN! As always, FDC will host phenomenal parties for you to have fun with your colleagues, friends and family. Dance to your favorite requests performed by a live band at "Dueling Pianos" on Thursday from 8-11 PM. On Friday night, don your undersea gear and be ready to explore and navigate at the Sea Vibes party where you will find a treasure trove of treats, eats and fun! For those who want to keep the party going, step next door into The After Party for a club-like experience, including a DJ that goes from 10 PM-1 AM. These events are **FREE** for registered attendees and your badge is required for entry.

FDC is *the* premier educational and social dental event of the year! So have a look at all we have to offer for you, your team and guests to make the most of your stay. Secure your hotel room early as the FDC hotel room block does sell out quickly and register now to get your best choice of your preferred courses and event tickets. Come join us – FDC2022 will be amazing! **We will #FDCYouSoon!**

OPTIMIZE YOUR CE EARNING

PLAN
ATTEND
LEARN
REPORT

Did you know you can earn up to 33.5 hours of CE credit at FDC? We want to make your CE-earning experience as simple as possible!

When you attend courses at FDC, we automatically provide CE verification, email CE certificates within 48 hours after the convention and report credit to CE Broker for all Florida-licensed attendees by 7/22. So relax and enjoy your courses knowing FDC will take care of the rest.

COURSE CODES MADE SIMPLE

- FDC courses are designated by a course code to specify the type of course and CE credit it is eligible for. See page 80.
- All courses coded as PM are eligible for practice management credit per the Florida Board of Dentistry. *

**FS 466.0135(c)*

AUTOMATIC VERIFICATION

- You must attend 50 of 60 minutes of a course to receive one hour of CE credit per the Florida Board of Dentistry.
- You will scan your badge upon entering and exiting each course to be awarded the credit appropriately.

CONVENIENT CE CERTIFICATES

- Your CE certificate will be emailed to you by June 27, or you can print a copy at the CE stations during FDC.
- CE certificates will include all verified full-course attendance. Non-credit (NC courses) will be listed as zero hours.

SEAMLESS CE REPORTING

- All verified course attendance for Florida-licensed attendees, including full and partial credit, will be submitted to CE Broker by July 22.
- CE credit will not be reported for **NC** (non-credit) courses.

Pankey Essentials 1: A 3 Day Workshop | PE1

Thursday, June 23-Saturday, June 25 | 8 AM-5:30 PM, All Days
Aesthetic/Treatment Planning | CE Credit: 33.5 | Audience: Dentists

REGISTRATION CATEGORY	March 1-May 23
DENTIST - FDA/ADA MEMBER	$4,999
NON-MEMBER DENTIST	$5,199

Transform your experience of practicing dentistry and increase predictability, profitability and fulfillment. The Pankey Institute's Essentials Series is the key, and aesthetic and functional treatment planning is where your journey begins. Following a system of risk assessment, patient ownership and risk management creates technical excellence and predictability. Practicing dentistry the way you want, doing the procedures you enjoy most with patients who value and appreciate you and the exceptional care they receive. This course is built on an exam, diagnosis and treatment planning system based on five key areas: aesthetics, occlusion, restorative, biology and the patient. You will leave proficient with this process and ready to incorporate it into your practice the very next day. Lunch will be provided on Thursday through Saturday. **Attendance is limited to 24. Register early to secure your seat before the course sells out!**

SAVE UP TO $800 by taking Pankey Essentials 1 at FDC2022!

See page 13 for attendee online pre-coursework requirements.

COURSES & WORKSHOPS

ALPHABETICAL BY SPEAKER'S LAST NAME

CHAT. CONNECT. GROW: A SPEED NETWORKING EVENT | SN01

9-11 AM | ENRICHMENT | CE CREDITS: 0
AUDIENCE: DENTISTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$20	$20	$20
NON-MEMBER DENTIST	$20	$20	$20

Sit back and relax with your colleagues while representatives from 10 leading dental companies rotate to your table. Each vendor has 10 minutes to present information, update you on their latest products and answer your questions. In this fast-paced fun networking environment, you are sure to leave with new connections and a growing knowledge of new products, services and technologies. **At the end of the event, all dentists will receive a $50 VISA gift card!** Vendors participating: Halyard Global, Weave, FDA Services, Inc., RecallMax, SunBit Inc. and more to come!

Continental breakfast sponsored by fda services inc. INSURANCE FOR DENTISTS

ARCHER, MR. CLAY

CYBER SECURITY AWARENESS AND TRAINING FOR YOUR BUSINESS | CO2

9-11 AM | TECHNOLOGY | CE CREDITS: 2
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, ADMINISTRATIVE STAFF, LABORATORY TECHNICIAN, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$0	$0	$25
NON-MEMBER DENTIST	$49	$49	$59
TEAM MEMBER	$49	$49	$59
DENTAL STUDENT	$0	$0	$0

Every dental practice today relies on computers, tablets, phones and other internet-connected devices. This lecture will focus on the aspects of the legal and ethical responsibilities and concerns associated with cybersecurity in the dental practice. Mr. Archer will evaluate the technology that relates to the modern dental office and the principal steps to take to protect sensitive office and patient data. It will highlight basic cybersecurity concepts so attendees can ethically and lawfully protect themselves, their patients and practice.

This lecture is fully sponsored by dpc TECHNOLOGY SUPPORT

AUERBACH, MR. GREG
AUERBACH, DR. STUART

TRANSITIONING TRANSITIONS AND VALUING VALUE: THE GOOD, THE BAD AND THE UGLY | NC03

9-11 AM | FINANCIAL | CE CREDITS: 0
AUDIENCE: DENTISTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94

Through this lecture and the analysis of the good, the bad and the ugly, attendees will better understand strategies for sustained practice growth to drive increased value. During this course, attendees will learn how to effectively and practically lower practice overhead, define practice value and the factors that have the most impact on value, how to increase practice value, and how DSO/corporate dentistry is changing the value and transitions landscape. Finally, discussion on when and how to properly approach a transition, whether it be a private sale, associate/partner sale or corporate purchaser will be explored.

This lecture is fully sponsored by HENRY SCHEIN® DENTAL PRACTICE TRANSITIONS

BATOON, DR. DIANA

NEW DENTIST RECOMMENDED

AIRWAY, BREATHING AND CHILDREN WORKSHOP: LET'S PAY ATTENTION TO THIS NOW! | WO2

9 AM-12 PM | ORTHODONTICS | CE CREDITS: 3
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, ADMINISTRATIVE STAFF, LABORATORY TECHNICIANS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$249	$269	$279
NON-MEMBER DENTIST	$269	$279	$289
TEAM MEMBER	$189	$199	$229

Airway health and dentistry is a becoming a prerequisite for our patient clientele under 18. It is apparent that there is a strong association with what we clinically see in the mouth and sleep quality. Because the time we have after a child reaches the age of 8, the dental community needs to be looking at craniofacial anamolies, daytime sleepiness and snoring as red warning signs that the child may be suffering a restricted airway. Attendees in this workshop will learn the different types of appliances, both removeable and fixed that are helpful in craniofacial dentistry. Attendees also will learn and practice hands-on how to utilize screening tools when assessing airway in the pediatric population. *Attendance is limited to 25.*

Participant Requirements: Attendees are encouraged to bring patient cases to share, to learn how to treatment plan. Please redact any patient information that may violate HIPAA.

IT PAYS TO BE A MEMBER!
FDA members can take advantage of FREE pre-registration! (DEADLINE: 6/10)

THURSDAY, JUNE 23

BATOON, DR. DIANA

NEW DENTIST RECOMMENDED

LEADERSHIP AND WORK-LIFE BALANCE FOR WOMEN IN DENTISTRY | PM02

2-5 PM | PRACTICE MANAGEMENT | CE CREDITS: 3
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, ADMINISTRATIVE STAFF, LABORATORY TECHNICIANS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69
DENTAL STUDENT	$0	$0	$0

How does a woman in the field of dentistry thrive after a pandemic or a life-changing event? What resources are there for women to keep passion, drive and patience in their workplace or at home? There are many ways to manage stress, change and uncertainty, but how do you balance these factors and more? Learning to pivot and change focus can be challenging at times. How does one regroup and find the tools and strategy to thrive or fulfill their goals? Attend this lecture to understand important factors and ways you can manage stress, change, balance and focus. Walk away from this lecture with the tools to maintain balance and leadership in your workplace and at home.

Participant Requirements: Computer or tablet is recommended.

BERRIOS, MR. LUIS
GILBERT, MR. ROGER

PREVENTIVE EQUIPMENT MAINTENANCE DEEP DIVE | DD05-NC

2-5 PM | HYGIENE | CE CREDITS: 0
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, ADMINISTRATIVE STAFF

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$125	$135	$145
NON-MEMBER DENTIST	$135	$145	$155
TEAM MEMBER	$125	$135	$145

Service calls and equipment repairs can be quite costly for the dental office. Service technicians from Patterson Dental will cover basic preventive maintenance and safety requirements for dental office equipment. In this deep dive course, attendees will learn how to properly maintain air compressors, vacuum systems, amalgam separators, autoclaves, cavitrons, handpieces, air/water syringes and solve many other maintenance issues that exist in every dental office. Attendees also will learn how to maintain digital x-ray equipment. All attendees will leave the course with a detailed equipment maintenance guide which describes daily, weekly, monthly and yearly maintenance requirements. At the end of the course, each participant will receive a coupon valued at $250 toward their next Patterson Dental service call. *Mr. Berrios and Mr. Gilbert offer a repeat of this course (DD06-NC) on Friday, June 24 from 9 a.m.-12 p.m. Attendance is limited to 32.*

This deep dive and equipment are fully sponsored by PATTERSON DENTAL

THURSDAY, JUNE 23-SATURDAY, JUNE 25 | 8 AM-5:30 PM, ALL DAYS | AESTHETIC | CE CREDITS: 33.5 | AUDIENCE: DENTISTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$4,999	$4,999	$4,999
NON-MEMBER DENTIST	$5,199	$5,199	$5,199

Transform your experience of practicing dentistry and increase predictability, profitability and fulfillment. The Pankey Institute's Essentials Series is the key, and aesthetic and functional treatment planning is where your journey begins. Following a system of risk assessment, patient ownership and risk management creates technical excellence and predictability. Practice dentistry the way you want, doing the procedures you enjoy most with patients who value and appreciate you and the exceptional care they receive. This course is built on an exam, diagnosis and treatment planning system based on five key areas: aesthetics, occlusion, restorative, biology and the patient. You will leave proficient with this process and ready to incorporate it into your practice the very next day. *Attendance is limited to 24.*

Participant Requirements: Attendees must complete 8 hours of continuing education online prior to June 20, 2022. Online course work will be completed via Pankey Online and proof of completion will be required to participate in-person at FDC2022. The link and information to access the online pre-requisite course work will be sent to all registered attendees on May 23, 2022 via email. Registered attendees will be responsible for following the instructions to create a Pankey Institute account to access and complete the course work and videos. ***Course cancellations will not be allowed after May 23, 2022.***

This workshop and equipment are partially sponsored by KULZER

BRONSTEIN, DR. DIANA

SCIENCE OF EVIDENCE IN HOMEOPATHY AND APPLICATIONS IN DENTISTRY | CO3

9-10:30 AM | SPECIAL INTEREST | CE CREDITS: 1.5
AUDIENCE: DENTISTS, HYGIENISTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$0	$0	$25
NON-MEMBER DENTIST	$25	$25	$35
HYGIENIST	$25	$25	$35

This lecture will give attendees an overview of the history and development in homeopathy and cover the current literature while evaluating the clinical results of evidence-based homeopathic dental applications. Dental practitioners and surgeons will discover clinically relevant chairside pre- and post-operative benefits for their patients and gain the confidence to harness this facet of integrative comprehensive patient care.

COURSES & WORKSHOPS *ALPHABETICAL BY SPEAKER'S LAST NAME*

BULNES, DR. CHRISTOPHER

NEW DENTIST RECOMMENDED

OPTIMIZE YOUR PRACTICE: UNDERSTANDING DENTAL BENEFITS, THE CDT CODE AND MORE | C04

9 AM-12 PM | ADMINISTRATION | CE CREDITS: 3
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, ADMINISTRATIVE STAFF, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69
DENTAL STUDENT	$49	$59	$69

This lecture will introduce attendees to several factors that influence a dental benefit plan's reimbursement for dental services provided. These factors include benefit plan limitations and exclusions; participating provider contracts; effective appeal of denied claims; and, of course, proper, accurate and consistent CDT coding on patient records and claims. Commentary on the changing face of dental care financing and what to look for when considering becoming a network dentist also will be discussed.

BURNS, DR. RICHARD

NEW DENTIST RECOMMENDED

WHAT IS CENTRIC RELATION, REALLY? | C28

2:15-3:15 PM | OCCLUSION | CE CREDITS: 1
AUDIENCE: DENTISTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$0	$0	$25
NON-MEMBER DENTIST	$25	$25	$35
DENTAL STUDENT	$0	$0	$0

For decades there has been controversy on the topic of ideal condylar position, particularly as related to its role in the treatment of temporomandibular joint disorders (TMJD). In the process of successfully treating many TMJD patients over the years, and after exploring how the commonly held view of ideal condylar position historically became accepted in the mid-20th century, Dr. Burns has come to the conclusion that this view is flawed. There are a multitude of reasons for this, but perhaps the most glaring example concerns the misinterpretation of Posselt's research in the 1950s, which presented the concept of his "envelope of function." Through no fault of Dr. Posselt, his findings were (even in his view) extrapolated beyond that which was originally intended. Dr. Burns believes this philosophy has become so ingrained into the dental educational model that to this day, it fuels the confusion over the TMJD issue to the extent that most practitioners simply give up on any attempt to understand the topic. Tragically and out of frustration, many send their patients suffering from this issue to so-called temporomandibular joint specialists, rather than treating them in their own offices. Attend this lecture to gain clarity in treating patients who suffer from TMJD in your practice today!

BUTLER, MS. JEN

PEOPLE WHO DRIVE YOU CRAZY: DIFFICULT PEOPLE MADE EASY | PM01

9 AM-12 PM | PRACTICE MANAGEMENT | CE CREDITS: 3
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, ADMINISTRATIVE STAFF, LABORATORY TECHNICIANS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69
DENTAL STUDENT	$49	$59	$69

Working with difficult people can be emotionally and mentally draining. Limiting your talent pool or patient base solely to people you "like" or are "easy" is not practical, leaving you short-staffed and a schedule filled with holes. Every person presents a unique opportunity for you to navigate the interaction in a way that results in deeper connections while meeting their unique needs. The more adaptable and accepting you are, the broader your patient base, the fuller the schedule ... leading to less stress, increased satisfaction and practice growth. Ms. Butler will teach attendees about her eight identifiable types of difficult people, insight into who they are, why they act in certain ways, and what you can do to connect and communicate with them.

BUTLER, MS. JEN

FROM FUNCTIONAL TO OPTIMAL: FACING REALITIES OF STRESS AND KICKING ITS A** | PM03

2-5 PM | PRACTICE MANAGEMENT | CE CREDITS: 3
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, ADMINISTRATIVE STAFF, LABORATORY TECHNICIANS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69
DENTAL STUDENT	$49	$59	$69

Dental professionals experience a level of stress 38% more than the average American. They look for relief by addressing external problems (hire/fire staff, take clinical CEs, throw money at marketing, etc.), which only serves as a Band-Aid. External solutions are not going to resolve this internal, biological reaction. Learn where stress is present in your practice, why it prevents you from achieving your goals and how to move from functional to OPTIMAL. In her pragmatic approach, Ms. Butler will debunk the myths behind stress in dentistry and share how to successfully navigate stressors. Attendees will build an action plan to incorporate practical, effective coping methods with the end result being less stress, higher profits, and more energy for business and life.

CHIN, DR. JUDITH

REDUCING DRAMA IN YOUR OFFICE TREATING CHILDREN | C16

1-2 PM | COMMUNICATION | CE CREDITS: 1
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, ADMINISTRATIVE STAFF, LABORATORY TECHNICIANS, DENTAL STUDENTS

THE PEEL TECHNIQUE™ — A NEW PARADIGM IN PEDIATRIC TONGUE-TIE TREATMENT: A TWO-DAY MINI-RESIDENCY | MR01

THURSDAY, JUNE 23 & FRIDAY, JUNE 24 | 9 AM-5 PM, BOTH DAYS
PEDIATRIC | CE CREDITS: 14 | AUDIENCE: DENTISTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$849	$879	$899
NON-MEMBER DENTIST	$879	$909	$929

In this two-day mini-residency, attendees will be introduced to the concept of laser frenectomies, an increasingly popular method by which dentists and physicians can treat tongue- and lip-ties in their patients. Five percent or more of the babies born in the United States have such tight tongue-ties and frenum pulls that they cannot successfully latch onto their mother's nipple and breastfeed. For the baby, serious consequences include loss of weight and the label of "failure to thrive." For the mother, this results in sore and cracked nipples, mastitis, painful engorgement and post-partum depression due to an inability to nurse her baby. This has classically been treated by a physician taking a scalpel or a pair of scissors to the newborn's mouth and cutting the attachment. The treatment of choice, however, is for a dentist to use laser technology to painlessly and bloodlessly remove the attachment, allowing the infant to immediately nurse. Though many practitioners perform tongue-tie release, few are trained in the PEEL Technique™. This technique ensures that the four movements the tongue must make in order to nurse successfully can be performed: peristalsis, elevation, extension and lateralization. *Attendance is limited to 32.*

Participant Requirements: Loupes, tweezers/cotton pliers and periosteal elevators are recommended. Dentists who own diode lasers are encouraged to bring them if they want to be certified on their own units — otherwise lasers will be supplied for the attendees.

Attendees who successfully complete MR01, as well as the online course examination, will be awarded a Certificate of Dental Laser Proficiency, recognized by the American Board of Laser Surgery (ABLS). The certification is based on knowledge gained from the course — the certification is not wavelength or device specific. **The Course Examination is not mandatory but is highly recommended**, costs just $150 (paid to ABLS online), and can be taken conveniently online within 30 days of attending this course.

The equipment for this mini-residency is partially sponsored by Diamond

CURTIS, DR. BEN

NEW DENTIST RECOMMENDED

INTEGRATING LASER DENTISTRY INTO YOUR PEDIATRIC CARE | C05

9-11 AM | PEDIATRIC | CE CREDITS: 2
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69

This lecture will be a focused discussion on how to integrate laser dentistry into your pediatric care by identifying common barriers and the practical approaches to overcoming those obstacles. Dr. Curtis and attendees will look at pediatric specific applications for an all-tissue laser in children's oral health and how laser technology can be beneficial to both the pediatric patient and practitioner.

This lecture is partially sponsored by BIOLASE Advancing Dentistry.

CURTIS, DR. BEN

LUMPS AND BUMPS, OH MY! SUCCESSFUL REMOVAL OF PEDIATRIC SOFT-TISSUE PATHOLOGY WITH AN ALL-TISSUE LASER | C17

2-4 PM | ORAL PATHOLOGY | CE CREDITS: 2
AUDIENCE: DENTISTS, ASSISTANTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
ASSISTANT	$49	$59	$69

Attend this lecture and join Dr. Ben Curtis as he shares his clinical experience using an all-tissue laser for pediatric soft-tissue procedures. This lecture will focus on pediatric soft-tissue pathology cases with step-by-step procedural instructions, helping to ensure great patient outcomes and successful implementation of an all-tissue laser into daily practice.

This lecture is partially sponsored by BIOLASE Advancing Dentistry.

DAVIS, DR. TODD

NEW DENTIST RECOMMENDED

APPLIANCE THERAPY WORKSHOP | W03

9 AM-5 PM | OCCLUSION | CE CREDITS: 7
AUDIENCE: DENTISTS, ASSISTANTS, LABORATORY TECHNICIANS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$599	$649	$699
NON-MEMBER DENTIST	$649	$699	$749
TEAM MEMBER	$599	$649	$699

Participants will learn different types of appliance therapy and when each is indicated. During this hands-on workshop, attendees will get experience designing an appliance that will mimic how teeth function and then apply what was learned from the appliance to the patient's dentition. Attendees will return to the office with the used model and a bur block ($300 value) used in this workshop. A one-hour lunch break will be provided. *Attendance limited to 25.*

Participant Requirements: Loupes.

DEWHIRST, MS. NANCY

HANDS-ON INFECTION CONTROL DEEP DIVE – KEEPING IT REAL | DD01

9 AM-12 PM | ASSISTING | CE CREDITS: 3
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$189	$189	$209
NON-MEMBER DENTIST	$199	$199	$219
TEAM MEMBER	$189	$189	$209

A variety of infection control products and approaches are presented in this lively and interactive hands-on course. Basic disease transmission and infection control are explored in light of current documented knowledge while using products as instructional tools. Special attention will be focused on respiratory safety. Misconceptions and common problems will be discussed, along with potential implications and consequences. This workshop is intended to help participants gain maximum effectiveness from their infection control efforts. See with Glo Germs and other activities how different techniques and products work for you! *Attendance is limited to 60.*

This equipment for this deep dive is partially sponsored by microcopy

THURSDAY, JUNE 23

DEWHIRST, MS. NANCY

ANNUAL OSHA TRAINING AND UPDATE: ARE YOU SAFE ENOUGH? | C18

2-5 PM | ASSISTING | CE CREDITS: 3
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69
DENTAL STUDENT	$49	$59	$69

Based on science, but grounded in clinical reality, this course will review and update OSHA-required training topics for ordinary and extraordinary situations, including general safety issues such as physical and chemical risks, infectious disease transmission and control, hazard communication and waste. Attendees will learn ways to improve the effectiveness of standard precautions, while adjusting for higher risks such as aerosol transmitted diseases using transmission-based precautions. Handouts will include useful checklists and transmission-based precautions. Attendees will stay engaged through interactive learning. **This course satisfies the DANB infection control requirements.**

NUNEZ, MR. JASON
PATEL, MR. NILESH

PREPARING FOR PRACTICE OWNERSHIP: ASPIRING DENTISTS TO BECOME PRACTICE OWNERS | NC04

9 AM-12 PM | FINANCIAL | CE CREDITS: 0 | AUDIENCE: DENTISTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$0	$0	$25
NON-MEMBER DENTIST	$49	$49	$59

Transitioning to practice ownership opens up professional and financial opportunities and can be your ticket to professional and financial freedom. The ability to make your own clinical decisions and run the practice to your standards is a dream for most doctors. Unfortunately, the path to ownership can be confusing or seem overwhelming at times. The presenters will help attendees develop strategies to make a successful jump from new dentist to owner of a healthy dental practice. This informative lecture will guide new dentists through case studies that will aid in the creation of a successful strategy. Attendees will learn techniques to successfully navigate your personal financial statement and associate position to ensure a positive transition to the lifestyle you've been dreaming of. Learn how to find and acquire the right practice and how to build a successful budget. Dive deep into the end-to-end process of starting a practice. Understand the "do's and don'ts" of starting a practice from scratch and increase your understanding of the different types of due diligence when purchasing a dental practice. Becoming a practice owner can be the most rewarding experience of your career, both personally and financially. The great news is that owning a practice can happen as early as 12 months out of dental school with the right planning and an experienced team to help you. Do not miss this lecture if you have ever dreamed of owning a dental practice!

DOLCE, DR. CALOGERO

THE ROLE OF ORTHODONTICS IN IMPLANT DENTISTRY | C06

11 AM -12 PM | AESTHETIC | CE CREDITS: 1
AUDIENCE: DENTISTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$0	$0	$25
NON-MEMBER DENTIST	$25	$25	$35
DENTAL STUDENT	$0	$0	$0

Including orthodontic therapy into comprehensive treatment planning is a valuable adjunct that can enhance aesthetic and functional outcomes in restorative dentistry. Orthodontics can assist in correction of the spatial relationships to obtain ideal tri-dimensional positioning of dental implants, and consequently, aesthetic, functional and biomechanical excellence in the prosthetic replacement of missing teeth. This lecture will focus on describing how implants can be used for orthodontic anchorage. In addition, this lecture will focus on how orthodontics can be used to develop the peri-implant site and to create space for implant restorations.

DRYER, MS. MARIANNE
ROWAN, MS. LAUREN

FROM ASSESSMENT TO ASCENSION WORKSHOP: COMPONENTS OF THE EXCEPTIONAL DENTAL HYGIENE TREATMENT PLAN – WHAT'S IN YOUR OPERATORY? | W01

8 AM-12 PM | PERIODONTICS | CE CREDITS: 4
AUDIENCE: HYGIENISTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
HYGIENIST	$189	$199	$209

An essential component in the practice of evidence-based dentistry is the clinician's level of expertise. While most clinicians strive to achieve clinical excellence, the opportunities are limited to receive hands-on instruction to improve one's skill set in the areas of scaling, biofilm disruption and coronal polishing. This workshop will deliver a combination of theory and clinical application. Elements of evidence-based decision-making through a well-defined assessment process will be examined incorporating the new 2018 AAP Classifications. The fundamentals of clinical dental hygiene practices will be reviewed and strategies to incorporate newer technologies, applications and armamentariums will be discussed. Attendees will rotate through clinical application stations covering hand instrumentation techniques, ultrasonic instrumentation techniques, and coronal polishing technique with ergonomic considerations. Strategies to enhance patient comfort and proper implementation of remineralization technologies also will be discussed and demonstrated. The goal is to empower the dental hygienist by offering an opportunity to enhance their skills through effective strategies in instrumentation sequencing and effective time management. *Attendance is limited to 30.*

THE ART OF FURCATION NAVIGATION WITH ULTRASONIC INSTRUMENTATION WORKSHOP | W05

2-5 PM | PERIODONTICS | CE CREDITS: 3
AUDIENCE: HYGIENISTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
HYGIENIST	$259	$299	$329

This workshop will examine the need for proper foundational skills in ultrasonic technique with both magnetostrictive and piezo technology. A review of proper adaptation and angulation will be discussed as well as features of both technologies to achieve better clinical outcomes. Understanding the working mechanisms of both technologies, advantages and limitations, and visual indicators to ensure proper use of the power scaling technologies will be discussed. These fundamental principles will then be applied to advanced instrumentation in the periodontal patient with focus on furcation involvement and areas of challenging anatomical access. Maintenance of ultrasonic inserts and tips will be discussed along with optimum water management and individual patient considerations. *Attendance limited to 30.*

DUPONT, DR. GLENN

NEW DENTIST RECOMMENDED

DIAGNOSIS AND TREATMENT PLANNING: STILL THE KEYS TO SUCCESS | C07

9 AM-12 PM | TREATMENT PLANNING | CE CREDITS: 3
AUDIENCE: DENTISTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
DENTAL STUDENT	$0	$0	$0

A 43-year retrospective in three hours! Drawing from more than four decades of dental experience, Dr. DuPont will share a simple, systematic approach for evaluating patients and developing a comprehensive treatment plan and efficient treatment sequence. This systematic thought process can be applied to both simple and difficult restorative challenges to create long-term stability with beautiful results. Learn to apply this step-by-step approach to a wide range of cases. Discover the element of communications with patients, specialists and laboratory professionals, which are equally critical to a successful outcome. Explore how to evaluate and communicate the position of the TMJs, the influence of the muscles and the envelope of function and their interior relationship when restoring severe anterior wear problems. Dr. DuPont also will share approaches that are made possible with new materials and techniques. Employ these keys to success in your own dental practice for predictable, beautiful results and to help patients achieve optimum dental health.

This lecture is partially sponsored by American College of Dentists Excellence and Ethics

GONZALES, DR. THERESA

NEW DENTIST RECOMMENDED

EMERGING TRENDS IN THE DIAGNOSIS AND MANAGEMENT OF CHRONIC OROFACIAL PAIN | C08

9 AM-12 PM | ORAL PATHOLOGY | CE CREDITS: 3
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, ADMINISTRATIVE STAFF, LABORATORY TECHNICIANS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69
DENTAL STUDENT	$49	$59	$69

Chronic orofacial pain (COFP) is relatively common with approximately 7% of the general population reporting such symptoms, which concomitantly occur with other somatic symptoms that cannot be adequately explained by known organic pathology. While the etiology of COFP is far from certain, there is compatible evidence of central nervous system sensitization and neural reorganization in the brain, brainstem and spinal cord. The trigeminal pain system presents many sites for potential neural dysregulation. The trigeminal brainstem sensory nuclear complex is an important site for craniofacial nociceptive transmission and may be a key region of neuroplasticity and central sensitization. There is a growing body of literature that identifies morphological abnormalities in the brains of individuals with chronic pain conditions such chronic orofacial pain, migraine, chronic back pain, chronic tension type headache and irritable bowel syndrome. This lecture is designed to update the clinician with deployable contemporary diagnostic and treatment algorithms in the ongoing efforts to responsibly manage orofacial pain.

GONZALES, DR. THERESA

NEW DENTIST RECOMMENDED

ORAL PATHOLOGY FROM A TO Z | C19

2-5 PM | ORAL PATHOLOGY | CE CREDITS: 3
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, ADMINISTRATIVE STAFF, LABORATORY TECHNICIANS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69
DENTAL STUDENT	$49	$59	$69

This lecture is designed to reacquaint the oral health care provider with common mucosal presentations. “Common things occur commonly” is an axiomatic principle that governs clinical practice. According to a recent study, there are a handful of relatively common oral mucosal presentations that comprise almost three-quarters of oral lesions for which patients seek consultation. This lecture will provide a review and clinical update on those commonly encountered pathologic entities as well as the deployment of the appropriate treatment algorithm. Clinical presentations from aphthae to zoster will be covered to improve the clinician’s comfort level in diagnosing and managing these conditions.

THE PERIODONTAL CO-THERAPIST: CONTEMPORARY PERIODONTOLOGY FOR THE RDH | C20

2-5 PM | HYGIENE | CE CREDITS: 3 | AUDIENCE: HYGIENISTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
HYGIENIST	$49	$59	$69

In addition to providing patient care, dental hygienists educate and advise their patients regarding etiology/risk factors, proposed therapeutic options and the treatment experience. This lecture will present documentation of various clinical cases treated with surgical therapy and non-surgical therapy. These cases will illustrate how contemporary periodontal therapy can be used to provide health, restore the periodontium and improve aesthetics for patients. Scientific evidence supporting the periodontal therapy used in each clinical case will be examined.

HIGBY, MS. KERI

S.T.A.R. WOMEN'S SELF-DEFENSE DEEP DIVE | DD02-NC

9-11 AM | SPECIAL INTEREST | CE CREDITS: 0
AUDIENCE: ALL ATTENDEES

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
ALL ATTENDEES	$125	$135	$145

This Safety Tactics and Awareness Response (S.T.A.R.) course is designed for women and will teach attendees the mindset of minimizing the risk of becoming a victim. The method of instruction is primarily instructional, with the last 45 minutes demonstrating and practicing the five basic self-defense techniques. This course is regularly hosted at the Sheriff's Office Training Center where individuals learn the self-defense skills rarely taught. As a woman in dentistry, it's important to stay alert and be prepared to protect yourself, your colleagues and your patients. Be sure to attend this course to prepare yourself for the unthinkable and take action without hesitation! *Attendance is limited to 15.*

This deep dive is fully sponsored by

KASEM, DR. RAED

NEW DENTIST RECOMMENDED

HOW TO DEAL WITH ENDODONTIC FAILURE EVEN WHEN IT SEEMS HOPELESS AT TIMES | C09

9-11 AM | ENDODONTICS | CE CREDITS: 2
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69
DENTAL STUDENT	$0	$0	$0

This lecture will provide practical treatment planning guidelines for cases of failed endodontic treatment even when severe periradicular bone loss or root resorption is present. Dr. Kasem will review the advantages of CBCT scan technology to reach a more definite diagnosis and uncover the etiology of such cases in order to determine the best treatment approach including, non-surgical retreatment vs. micro-surgical retreatment. Various instruments, materials and dental equipment will be discussed as means to enhance best treatment outcomes and prevent loss of teeth to extraction.

KATZAP, DR. MICHAEL

CLINICAL APPLICATIONS OF BONE GRAFT CEMENT WORKSHOP | W06

2-5 PM | ORAL SURGERY | CE CREDITS: 3 | AUDIENCE: DENTISTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$199	$199	$229
NON-MEMBER DENTIST	$299	$299	$329

This workshop will discuss practical applications of bone graft cement in minor oral surgery and implant surgery. Dr. Katzap will cover the incorporation of bone graft cement in socket grafting, lateral grafting, vertical sinus lift application, immediate implant placement and more. This is a practical hands-on course to allow the clinician quick incorporation of bone graft cement into one's practice. Experience of using bone graft cement will be performed by participants on models in the workshop. *Attendance is limited to 30.*

Participant Requirements: Loupes or other protective eye wear.

This workshop and equipment are fully sponsored by

INTEGRATIVE MEDICINE: IT'S NOT ALTERNATIVE ANYMORE | C10

9-11 AM | ORAL MEDICINE | CE CREDITS: 2
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, ADMINISTRATIVE STAFF, LABORATORY TECHNICIANS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69
DENTAL STUDENT	$49	$59	$69

Integrative medicine is a healing-oriented discipline that takes into account the whole person: body, mind and spirit. It emphasizes the therapeutic relationship and makes use of both conventional and evidence-based alternative therapies. Explore the possibilities of this new approach to medicine and health.

LOW DOG, DR. TIERAONA

INTEGRATIVE APPROACHES TO PAIN FOR THE DENTAL TEAM | C21

2-4 PM | ORAL MEDICINE | CE CREDITS: 2
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, ADMINISTRATIVE STAFF, LABORATORY TECHNICIANS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69
DENTAL STUDENT	$49	$59	$69

Data shows that more than 100 million Americans suffer from chronic pain: more than those with heart disease, cancer and diabetes combined. While opioids are powerful allies in pain management, the risk of addiction, depression, central hypogonadism, sleep-disordered breathing, infections, cognitive impairment, falls, non-vertebral fractures and mortality are increased in populations taking these medications long term. Clinicians should be aware of the evidence of efficacy and safety for the use of complementary and integrative approaches to the pain management, including an understanding of which conditions might be most amenable to these interventions.

MCDERMOTT, MR. ROBERT
FIDANZA, MR. DAVE

JUST HOW EASY IS IT TO FALL VICTIM TO A CYBERCRIMINAL? TOO EASY WHEN HACKERS SUCCESSFULLY ATTACK EVERY 39 SECONDS! | C22

2-4 PM | TECHNOLOGY | CE CREDITS: 2
AUDIENCE: DENTISTS, ASSISTANTS, ADMINISTRATIVE STAFF

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$0	$0	$25
NON-MEMBER DENTIST	$49	$49	$59
TEAM MEMBER	$49	$49	$59

"Cybersecurity … is an afterthought … as doctors use legacy hardware and software, staff lack the security know-how to implement updates and patches in a timely manner, and many medical devices lack security software altogether." That was a statement from Malwarebytes in 2019 … and yet the same problems with safeguarding protected health information (PHI) still continues to leave practices vulnerable to increasingly sophisticated attacks. Cybercriminals often target dental and medical practices through email. These emails trick you into clicking a dangerous link or calling a scam phone number. Their goal is to access your system and mine your data without you knowing it, or hold your practice information for ransom. PHI is a high-dollar commodity, selling for hundreds of dollars per record. This makes practices with outdated technology and protocols prime targets for cyber attacks. In this lecture, attendees will learn how to identify cybercrime tactics, the legal responsibilities that may result from cybercrime and the steps to take to prevent your data from being stolen, sold or held for ransom. Mr. McDermott and Mr. Fidanza will discuss how hackers successfully attack an internet computer every 39 seconds and the tips and tricks you need to refrain from being their next victim.

This lecture is fully sponsored by iCoreConnect

MCDONALD, DR. EDWIN

MASTER ASSISTANT CLASS: THE SEAMLESS CLINICAL APPOINTMENT | C11

9 AM-12 PM | ASSISTING | CE CREDITS: 3
AUDIENCE: ASSISTANTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
ASSISTANT	$49	$59	$69

This lecture is about building the partnerships within the practice that will lead to exceptional patient experiences and a more meaningful assisting career. These critical partnerships are grounded in the agreed upon values of the practice. From these foundational values, attendees will learn how to build agreements and execute systems that reflect the standards, protocols and objectives that are important to the practice performance. Attendees will leave this course with an expanded view of what is possible for them in their role as a chairside assistant, a leader in the practice and an advocate for their patients. This lecture is also designed to support the assistant of the dentist enrolled in the Pankey Essentials 1 Workshop (PE1) being offered during the convention. *This is a two-part course (C11 and C23) that is best attended as a full-day learning experience. For comprehensive learning, you must register and pay for both courses for the full-day experience. However, attendees may take either the morning or afternoon course separately.*

This lecture is fully sponsored by Dentsply Sirona

MASTER ASSISTANT CLASS: BUILDING CLINICAL COMPETENCY | C23

2-5 PM | ASSISTING | CE CREDITS: 3
AUDIENCE: ASSISTANTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
ASSISTANT	$49	$59	$69

This lecture is designed to build your competence and confidence in the clinical techniques, materials and instruments that are required in the most common procedures of a general practice. It will showcase the best-of-the-best materials and products of 2022. Each clinical topic will focus on the skills and knowledge that illustrate the critical role of a chairside assistant in achieving successful outcomes. These skills will lower stress and increase the predictability and productivity of routine clinical procedures. This lecture will help attendees build the skill sets that will allow them to work more independently and add more value to the practice. It will be informative for expanded function chairside assistants as well as the chairside assistants that are newer in their career. This lecture is also designed to support the assistant of the dentist enrolled in the Pankey Essentials 1 Workshop (PE1) being offered during the convention. *This is a two-part course (C11 and C23) that is best attended as a full-day learning experience. For comprehensive learning, you must register and pay for both courses for the full-day experience. However, attendees may take either the morning or afternoon course separately.*

WHAT AND WHY DIGITAL IMPRESSIONS ARE IMPORTANT FOR YOUR PRACTICE: FROM SIMPLE TO COMPLEX CASES | C12

9 AM-12 PM | PROSTHODONTICS | CE CREDITS: 3
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, LABORATORY TECHNICIANS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69
DENTAL STUDENT	$49	$59	$69

Digital impressions are not just taking an imprint, but a transformation in the way we treat patients. For natural teeth and implant restorations alike, the evidence is clear that digital impressions are more accurate, more efficient and provide you and your patients with better outcomes. Therefore, by combining it with the numerous powerful tools that will be discussed, it will provide clinicians, labs and patients with a far better understanding and collaboration for treatments, which results in converting consults to case acceptance. *This is a two-part course (C12 and W07) that is best attended as a full-day experience. For comprehensive learning, you must register and pay for both courses for the full-day experience. However, attendees may choose to take the lecture course only.*

NG, DR. JONATHAN

DIGITAL IMPRESSIONS WORKSHOP: HOW YOU CAN USE THIS TOOL FOR SIMPLE TO COMPLEX CASES | W07

2-5 PM | PROSTHODONTICS | CE CREDITS: 3
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, LABORATORY TECHNICIANS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$349	$399	$429
NON-MEMBER DENTIST	$399	$449	$479
TEAM MEMBER	$349	$399	$429

Digital impressions can be confusing and using it is sometimes daunting. This workshop aims to show how simple impressions really are. Hands-on use of scanners for various scenarios will show attendees how to make a scan for natural teeth, implants and edentulous arches. This workshop will also explore the various ways that the digital impression is changing the way dental professionals do dentistry by reviewing workflows and scan strategies. This workshop is not only perfect for those just starting out with digital impressions but will be an essential learning opportunity for those already using digital impressions as you will learn useful tips and tricks that will make your scans more efficient and more predictable. *The lecture, What and Why Digital Impressions are Important for your Practice: From Simple to Complex Cases (C12) is a prerequisite for this workshop. You must register and pay for both courses for a full-day experience. Attendance is limited to 30.*

OCASIO, MR. JEAN

CREATING THE DIGITAL WORKFLOW FOR THE DENTAL ASSISTANT | C13

9-11 AM | ASSISTING | CE CREDITS: 2
AUDIENCE: DENTISTS, ASSISTANTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
ASSISTANT	$49	$59	$69
DENTAL STUDENT	$49	$59	$69

Ever wonder where the phrase, "Work smarter, not harder," came from? It has actually been around longer than you might suspect. Digital dentistry has proven to do that. There's no way around it: The future of dentistry is inevitably digital. With cutting-edge digital dental technologies for impressions, treatment planning, design and 3D printing, what was once prohibitively expensive is rapidly becoming accessible, already transforming thousands of dental practices and labs worldwide. As CAD/CAM continues to replace traditional workflows and is becoming the standard of dental care, digital solutions have become a necessary consideration for any dental business. A workflow is defined as a predefined set of work steps and partial ordering of these steps in any environment to achieve the expected outcome. This lecture will investigate the workflow of providers in a dental office. It is important to understand the interaction of dental providers with the existing technologies at point-of-care to assess breakdown in the workflow, which could contribute to better technology designs.

REFLECTION OF AN UPSCALE PRACTICE STARTS WITH THE DENTAL TEAM: DRESSING FOR SUCCESS | NC06

3:30-4:30 PM | SPECIAL INTEREST | CE CREDITS: 0
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, ADMINISTRATIVE STAFF, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$0	$0	$25
NON-MEMBER DENTIST	$25	$25	$35
TEAM MEMBER	$25	$25	$35
DENTAL STUDENT	$0	$0	$0

You've probably heard the saying, "You never get a second chance to make a first impression." When it comes to a dental practice, a visitor's first impression often determines whether or not that person becomes your patient. New visitors don't know you or your practice. When you think about how you look, which is more important to you, your hair or your teeth? While your hair is a very prominent aspect of your appearance, what you wear might be making a bigger impression. When you meet someone new, you most likely shake hands and smile. It's easy to attract new patients and maintain current patients simply by being pleasant and accommodating. However, this simple principle is sometimes harder for team members to execute than you might think – usually because they underestimate its importance. Positive first impressions aren't important just for new visitors. For existing patients, a positive experience at the start of an appointment provides a sense of reassurance, and confirms that they will have a good experience during the remainder of the visit.

50 SHADES OF INFLAMMATION: THE MOUTH, BODY, MIND CONNECTION | C14

9 AM-12 PM | ORAL MEDICINE | CE CREDITS: 3
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, LABORATORY TECHNICIANS, GUESTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER / GUEST	$49	$59	$69
DENTAL STUDENT	$49	$59	$69

Want to add incredible value to your patient experience? Want to learn about "permanent lifestyle change" in a way that resonates with every one of their 110 trillion cells? There is an avalanche of evidence demonstrating the connection between your patients' mouths with modern lifestyle habits: lack of sleep (zaps their discipline), shift work (after four night shifts blood sugar is elevated), poorly managed stress (shows up in every cell of their body), overeating (high fat and processed food boosts inflammation), and sedentary living (did you know "sitting is the new smoking?"). And it's bidirectional; the oral environment has far reaching effects on the rest of the body. Patients appreciate the dental health professional who sees the bigger picture and truly understands the relationship between the body, mind and mouth. Set yourself apart from the pack and develop a VALUE ADDED PRACTICE. Stop the deadly cascade with specific dental and lifestyle solutions guaranteed to change your patient's health destiny. This fact filled and inspirational program is a "call to arms" against inflammation – "let's douse the flames!"

THE PEEL TECHNIQUE

A New Paradigm in Pediatric Tongue-Tie Treatment: A Two-day Mini-Residency (MR01)

THURSDAY, JUNE 23 & FRIDAY, JUNE 24 | 9 AM-5 PM, BOTH DAYS
PEDIATRIC | CE CREDITS: 14 | AUDIENCE: DENTISTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$849	$879	$899
NON-MEMBER DENTIST	$879	$909	$929

In this two-day mini-residency, attendees will be introduced to the concept of laser frenectomies, an increasingly popular method by which dentists and physicians can treat tongue- and lip-ties in their patients. Five percent or more of the babies born in the United States have such tight tongue-ties and frenum pulls that they cannot successfully latch onto their mother's nipple and breastfeed. For the baby, serious consequences include loss of weight and the label of "failure to thrive." For the mother, this results in sore and cracked nipples, mastitis, painful engorgement and post-partum depression due to an inability to nurse her baby. This has classically been treated by a physician taking a scalpel or a pair of scissors to the newborn's mouth and cutting the attachment. The treatment of choice, however, is for a dentist to use laser technology to painlessly and bloodlessly remove the attachment, allowing the infant to immediately nurse. Though many practitioners perform tongue-tie release, few are trained in the PEEL Technique™. This technique ensures that the four movements the tongue must make in order to nurse successfully can be performed: peristalsis, elevation, extension and lateralization. *Attendance is limited to 32.*

Participant Requirements: Loupes, tweezers/cotton pliers and periosteal elevators are recommended. Dentists who own diode lasers are encouraged to bring them if they want to be certified on their own units – otherwise lasers will be supplied for the attendees.

Attendees who successfully complete MR01, as well as the online Course Examination, will be awarded a Certificate of Dental Laser Proficiency, recognized by the American Board of Laser Surgery. ***The Course Examination is not mandatory but is highly recommended.*** *View the complete course description and participant requirements on page 15 for more details.*

Dr. Robert Convissar earned his dental degree from New York University College of Dentistry. He is a fellow of the American Academy of General Dentistry and American Society of Laser Medicine and Surgery and diplomate of the American Board of Laser Surgery. Dr. Convissar maintains a private practice in New York.

Ms. Joy Funston is a registered nurse and international board certified lactation consultant. She is the founder and CEO of Joyful Start and board member of the International Affiliation of Tongue-tie Professionals.

The equipment for this mini-residency is partially sponsored by

YOUR PRACTICE THROUGH THE PATIENTS' EYES | PM04

2-4 PM | PRACTICE MANAGEMENT | CE CREDITS: 2
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, ADMINISTRATIVE STAFF, LABORATORY TECHNICIANS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69
DENTAL STUDENT	$49	$59	$69

Do you really know your patients? Do they know you? In the life cycle of a patient, it's not just about how many clicks in the computer or how many restorations were done. It's about the real conversations, the personal care and the customized touch. Ms. Philips Newland will take customer service to a whole new level by detailing who the target audience is, what they expect and what they see. A patient's positive perception is the measure of success. It's time to put on different glasses and see things in a new perspective!

RICE, DR. DAVID

THINK DIFFERENTLY ... HOW TO OVERCOME THE AMAZONING OF DENTISTRY | NC02

8 AM-12 PM | COMMUNICATION | CE CREDITS: 0
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, ADMINISTRATIVE STAFF, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$79	$89	$99
NON-MEMBER DENTIST	$84	$94	$104
TEAM MEMBER	$69	$79	$89
DENTAL STUDENT	$69	$79	$89

What is the purpose of a game – any game? What is the goal? In less than 44 seconds, your average patient can get from start to cart and buy almost anything they want on Amazon. Think about the impact that mindset has on your dental practice. Do your patients think differently than they did 10 years ago? Are they making different choices than they did five years ago? The game has changed and if your practice is anything like most, you already know that what worked a few short years ago, no longer works today. So, if your answer to what is the purpose of a game was two words – to win – this fast-paced, interactive, take-home playbook is for you. *This is a two-part course (NC02 and DD04-NC) that is best attended as a full-day experience. For comprehensive learning, you must register and pay for both courses for the full-day experience. However, attendees may choose to take the lecture course only.*

RICE, DR. DAVID

THINK DIFFERENTLY ... HOW TO OVERCOME THE AMAZONING OF DENTISTRY DEEP DIVE | DD04-NC

PATIENTS, PILLS AND PATHOLOGIES: WHY MEDICAL HISTORY CLUES ARE CRITICAL TO DENTAL TREATMENT | C15

9 AM-12 PM | PHARMACOLOGY | CE CREDITS: 3
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, ADMINISTRATIVE STAFF, LABORATORY TECHNICIANS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69
DENTAL STUDENT	$0	$0	$0

The number of Americans over the age of 65 exceeds 15% of the population and that number will increase by more than 20% over the next few decades. As patient longevity increases, so will the number of conditions, diseases and potential disabilities that these patients will present with in our dental chairs. Medically compromised patients with age-related diseases such as cancers, or lifestyle-associated factors such as obesity, drug use and abuse, as well as the myriad of common and often underestimated, abnormal physical conditions that you cross paths with on a day-to-day basis demand a sharpened focus during treatment planning, delivery of care and periodontal maintenance in general dentistry. These patients require clinicians who have a competent insight into medicine and pharmacotherapies, and are capable of deducing findings from patient medical histories and willing to collaborate with patients' medical providers to provide optimal dental care.

THURSDAY, JUNE 23

WILKERSON, DR. DEWITT

OCCLUSAL SPLINT THERAPY OPTIONS FOR MALOCCLUSIONS, NIGHTGUARDS, TMD AND SLEEP ... PLEASE HELP ME UNDERSTAND! | C26

2-5 PM | ORAL MEDICINE | CE CREDITS: 3
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, ADMINISTRATIVE STAFF, LABORATORY TECHNICIANS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69
DENTAL STUDENT	$49	$59	$69

Every dentist had the opportunity to learn about using occlusal splints in dental school for problem solving bruxism, TMD and occlusal problems. Now, dentists hear about other splints, such as the NTI, B Splint, sleep apnea splints, upper splints, lower splints, etc. It can be very confusing which splint to use, when to use it, how to use it and how long to use it for. This lecture will clarify the usage of occlusal splints in the daily practice of dentistry. Dr. Wilkerson has been using splints in his problem-solving practice since 1982. He will describe the simple to most complex conditions, indications for splint therapy and protocols for every situation. This is a don't miss opportunity to build your knowledge, understanding, implementation and business model of a valuable clinical tool.

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69
DENTAL STUDENT	$49	$59	$69

With the aging of the population plus advances in medicine, patients are coming to practices with some potential pharmacological problems. This lecture will look at some key areas that may interact with medications and dental care. Pain management will be one area of discussion as well as some specific gender related issues. This lecture will include current standards for prescribing controlled substances, particularly opiates; alternatives to these standards; nonpharmacological therapies; prescribing emergency opioid antagonists; and the risks of opioid addiction following all stages of treatment in the management of acute pain. **This lecture satisfies the Florida Board of Dentistry's continuing education requirement for Safe and Effective Prescribing of Controlled Substances.**

I'M IN CHARGE OF WHAT?! NAVIGATING HR ISSUES IN YOUR DENTAL PRACTICE | NC05

2-4 PM | ADMINISTRATION | CE CREDITS: 0
AUDIENCE: DENTISTS, ADMINISTRATIVE STAFF

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
ADMINISTRATIVE STAFF	$49	$59	$69

In dental school you learned many things, but how to be THE BOSS was not one of them. HR issues will be something that can cause great disruption and stress if you are not prepared with how to address them. This lecture will help dentists and office managers navigate hiring, firing and everything in between. Learn about effective employee manuals and policies to put in to place to help you be the best boss you can be so you can focus on what you really want to do — dentistry!

COURSES & WORKSHOPS

ALPHABETICAL BY SPEAKER'S LAST NAME

ALONGE, DR. JOHN

NEW DENTIST RECOMMENDED

MINIMALLY INVASIVE EXODONTIA AND COMPLICATIONS PLUS BIOPSY TECHNIQUES | C44

2-5 PM | ORAL SURGERY | CE CREDITS: 3
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69
DENTAL STUDENT	$49	$59	$69

This course is designed to share practical guidelines on modern armamentarium using luxators, luxatomes and specialty forceps to perform minimally invasive atraumatic exodontia techniques. Recognition and management of common complications, plus biopsy armamentarium and techniques will be reviewed. *This is a two-part course (C44 and W17) that is best attended as a full-day experience. For comprehensive learning, you must register and pay for both courses for the full-day experience. However, attendees may choose to take the lecture course only.*

ATLAS, DR. ALAN

NEW DENTIST RECOMMENDED

THE WHAT, HOW AND WHY FOR EVIDENCED-BASED SOLUTIONS TO MASTER ADHESION AND POSTERIOR COMPOSITES | C29

9 AM-12 PM | ADHESIVE | CE CREDITS: 3
AUDIENCE: DENTISTS, ASSISTANTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
ASSISTANT	$49	$59	$69
DENTAL STUDENT	$0	$0	$0

The scientific evidence reveals amalgam restorations are outperforming posterior composites long term. The key factors contributing to this concern will be examined with evidenced-based solutions demonstrated using concise step-by-step treatment protocols for preparation, placement and finishing techniques to achieve precise margins, consistent contacts and eliminate postoperative sensitivity. This course will provide a current scientific update of adhesive systems and direct aesthetic materials with indication of which systems and composite materials to use for specific cavity preparations. All procedures will be shown during this lecture using the dental microscope HD video under high magnification. *This is a two-part course (C29 and W12) that is best attended as a full-day experience. For comprehensive learning, you must register and pay for both courses for the full-day experience. However, attendees may choose to take the lecture course only.*

ATLAS, DR. ALAN

NEW DENTIST RECOMMENDED

THE WHAT, HOW AND WHY FOR EVIDENCED-BASED SOLUTIONS TO MASTER ADHESION AND POSTERIOR COMPOSITES WORKSHOP | W12

2-5 PM | ADHESIVE | CE CREDITS: 3
AUDIENCE: DENTISTS, ASSISTANTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$299	$354	$364
NON-MEMBER DENTIST	$329	$384	$399
ASSISTANT	$189	$229	$249

Demonstrating with the dental microscope and HD video projection, this hands-on workshop will provide techniques for successful direct posterior Class I and II composite resins and Class V restorations based on the scientific evidence provided in the lecture C29. Emphasis will be on techniques to eliminate postoperative sensitivity, marginal discoloration and deterioration, all of which are predictors of early failure of adhesive restorations. *The lecture, The What, How and Why for evidenced-based Solutions to Master Adhesion and Posterior Composites (C29) is a prerequisite for this workshop. You must register and pay for both courses for a full-day experience. Attendance is limited to 25.*

Participant Requirements: Loupes.

BATOON, DR. DIANA

NEW DENTIST RECOMMENDED

WAKE UP YOUR PRACTICE TO DENTAL SLEEP MEDICINE FOR YOU AND YOUR TEAM WORKSHOP | W08

9 AM-12 PM | SLEEP DISORDERS | CE CREDITS: 3
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$190	$210	$225
NON-MEMBER DENTIST	$210	$225	$240
TEAM MEMBER	$190	$210	$225

Dental sleep medicine is changing the landscape of dentistry. If you are not prepared or not screening your patients, there is a medical crisis waiting to happen. What are the first and last steps a dentist should take? How can you motivate your team to start the process and how can you implement this new and different level of service? Attend this workshop to better understand how to screen, evaluate, treat and communicate with potential sleep apnea patients. *Attendance limited to 35.*

PURCHASE AN AM AND PM COURSE ON THURSDAY TO RECEIVE A $20 LUNCH VOUCHER.

FRIDAY, JUNE 24

BATOON, DR. DIANA

WHAT I WISH I KNEW SOONER RATHER THAN LATER! | PM05

2-5 PM | NEW DENTIST | CE CREDITS: 3
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, ADMINISTRATIVE STAFF, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69
DENTAL STUDENT	$0	$0	$0

Being a new or seasoned dentist comes with challenges – both good and bad. How can you be prepared to be an effective leader, savvy business owner and thriving dentist? Attend this lecture to understand the different pathways that can support your success as a dentist that is changing by the minute. Dr. Batoon will discuss common business principles, effective communication skills with patients, strategy development and business owner insight. Attendee participation is encouraged.

BERRIOS, MR. LUIS
GILBERT, MR. ROGER

PREVENTIVE EQUIPMENT MAINTENANCE DEEP DIVE (REPEAT) | DD06-NC

9 AM-12 PM | HYGIENE | CE CREDITS: 0
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, ADMINISTRATIVE STAFF

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$125	$135	$145
NON-MEMBER DENTIST	$135	$145	$155
TEAM MEMBER	$125	$135	$145

Service calls and equipment repairs can be quite costly for the dental office. Service technicians from Patterson Dental will cover basic preventive maintenance and safety requirements for dental office equipment. In this deep dive course, attendees will learn how to properly maintain air compressors, vacuum systems, amalgam separators, autoclaves, cavitrons, handpieces, air/water syringes and solve many other maintenance issues that exist in every dental office. Attendees also will learn how to maintain digital x-ray equipment. All attendees will leave the course with a detailed equipment maintenance guide which describes daily, weekly, monthly and yearly maintenance requirements. At the end of the course, each participant will receive a coupon valued at $250 toward their next Patterson Dental service call. *This course is a repeat of Mr. Berrios' and Mr. Gilbert's course (DD05-NC) on Thursday, June 23 from 2-5 p.m. Attendance is limited to 32.*

This deep dive and equipment are fully sponsored by PATTERSON DENTAL

BLAND, MS. KIMBERLY

QUALITY DENTAL RADIOGRAPHY: IT'S NO SHOT IN THE DARK | C30

9 AM-12 PM | ASSISTING | CE CREDITS: 3
AUDIENCE: ASSISTANTS, HYGIENISTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
TEAM MEMBER	$49	$59	$69

This lecture will prepare the dental radiographer how to address various clinical challenges in accurately recording dental radiographic images on a variety of different patients. Attendees will learn tips for intraoral receptor positioning on patients such as those with tori, missing/broken teeth, narrow arches, shallow palate/floor of the mouth, pediatric patients and gaggers. Additional techniques will be presented that are designed to prevent common errors including overlapping, elongation, foreshortening, corner-drop and missed apices. Attendees also will learn how to safely acquire quality intraoral images with the use of a hand-held x-ray machine while observing safety requirements specified in 64E-5.506 F.A.C. Identifying and correcting common errors in panoramic radiography will also be discussed.

This lecture is partially sponsored by FDAA Florida Dental Assistants Association

BORRIS, DR. THOMAS

NEW DENTIST RECOMMENDED

THE MANAGEMENT OF ODONTOGENIC INFECTIONS IN DENTAL PRACTICE | C31

9 AM-12 PM | ORAL PATHOLOGY | CE CREDITS: 3
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69
DENTAL STUDENT	$49	$59	$69

This lecture will provide attendees with a sound rationale for the surgical and medical management of both minor and severe head and neck infections. Emphasis will be placed on odontogenic infections; however, other infections pertinent to dental practice also will be covered. There will be a thorough review of antimicrobial therapy. The management of more unusual infections associated with the paranasal sinuses, the use of bisphosphonates and cancer chemotherapy will be discussed.

COURSES & WORKSHOPS *ALPHABETICAL BY SPEAKER'S LAST NAME*

BORRIS, DR. THOMAS

NEW DENTIST RECOMMENDED

DON'T GET LOST IN THE MEDICAL MAZE: PROVIDING DENTAL CARE TO THE MEDICALLY COMPLEX PATIENT | C45

2-4 PM | ORAL SURGERY | CE CREDITS: 2
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69
DENTAL STUDENT	$49	$59	$69

This lecture will dive into the complex and confusing maze of patient medical history. Dr. Borris will utilize a case-based approach to sort these potential pitfalls into basic systems and, hopefully, into a more easily navigated path. Dr. Borris will stress the most medically significant issues of the cardiovascular, pulmonary and endocrine systems, as well as discuss significant issues associated with the dental management of cancer patients.

BUTLER, MS. JEN

FROM CHAOS TO COHESIVENESS: FIVE FOUNDATIONS FOR PREDICTABLE, REPEATABLE AND SCALABLE SUCCESS | NC08

9 AM-12 PM | FINANCIAL | CE CREDITS: 0
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, ADMINISTRATIVE STAFF, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69
DENTAL STUDENT	$49	$59	$69

Team members bounce into each other with the lack of consistent patient flow. Providers complete treatment for free as everyone assumes a "we send statements" attitude. Hygiene falls apart with a cross-your-fingers-they-show-up approach to confirmations. If a practice like this manages to be profitable, it is at the expense of everyone's sanity. However, most practices fail to reach the level of profitability they are capable of due to the chaos and discombobulation of the five foundational processes and systems every practice needs. Attendees will learn the details of these five foundational processes: collections, confirmation, key performance indicator (KPI) tracking, patient experience and recare. Ms. Butler will outline exactly how to merge each of these processes into a cohesive system that will results in a massively successful practice.

BUTLER, MS. JEN

TEAM SYNERGY: THE SCIENCE BEHIND THE SUCCESS OF HIGH-PERFORMING TEAMS | NC12

2-5 PM | COMMUNICATION | CE CREDITS: 0
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, ADMINISTRATIVE STAFF, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69
DENTAL STUDENT	$0	$0	$0

It is no wonder with all the miscommunication, assumptions, conflict and disappointments that occur in a day and a life of a practice, that team issues are among the top five stressors, potentially costing a single practice hundreds of thousands of dollars every year. The time of building a team from an eeny-meeny-miny-moe method is over! Learn how to rely on verifiable science to create a team based on instinctive strengths and natural talents. Ms. Butler will explain the science behind team synergy and how to build and maintain it for sustainable success. attendees will acquire the tools and resources necessary to hire team members who fill in gaps, lead them to high performance and retain them long term. Get ready to stress LESS and apply the science of high-performing teams.

Budget-Friendly Hotel Option

FDC2022 offers a budget-friendly room block at the Fairfield Inn & Suites conveniently located 1.5 miles from the Gaylord Palms Resort & Convention Center.

The room rate is $119 per night including free self-parking and breakfast. Shuttle service to the Gaylord Palms is not available.

Visit hotel.floridadentalconvention.com or call 407.390.1532 to make your hotel reservation today.

FRIDAY, JUNE 24

DAVIS, DR. TODD

OCCLUSAL EQUILIBRATION — WHY, WHEN AND HOW WORKSHOP | W09

9 AM-12 PM | AESTHETIC | CE CREDITS: 3 | AUDIENCE: DENTISTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$329	$349	$379
NON-MEMBER DENTIST	$349	$369	$399

This workshop will provide hands-on exercises to help attendees learn the principles and skills involved with occlusal equilibration. Attendees will feel more confident in helping their patients who need occlusal therapy. *Attendance is limited to 25.*

Participant Requirements: Loupes.

DAVIS, DR. TODD

NEW DENTIST RECOMMENDED

PREDICTABILITY IN RESTORATIVE CARE | C46

2-5 PM | RESTORATIVE | CE CREDITS: 3

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, LABORATORY TECHNICIANS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69
DENTAL STUDENT	$0	$0	$0

This lecture will present what is involved in delivering restorative care that not only looks beautiful but also has the longevity that patients deserve. Attendees will learn how to provide restorative care that lasts with predictability. They also will learn what it takes to become confident in delivering excellent restorative dentistry.

DEWHIRST, MS. NANCY

INSTRUMENT SHARPENING WORKSHOP: NEVER A DULL MOMENT | W10

9 AM-12 PM | HYGIENE | CE CREDITS: 3

AUDIENCE: ASSISTANTS, HYGIENISTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
TEAM MEMBER	$189	$199	$229

This workshop will demonstrate how to preserve the original instrument design and shape while creating sharp edges, using a variety of hand and mechanical techniques and devices, loupes and lights. A slide presentation and interactive dialogue will lay the groundwork for clinical instruction and participant practice, using hand sharpening techniques and several mechanical instrument sharpeners with magnification. Understanding the key geometrical relationships between instrument surfaces and edges will help attendees be successful using hand and mechanical sharpening techniques and devices. *Attendance is limited to 40.*

Participant Requirements: Loupes, if you use them.

The equipment for this workshop is partially sponsored by Nordent The sharpest name in dentistry.

DRYER, MS. MARIANNE
ROWAN, MS. LAUREN

AAP CLASSIFICATION OF PERIODONTAL AND PERI-IMPLANT DISEASES — THE SYSTEMIC CONNECTION | C32

9 AM-12 PM | HYGIENE | CE CREDITS: 3

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69
DENTAL STUDENT	$49	$59	$69

The updated American Academy of Periodontology (AAP) classification system represents a multi-dimensional staging and grading framework for periodontitis and implant disease status. This lecture will examine the concepts of staging and grading to classify each patient by complexity of case management, likelihood of less predictable response to therapy and potential for periodontitis development. The systemic connection as it relates to the grading portion of the classification system will be examined with a synopsis of the COVID-19 virus and it's relationship to oral health/periodontal disease. Diagnosing, treatment planning and executing appropriate and necessary periodontal therapies will be reviewed utilizing case presentations and examining the systemic conditions patients present with. A hallmark feature of the updated system will bring opportunities for more case specific patient care. The need for calibration and clinician alignment with the new classification system will be discussed along with narrative examples for documentation recommendations.

FERGUSON, DR. KATHERINE
FERGUSON, DR. RICK

DIGITAL DENTISTRY AND IN-OFFICE 3D PRINTING: A HANDS-ON WORKSHOP | W13

2-5 PM | ORTHODONTICS | CE CREDITS: 3

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, LABORATORY TECHNICIANS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$149	$149	$199
NON-MEMBER DENTIST	$199	$199	$229
TEAM MEMBER	$149	$149	$199

This workshop will introduce digital dentistry and in office 3D printing to fabricate temporary crowns, immediate dentures, occlusal guards, orthodontic alingers and more! *Attendance is limited to 40.*

This workshop is fully sponsored by DIGITAL EDUCATORS | IMPLANT EDUCATORS ACADEMY

DENTAL STUDENT	$0	$0	$0

The word "diagnosis" is derived from Greek and it is literally translated, "through knowledge." This lecture is designed to reacquaint the oral health care provider with an organized approach to the physical examination of the head and neck. Diagnosis is the key to patient care, and no therapeutic skill can compensate for an inability to adequately assess and evaluate a patient. A system, therefore, must be developed in both the history taking and clinical examination to minimize the possibility of missing the underlying pathologic condition. Clinicopathologic correlations will be used to supplement principles of physical diagnosis during this lecture.

GUEITS, MS. LAUREN

IT'S CLEAR! THE HIDDEN HEALTH BENEFITS OF CLEAR ALIGNER THERAPY EVERY HYGIENIST NEEDS TO KNOW | C47

2-4 PM | ORTHODONTICS | CE CREDITS: 2
AUDIENCE: DENTISTS, HYGIENISTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
HYGIENIST	$49	$59	$69

Patients are bombarded with social media pop-up ads and commercials about the cosmetic benefits of straightening their teeth. They look to their hygienist for guidance. This lecture will provide you with background information on how clear aligner therapy goes way beyond the "selfie smile." Learn this highly effective treatment modality to prevent disease of both hard- and soft-tissues such as: recession, abfractions, accelerated wear and fracturing of teeth. Join Ms. Gueits as she takes you on a journey to fully understand the benefits of clear aligner therapy and how to translate this into engaging patient conversations.

FRIDAY, JUNE 24

HEMPTON, DR. TIMOTHY

IMPLANT THERAPY AND THE RDH | C34

9 AM-12 PM | HYGIENE | CE CREDITS: 3 | AUDIENCE: HYGIENISTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
HYGIENIST	$49	$59	$69

Implant therapy is, under the appropriate circumstances, a viable and predictable treatment modality. In addition to providing maintenance for previously placed dental implants, the dental hygienist frequently confers with patients who are considering implant therapy as an option to replace missing teeth. This lecture will review maintenance for implants with healthy peri-implant tissues and implants presenting with peri-implant disease. In addition, to facilitate a better understanding of the overall process of implant dentistry, the basics of surgical placement, bone grafting, prosthetic options, anatomical concerns and systemic factors also will be reviewed.

HEMPTON, DR. TIMOTHY

NON-SURGICAL THERAPY FOR NATURAL DENTITION AND DENTAL IMPLANTS: A ROOT AND IMPLANT DEBRIDEMENT WORKSHOP | W14

2-5 PM | HYGIENE | CE CREDITS: 3 | AUDIENCE: HYGIENISTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
HYGIENIST	$299	$329	$349

In this workshop, contemporary concepts and procedures for providing non-surgical management of periodontal diseases and peri-implantitis will be presented in both a lecture and a hands-on format. The etiology of periodontal diseases and the etiology of peri-implantitis will be reviewed and discussed. The new classification system for periodontal diagnosis, which includes staging and grading, will also be discussed and presented. To facilitate discussion on the new classification system, clinical case presentations will be presented and a question and answer poll session will be included. Regarding root and implant debridement, the hands-on portion of this workshop will include periodontal and peri-implant instrumentation with hand curettes and ultrasonic instrumentation. *Attendance is limited to 20.*

Participant Requirements: A mobile device, tablet or laptop for interactive exercises.

KAPLAN, MR. JASON

ARE YOU READY FOR OWNERSHIP OR RETIREMENT? START PLANNING TODAY! | NC13

2-5 PM | FINANCIAL | CE CREDITS: 0

AUDIENCE: DENTISTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$0	$0	$25
NON-MEMBER DENTIST	$49	$49	$59
DENTAL STUDENT	$49	$49	$59

Thinking about practice ownership or retirement? Whether you are ready to transition now or in five years, this crash course presented by some of the top professionals in their respected fields will teach you the ABCs and 1-2-3s of what dentists need to know to confidently put together a successful practice transition plan. During this lecture, attendees will receive insight on important considerations, including market conditions and trends, legal review and buyer strategies when planning the next step in their career. This lecture will detail the process of buying and selling dental practices. The speakers will review how to properly structure a practice to reduce tax liability, examine non-compete agreements, discuss purchasing issues, compare real estate versus leases and explain dental board compliance. Attendees will have the opportunity to ask questions and surround themselves with peers who may be facing the same reality.

This lecture is fully sponsored by Doctor's Choice

NEW DENTIST RECOMMENDED

UTILIZING 3D PRINTING TECHNOLOGY IN GENERAL DENTISTRY: A TWO-DAY MINI-RESIDENCY | MR02

FRIDAY, JUNE 24 & SATURDAY, JUNE 25 | 9 AM-5 PM, BOTH DAYS

TECHNOLOGY | CE CREDITS: 14

AUDIENCE: DENTISTS, ASSISTANTS, LABORATORY TECHNICIANS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$1,595	$1,695	$1,795
NON-MEMBER DENTIST	$1,695	$1,795	$1,895
TEAM MEMBER	$1,595	$1,695	$1,795

The opportunities for 3D printing and scanning and integration into other dental office systems like Cone Beam CT imaging is expanding at an alarming rate. This two-day mini-residency will discuss the practical ways to incorporate this technology into the general dental office and the tremendous potential that it has for return on investment. Topics will include 3D printed study models, surgical guides, in-office aligners and occlusal guards. Particular emphasis will be placed on the workflow that team members can support. *Attendance is limited to 30.*

Participant Requirements: PC laptop, if participant owns one.

COURSES & WORKSHOPS *ALPHABETICAL BY SPEAKER'S LAST NAME*

LOW DOG, DR. TIERAONA

WOMEN'S HEALTH: A GUIDE TO WOMEN'S WELLNESS | C35

9-11 AM | ENRICHMENT | CE CREDITS: 2
AUDIENCE: ALL ATTENDEES

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69

GUEST	$49	$59	$69

As women search for ways to optimize their health, they must sift through an enormous amount of recommendations advertised in both conventional and complementary medicine. What is your personal health IQ? Do you know ways to reduce your risk of heart disease, breast cancer and osteoporosis? Are natural hormones safe? Should I get hormone replacement? Join Dr. Low Dog for this highly informative lecture that explores strategies for optimizing health in women across the lifespan.

LOW DOG, DR. TIERAONA

NUTRITION, DIETARY SUPPLEMENTS AND THEIR RELATIONSHIP TO ORAL HEALTH | C48

2-4 PM | NUTRITION | CE CREDITS: 2
AUDIENCE: ALL ATTENDEES

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER / GUEST	$49	$59	$69
DENTAL STUDENT	$49	$59	$69

A growing body of evidence now shows the direct link between nutrition, dietary supplements and oral health. However, many dental professionals feel inadequately prepared to effectively counsel patients on healthy eating and using supplements to fill nutrient gaps. Additionally, nutritional supplements have been shown through scientific investigation to benefit oral and overall health. All members of the health care team should be familiar with the evidence of safety and benefit for the most commonly used dietary supplements to enhance patient outcomes and reduce the risk of adverse events associated with dental procedures. This informative and fact-filled lecture will explore how macronutrients, micronutrients, glycemic index/load, dietary patterns and sugar substitutes impact oral health, periodontal disease and overall health. Learn the cutting-edge science behind the recommendations in this lecture.

FRIDAY, JUNE 24

MCDONALD, DR. EDWIN

THE ART AND SCIENCE OF PROVISIONAL RESTORATIONS FOR ASSISTANTS | C36

9 AM-12 PM | ASSISTING | CE CREDITS: 3
AUDIENCE: ASSISTANTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
ASSISTANT	$49	$59	$69

Provisional restorations are critical to successful outcomes in restorative dentistry, as well as in creating and maintaining excellent health, beauty and function prior to the completion of the final restoration. This lecture is designed to develop the fundamental skills of dental assistants like, aesthetics, function, contour and fit required in creating excellent provisional restorations. Dr. McDonald will discuss how attendees can fabricate predictably excellent provisionals for more complex cases. This lecture is also designed to support the assistant of the dentist enrolled in the Pankey Essentials 1 Workshop (PE1) being offered during the convention. *This is a two-part course (C36 and W15) that is best attended as a full-day experience. For comprehensive learning, you must register and pay for both courses for the full-day experience. However, attendees may choose to take the lecture course only.*

This lecture is fully sponsored by Dentsply Sirona

MCDONALD, DR. EDWIN

THE ART AND SCIENCE OF PROVISIONAL RESTORATIONS FOR ASSISTANTS WORKSHOP | W15

2-5 PM | ASSISTING | CE CREDITS: 3 | AUDIENCE: ASSISTANTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
ASSISTANT	$239	$259	$279

Provisional restorations are critical to successful outcomes in restorative dentistry. Learning to create beautiful provisional restorations is very much a hands-on process. In this workshop, Dr. McDonald will first review dental anatomy, occlusion and aesthetics. Attendees will then fabricate, contour and polish provisional restorations on anterior and posterior teeth using integrity and various composites. The attendee will learn how to use simple and specific reference points to create very precise provisional restorations. The workshop will finish with the materials and techniques of modifications and repairs. This lecture is also designed to support the assistant of the dentist enrolled in the Pankey Essentials 1 Workshop (PE1) being offered during the convention. *The lecture, The Art and Science of Provisional Restorations for Assistants (C36) is a prerequisite for this workshop. You must register and pay for both courses for the full-day learning experience. Attendance is limited to 25.*

This workshop is fully sponsored by Dentsply Sirona

MERIJOHN, DR. GEORGE

NEW DENTIST RECOMMENDED

KIWIMETHOD® HANDS-ON WORKSHOP: MINIMALLY INVASIVE AUTOGENOUS GINGIVA GRAFTING | W16

2-5 PM | PERIODONTICS | CE CREDITS: 3
AUDIENCE: DENTISTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$499	$529	$559
NON-MEMBER DENTIST	$529	$559	$589

Gingival recession is part of everyday dentistry, yet it presents some of the most challenging treatment considerations dentists face. Fear of postsurgical pain, bleeding and sometimes unpredictable results associated with conventional gingival grafting surgery can cause dentists to hesitate in treatment. This workshop is the engine of change you've been looking for to learn minimally invasive, practical, and proved gingival grafting for root coverage and non-root coverage. *The lecture, Management and Prevention of Gingival Recession Seminar (C37) is a prerequisite for this workshop. You must register and pay for both courses for a full-day experience. Attendance is limited to 24.*

Participant Requirements: Magnifying loupes, personal safety glasses/goggles and battery-powered light source.

NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69
DENTAL STUDENT	$0	$0	$0

In 2017, the Centers for Disease Control and Prevention (CDC) reported that there were more than 100 million U.S. adults living with diabetes or pre-diabetes. One source claims that 88 million people in the U.S. have pre-diabetes and 84% of them do not know it. Dentists have many patients with both diagnosed and undiagnosed type II diabetes mellitus in their practices. In addition to carotid plaques seen on panoramic radiographs, you can detect more serious calcifications called medial arterial calcifications (MAC) on CBCT images; that is, if you know where to look, what you are looking for and what image processing tools to apply. Early detection of disease helps the patient's primary care physician diagnosis and could, in some cases, save the patient's life. Early detection also will enhance the quality of the diabetic patient's life and possibly prevent many below-the-knee amputations. Learn to recognize key radiographic features in your cone beam images of one of the most common and often undetected medical problems: type II diabetes mellitus.

PRACTICE ADMINISTRATOR COURSE HIGHLIGHTS

From Chaos to Cohesiveness: Five Foundations for Predictable, Repeatable and Scalable Success | NC08

MS. JEN BUTLER | FRIDAY, JUNE 24 | 9 AM-12 PM
DISCOUNTED RATE OF $49 FOR ADMINISTRATIVE STAFF.*

Team members bounce into each other with the lack of consistent patient flow. Providers complete treatment for free as everyone assumes a "we send statements" attitude. Hygiene falls apart with a cross-your-fingers-they-show-up approach to confirmations. However, most practices fail to reach the level of profitability they are capable of due to the chaos and discombobulation of the five foundational processes and systems every practice needs. Attendees will learn the details of these five foundational processes: collections, confirmation, key performance indicator (KPI) tracking, patient experience and re-care. Ms. Butler will outline exactly how to merge each of these processes into a cohesive system that will results in a massively successful practice.

Register for Ms. Butler's other courses for a full administrative learning experience!

Communications, Coding and Collections: The 3 C's to a Profitable Practice | C50

MS. LACI PHILLIPS NEWLAND | FRIDAY, JUNE 24 | 2-5 PM
DISCOUNTED RATE OF $49 FOR ADMINISTRATIVE STAFF.*

Have you ever juggled? Most dental owners juggle every day between the business, the clinical area, the team and home life. Although it may feel like you have 25 balls in the air, let Ms. Phillips Newland walk you through how to prioritize and organize to narrow it down to three main areas of your practice with the ultimate goal of a balanced day. Let's start with clean well-defined systems, making sure there are standard operating procedures to follow. Next, will focus on — the heart of your practice — and understanding techniques to achieve a happy, high-performing team. Lastly, Ms. Phillips Newland will add in technology. It is only good when it is used in an efficient way. It is time to define and refine this balancing act: Don't drop the ball!

Register for Ms. Phillips Newland's other courses for a full administrative learning experience!

NG, DR. JONATHAN

NEW DENTIST RECOMMENDED

NEW TOOLS IN DIGITAL TREATMENT PLANNING: FROM VIRTUAL TO REALITY | C38

9-11 AM | TREATMENT PLANNING | CE CREDITS: 2
AUDIENCE: DENTISTS, LABORATORY TECHNICIANS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
LABORATORY TECHNICIAN	$49	$59	$69

Current technology is improving clinical success and enhancing patient experience. The use of digital technology not only makes what you do more efficient, but it also provides higher quality outcomes. Attendees should register for this lecture to see how digital dentistry is essential to the modern practice and evaluate some of the tools that already exist, which will help peak performance. The benefits of better communication with labs, patients and between clinicians will be discussed. Attendees will learn to understand how technology helps create treatment plans through digital pathways for restorative, implant and removable dentistry with improved treatment delivery and final outcomes. Learn to monitor your patients' dental changes with simple tools that make a big impact on patient acceptance of treatment recommendations, understanding how technology is already in all aspects of dentistry and see how it will dramatically improve the way you practice dentistry. Provide your patients with the WOW before they say YES!

9-11 AM | COMMUNICATION | CE CREDITS: 2
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, ADMINISTRATIVE STAFF, LABORATORY TECHNICIANS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69
DENTAL STUDENT	$49	$59	$69

Patients do not leave their stressful jobs, poor sleeping patterns (insomnia, apnea, snoring), their physical fitness (or lack) or their eating patterns (mindless eating and evening feeding frenzies) in the car before they sit in the dental chair. There is irrefutable scientific evidence that these habits have the ability to ramp up inflammation or dial it down. Well-adjusted, rested, physically active, healthy eating patients enjoy a physiology that supports a better response to our prevention/restorative interventions. This invigorating lecture is geared to give the dental team strategies to understand healthy living. Not only will they be better able to guide their patients to better total health, but also receive insider information to improve their entire teams' health. The research shows that physically active professionals and CEOs have better cognitive ability and more zest for life than their inactive counterparts. Most dental professionals are surprised to discover the link between their energy, vitality and their performance in the office.

PHILLIPS NEWLAND, MS. LACI

CREATING LEADERS IN YOUR PRACTICE: 3 KEY SYSTEMS TO A PERFECT TEAM | NC10

9-11 AM | COMMUNICATION | CE CREDITS: 0
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, ADMINISTRATIVE STAFF, LABORATORY TECHNICIANS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10

SAKR, MR. DANY

WHAT EVERY DENTAL ASSISTANT NEEDS TO KNOW ABOUT PROVISIONALIZATION FOR IMPLANTS RESTORATIONS WORKSHOP | W11

9 AM-12 PM | ASSISTING | CE CREDITS: 3
AUDIENCE: DENTISTS, ASSISTANTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$329	$349	$379
NON-MEMBER DENTIST	$349	$369	$399
ASSISTANT	$329	$349	$379

In most cases, a well-constructed provisional provides a predictable blueprint for restorative success. This certainly is true for implant restorations where you are often aligning implant position, abutment contour, gingival sculpting and clinical crown height to optimize aesthetics as well as the health of the tissue and implant. This workshop is designed to help dental assistants identify various implant provisionalization techniques from chairside temporaries to lab fabricated implant temporaries. *Attendance is limited to 30.*

SAKR, MR. DANY

HOW TO SUCCESSFULLY PLAN, MANAGE AND SERVICE IMPLANT OVERDENTURE CASES | C51

2-5 PM | IMPLANTS | CE CREDITS: 3
AUDIENCE: DENTISTS, ASSISTANTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
ASSISTANT	$49	$59	$69

Implant supported overdentures are a valuable service you as an industry provide patients. Being confident with all aspects of case selection, treatment planning, process management and servicing overdentures will enable the office to successfully incorporate overdentures into the practice with confidence. Attendees will learn to understand the simple workflow for sequencing cases from the initial records and pictures, to try-in and final delivery. Attendees also will have the opportunity to learn the role(s) of the office and the lab in each step of the simple workflow shared by Mr. Sakr.

FRIDAY, JUNE 24

SAYWELL, MRS. DIANNE

MAINTAINING THE HEALTHY SPINE IN THE SEATED DENTAL PROFESSIONAL: A DEEP DIVE INTO THE YOGA PRINCIPLES TO FREEDOM! | DD07

9 AM-12 PM | ENRICHMENT | CE CREDITS: 3
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, ADMINISTRATIVE STAFF, LABORATORY TECHNICIANS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$129	$129	$149
NON-MEMBER DENTIST	$139	$139	$159
TEAM MEMBER	$129	$129	$149

This deep-dive course is designed for the dental professional and any seated team member who wishes for greater spinal health, comfort and freedom! Mrs. Saywell will focus on issues in the tissues of the low back and the entire spine including the neck, hips, shoulders, wrists and fingers. Gaining the awareness of these issues will help attendees gain familiarity with their own unique body and discover how to attend to them as they whisper to us, before we hear them scream! Repetitive, static positioning can result over time in pain, limitation, therapy or surgical treatment and loss of work. Mrs. Saywell will cover the areas of concern, including muscle synergy and breath work to find your center and begin to truly access your own power to prevent and maintain your personal imbalances. The interactive portion of this course will allow attendees to actually "practice" some of the yoga principles from the seat, and the use of the chair and walls as props. The practice is immediately available and effective in claiming your own comfort, strength and range of motion. Attendees will return to their practice with this practice, and when done two or three times per week, your bodies reclaim their balance and will gain strength and flexibility that bring harmony into all of life! *Attendance is limited to 40.*

Participant Requirements: Comfortable clothes are recommended. A yoga mat is not necessary, but recommended.

DENTIST - FDA/ADA MEMBER	$0	$0	$25
NON-MEMBER DENTIST	$49	$49	$59

Dentists may face greater challenges than many investors, and they are now operating in an environment of great industry and financial changes. Keeping up with the ever-changing regulations affecting the dental industry and dental practice may take up a significant amount of time, leaving the dentist little time to assess changing tax laws and keep up with rapidly shifting financial markets. During this lecture, attendees will learn about the special challenges dentists face as an investor due to higher liability risks, complex financial situations, heavy student loan debt and above-average income.

This lecture is fully sponsored by Myriad Capital Private Wealth Management

SHAW-BLESSING, DR. TRACY

DIVERSIFY YOUR DENTAL PORTFOLIO WITH BOTULINUM TOXIN AND DERMAL FILLERS: AN INTRODUCTORY LECTURE | C52

2-4 PM | BOTULINUM TOXINS | CE CREDITS: 2
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, ADMINISTRATIVE STAFF, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69
DENTAL STUDENT	$49	$59	$69

Are you looking for ways to take your dentistry to the next level? A smile is more than just teeth — the aesthetic interface between the teeth and facial soft tissues provides a canvas to frame your dentistry and affords exciting opportunities for facial rejuvenation and enhancement. This lecture will provide an introduction to botulinum toxins and dermal fillers in dentistry, focusing on both cosmetic and therapeutic uses to provide "total facial aesthetics" and comprehensive patient care. A case presentation format will be used to provide an in-depth review on the range of treatment options that can be made available to patients. Patient consultation, evaluation and selection criteria for proper product choice and techniques will be discussed. Finally, the potential for practice growth and profitability will be presented as well as implementation into an existing dental practice.

SINGLETON, MS. CORTNEY

SUNRISE YOGA | YO2

6:30-7:15 AM | SPECIAL INTEREST | CE CREDITS: 0
AUDIENCE: ALL ATTENDEES

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
ALL ATTENDEES	$15	$15	$25

Start your morning off right with a 45-minute gentle flow yoga, al fresco on the Coquina lawn! Leave feeling empowered, regardless of your ability – beginners as well as seasoned practitioners will benefit from this class. Please bring a towel and try to arrive 5 to 10 minutes prior to class starting. Each attendee will receive a yoga mat to take home!

DIGITAL ASSISTANT: A NEW BREED OF DENTAL ASSISTANTS | C53

2-4 PM | ASSISTING | CE CREDITS: 2
AUDIENCE: ASSISTANTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
ASSISTANT	$49	$59	$69

Technology is transforming dentistry's current way to treat patients at a fast pace. From the way appointments are made to a single-day crown, today's generation loves technology and associates it with quality. Patients see the benefit of technology and appreciate its improvements in patient comfort and efficiency. Are you providing this technology to your patients? Who is in the driver seat? Dental assistants need to be in the driver's seat by learning the importance and tricks of how to scan, design and 3D print. This lecture will go through a new patient experience touching on digital advances including digital photography, CAD/CAM technology and intraoral scanning. Dental assistants need to take advantage of these opportunities to grow and become even more valuable assets to their practice. Dental assistants are becoming digital assistants and an intricate part of the dental team.

WESSELS, MS. ROBIN

PREVENTION OF MEDICAL ERRORS | RM1-4

2:30-4:30 PM | STATE MANDATED | CE CREDITS: 2
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$69	$79
NON-MEMBER DENTIST	$138	$138	$158
TEAM MEMBER	$69	$69	$79

Few dental errors are attributed to faulty medical judgment; the majority are attributed to system failures inherent in health care delivery. By analyzing professional liability closed-claim data, we have identified common performance and diagnostic errors that will serve as the focal point of this risk management course. **This course satisfies the Florida Board of Dentistry's continuing education requirement for medical errors.** *Ms. Wessels offers a repeat of this course (RM5-6) on Saturday, June 25 from 2:30-4:30 p.m.*

This lecture is fully sponsored by THE DOCTORS COMPANY

NON-MEMBER DENTIST	$168	$188	$208
TEAM MEMBER	$138	$158	$178
DENTAL STUDENT	$138	$158	$178

The Western world faces a health crisis that is reaching epidemic proportions. Dental professionals are seeing a steady increase in ill health and chronic diseases. Medical costs are skyrocketing, and physicians work in a system where their role is primarily "sick care." This course will provide a step-by-step guide to implementing a "health care" model through dentistry: "The Shift." The focus of "The Shift" is on three key pillars: inflammation (local and systemic), including oral pathogens, nutrition, diabetes and vascular health; airway/breathing/sleep, including sleep apnea, ADHD, memory issues and stress hormones; and, TMD, including the airway-malocclusion connection, headaches, joint disease and imaging. Together, dental professionals must successfully win this battle, exchanging sickness for vitality, energy and health. A one-hour lunch break will be provided during this course.

WILLIAMS JR., DR. LARRY

NEW DENTIST RECOMMENDED

GERIATRIC DENTISTRY: TREATMENT PLANNING, TREATMENT CONCERNS AND COMMUNICATIONS | C42

9 AM-12 PM | TREATMENT PLANNING | CE CREDITS: 3
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69

This lecture will cover the various aspects of treating older patients who may have issues with polypharmacy, access to care and mental health conditions. Discussion will include diagnosis, treatment planning, treatment modifications and communications all aimed at improving the treatment of older patients.

FRIDAY, JUNE 24

WILLIAMS JR., DR. LARRY

TOBACCO, VAPING AND CANNABIS — WHAT DO YOU KNOW? | C54

2-5 PM | ORAL PATHOLOGY | CE CREDITS: 3
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, ADMINISTRATIVE STAFF, LABORATORY TECHNICIANS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69
DENTAL STUDENT	$0	$0	$0

The harm of tobacco is well known and well researched. The newer forms of electronic nicotine delivery systems (ENDS) also are considered tobacco products. These products have been found to have health risks and are currently being scrutinized by the Food and Drug Administration. Additionally, certain states have passed legislation legalizing the sale and use of cannabis. All of this creates a great deal of concern among those providing patient care. The purpose of this lecture is to help the health care team in better understanding these products, the potential positive and negative health benefits, and the available resources for providers to discuss these products with our patients.

YEPES, DR. JUAN

NEW DENTIST RECOMMENDED

DENTAL TRAUMATOLOGY IN THE PEDIATRIC AND ADOLESCENT PATIENT: AN UPDATE | C55

2-5 PM | PEDIATRIC | CE CREDITS: 3
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10

Do you know what you are signing? Whether it is an associate or partnership contract, buy/sell agreement, loan, real estate transaction or buying dental equipment, dentists need legal advisement before signing on the dotted line. Knowing what to look for and what to avoid will save you time, stress and money in the long run. Attend this lecture taught by a dentist/lawyer duo to learn how to review these, who to turn to for help and how to become empowered in your decision-making process from both a dental and legal standpoint.

COURSES & WORKSHOPS *ALPHABETICAL BY SPEAKER'S LAST NAME*

ALONGE, DR. JOHN

NEW DENTIST RECOMMENDED

MINIMALLY INVASIVE EXODONTIA TECHNIQUES WORKSHOP | W17

8 AM-12 PM | ORAL SURGERY | CE CREDITS: 4
AUDIENCE: DENTISTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$699	$719	$749
NON-MEMBER DENTIST	$749	$769	$799

Attendees will want to take advantage of this hard-to-find opportunity to improve their surgical techniques through hands-on training using custom models. Dr. Alonge will guide attendees through hands-on exercises, which will provide greater proficiency with surgical instrumentation, routine and surgical exodontia, third molar extractions and socket preservation grafting. Attendees will return to the office with the typodont model ($400 value) used in this workshop and new skills to perform surgical procedures with greater efficiency and predictability. *The lecture, Minimally Invasive Exodontia and Complications Plus Biopsy Techniques (C44) on Friday, June 24, 2-5 p.m. is a prerequisite for this workshop. You must register and pay for both courses for a full-day experience. Attendance is limited to 20.*

Participant Requirements: Loupes are recommended.

The equipment for this workshop is partially sponsored by A-TITAN HuFriedyGroup

ALONGE, DR. JOHN

ORAL BIOPSY TECHNIQUES WORKSHOP | W22

2-5 PM | ORAL PATHOLOGY | CE CREDITS: 3
AUDIENCE: DENTISTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$399	$449	$469
NON-MEMBER DENTIST	$445	$499	$514

This workshop is designed to share with the general dentist oral pathology terminology, common lesions, armamentarium, hands-on biopsy techniques and suturing tips. Attendees will learn how to perform soft-tissue biopsies using conventional techniques. In addition, gain a greater understanding of the pathogenesis of oral soft-tissue lesions and the value of diagnostic and surgical adjuncts during this hands-on workshop. *Attendance is limited to 20.*

Participant Requirements: Loupes are recommended.

The equipment for this workshop is partially sponsored by A-TITAN

BERMAN, MR. SHAY

NEW DENTIST RECOMMENDED

SOCIAL MEDIA AND INTERNET MARKETING FOR DENTAL PRACTICES | NC17

2-5 PM | SPECIAL INTEREST | CE CREDITS: 0
AUDIENCE: DENTISTS, ADMINISTRATIVE STAFF

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$0	$0	$25
NON-MEMBER DENTIST	$49	$49	$59
ADMINISTRATIVE STAFF	$49	$49	$59

Get the prime cases you want! From search engine optimization to digital advertising, learn how you can take control of your own destiny online by increasing your lead flow, properly managing your reputation, and creating a trackable marketing funnel that any practice can scale. Led by 4X Inc. 5000-ranked digital marketing agency president Mr. Berman, you will leave this course ready to supercharge your online presence and future-proof your practice!

This lecture is fully sponsored by Digital RESOURCE

BHOLA, DR. MONISH

THE GUMMY SMILE: DIAGNOSIS, TREATMENT AND NEW TECHNIQUES | C58

9 AM-12 PM | PERIODONTICS | CE CREDITS: 3
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, LABORATORY TECHNICIANS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69
DENTAL STUDENT	$49	$59	$69

There are various etiologies for a gummy smile. A new classification with appropriate management based on the etiology will be discussed during this lecture. The innovative and minimally invasive LipStaT Procedure to correct a high and gummy smile in patients with vertical maxillary excess, short and hypermobile upper lip will be presented and discussed in detail.

This lecture is partially sponsored by FAP

REMINDER:

The Florida Board of Dentistry requires that you be present in a course a minimum 50 of 60 minutes to receive one hour of CE credit.

SATURDAY, JUNE 25

BHOLA, DR. MONISH

NEW DENTIST RECOMMENDED

IMPLANT AESTHETIC COMPLICATIONS – NEW GUIDELINES AND SOLUTIONS | C70

2-5 PM | PERIODONTICS | CE CREDITS: 3
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69
DENTAL STUDENT	$49	$59	$69

This lecture will address the current classification of sockets, management, socket grafting and immediate implant placement in the aesthetic zone. The current grafting materials, technique and the concept of "dual-zone grafting" will be discussed in detail.

This lecture is partially sponsored by FAP

BORRIS, DR. THOMAS

NEW DENTIST RECOMMENDED

LOOK AT THE MESS I'VE GOTTEN MYSELF INTO: THE MANAGEMENT OF COMPLICATIONS IN ROUTINE ORAL SURGERY | C56

8 AM-12 PM | ORAL SURGERY | CE CREDITS: 4
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, ADMINISTRATIVE STAFF, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$79	$89	$99
NON-MEMBER DENTIST	$84	$94	$104
TEAM MEMBER	$69	$79	$89
DENTAL STUDENT	$0	$0	$0

This lecture will provide attendees with a solid foundation for the management of potential surgical complications in their clinical practices. Strong emphasis will be placed on the management of the complications associated with common surgical procedures. A wide variety of potential complications including bleeding, dry sockets, pain, swelling, infections, nerve injuries, sinus communications and displaced teeth will be covered.

Participant Requirements: The attendee is encouraged to bring cases from their own practice(s).

DELGADO, DR. ALEX

NEW DENTIST RECOMMENDED

CONSERVATIVE APPROACHES IN THE AESTHETIC ZONE | C59

9 AM-12 PM | ADHESIVE | CE CREDITS: 3
AUDIENCE: DENTISTS, ASSISTANTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
ASSISTANT	$49	$59	$69
DENTAL STUDENT	$49	$59	$69

This lecture will address the fundamentals for obtaining excellence in conservative approaches with porcelain options. Attendees will understand the main optical properties, shade matching and color selection. The stratification technique for anterior teeth based on the counter opalescence, translucency and transparency principles also will be discussed. This lecture will address porcelain veneers, types of ceramics, resin-bonded fixed denture prostheses and the Carolina bridge. An extensive showcase will be presented.

DELGADO, DR. ALEX

NEW DENTIST RECOMMENDED

EROSIVE TOOTH WEAR: ETIOLOGY, DIAGNOSIS, RISK FACTORS AND MANAGEMENT | C71

2-5 PM | RESTORATIVE | CE CREDITS: 3
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69
DENTAL STUDENT	$0	$0	$0

This lecture will provide a comprehensive overview and information about erosive tooth wear, the clinical signs and risk factors, such as intrinsic and extrinsic causes, that affect this condition. Attendees also will learn methods to prevent and manage this pervasive condition. A showcase of clinical cases and treatments will be provided

This lecture is partially sponsored by ICD

DEMEOLA, MR. MICHAEL

THE EPIDEMIC OF DENTAL EMBEZZLEMENT — DIAGNOSIS, TREATMENT AND PREVENTION | NC14

9 AM-12 PM | FINANCIAL | CE CREDITS: 0 | AUDIENCE: DENTISTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$0	$0	$25
NON-MEMBER DENTIST	$49	$49	$59

60% of dental practices are currently experiencing embezzlement. This lecture will give attendees the tools and knowledge needed to protect assets and identify potential fraud risks. In addition, this lecture will take attendees through a real-world dental embezzlement case from detection to prosecution.

This lecture is fully sponsored by Getsee & DeMeola

COURSES & WORKSHOPS *ALPHABETICAL BY SPEAKER'S LAST NAME*

DONAWA, MS. MEGAN

SEVEN WAYS TO CRUSH IT AS A DENTAL ASSISTANT | C72

2-5 PM | ASSISTING | CE CREDITS: 3 | AUDIENCE: ASSISTANTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
ASSISTANT	$49	$59	$69

As a dental assistant in this era, you are in higher demand than ever before and your value as a team member is a key role in the dental office. This lecture will elevate you in today's world through communication and physical skills that you can implement in your practice (and even enrich your personal life and career). This lecture will dive deep into areas related to communication, social media training, professionalism, preparation skills and more for the dental assistant! Level up your knowledge and skills by attending this lecture, taught by a cross-trained dental assistant herself.

Participant Requirements: Laptop and cell phone.

DUPONT, DR. GLENN

NEW DENTIST RECOMMENDED

SOLVING THE MOST DIFFICULT CASES: A STEP-BY-STEP APPROACH | C60

9 AM-12 PM | RESTORATIVE | CE CREDITS: 3
AUDIENCE: DENTISTS, LABORATORY TECHNICIANS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
LABORATORY TECHNICIAN	$49	$59	$69
DENTAL STUDENT	$0	$0	$0

For the past 43 years, Dr. DuPont has used a simple approach to evaluate his patients and develop a comprehensive treatment plan and efficient treatment sequence. Dr. DuPont will share the keys to what he does daily in his dental practice to help each of his patients achieve optimum dental health. This systematic thought process will be applied to a range of cases, from simple to difficult restorative problems. In all these, communication with patients, specialists and laboratory professionals is critical to a predictable, long-lasting outcome. Emphasis will be placed on function, aesthetics, diagnosis and treatment planning — everything it takes to get the restorative work done.

HAAS, DR. MANOR

NEW DENTIST RECOMMENDED

ENDODONTICS FOR GENERAL PRACTITIONERS: BETTER, FASTER AND SAFER ROOT CANALS | C61

9 AM-12 PM | ENDODONTICS | CE CREDITS: 3
AUDIENCE: DENTISTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
DENTAL STUDENT	$0	$0	$0

If you want to perform more root canals, have not changed your root canal protocols in the past couple of years or are nervous about performing root canals, then this course is for you. It's practical, honest and engaging! Attendees will see how root canals have become less stressful and more predictable. This course is tailored to novice and experienced general practitioners, and will be informative, easy to follow and clinically relevant. Numerous clinical cases will be presented along with high definition and 3D videos to highlight key points. *This is a two-part course (C61 and W23) that is best attended as a full-day experience. For comprehensive learning, you must register and pay for both courses for the full-day experience. However, attendees may choose to take the lecture course only.*

HAAS, DR. MANOR

ENDODONTIC WORKSHOP FOR GENERAL PRACTITIONERS: BETTER, FASTER AND SAFER INSTRUMENTATION AND OBTURATION | W23

2-5 PM | ENDODONTICS | CE CREDITS: 3 | AUDIENCE: DENTISTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$399	$499	$599
NON-MEMBER DENTIST	$499	$599	$699

This workshop is tailored for novice and experienced general dentists. Participants will learn via exercises on acrylic and extracted teeth how to locate and negotiate canals (including curved and calcified), instrument and obturate more efficiently and safely. Practical tips and tricks will be discussed. *The lecture, Endodontics for General Practitioners: Better, Faster and Safer Root Canals (C61) is a prerequisite for this workshop. You must register and pay for both courses for a full-day experience. Attendance is limited to 20.*

Participant Requirements: Loupes and at least three extracted teeth stored in bleach (must be previously accessed but not instrumented and not placed in stone).

COURSES & WORKSHOPS *ALPHABETICAL BY SPEAKER'S LAST NAME*

HEMPTON, DR. TIMOTHY

NEW DENTIST RECOMMENDED

CROWN LENGTHENING WORKSHOP | W18

8 AM-12 PM | PERIODONTICS | CE CREDITS: 4
AUDIENCE: DENTISTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$399	$449	$479
NON-MEMBER DENTIST	$449	$499	$529

Crown lengthening procedures may involve osseous resective therapy in addition to surgical management of soft tissue. These hard- and soft-tissue alterations may be provided in order to obtain a ferrule height and establish a biologic width. This workshop will use a plastic typodont to provide a practical exercise in exposing a maxillary premolar with a subgingival fracture. Techniques for incisions, osseous therapy and suturing will be reviewed. Indications and contraindications to surgical exposure will be discussed. *Attendance limited to 20.*

Participant Requirements: Surgical loupes.

HEMPTON, DR. TIMOTHY

NEW DENTIST RECOMMENDED

RIDGE PRESERVATION/GUIDED BONE REGENERATION, SITE PREPARATION FOR IMPLANT THERAPY WORKSHOP | W21

1-5 PM | PERIODONTICS | CE CREDITS: 4 | AUDIENCE: DENTISTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$499	$599	$699
NON-MEMBER DENTIST	$599	$699	$799

Precise site preparation for implant therapy can increase the predictability for positive treatment outcomes. Using a pig jaw, this hands-on workshop will review surgical techniques used for postextraction ridge preservation and guided bone regeneration in atrophied edentulous areas. This will include horizontal and vertical releasing incisions, tooth sectioning, periotome utilization to facilitate tooth extraction, full and partial flap elevation for coronal advancement, osseous grafting, membrane placement and suturing techniques. A review of anatomical considerations, bone graft materials, barrier membranes, instrumentation and suture materials used in regenerative surgery will be presented. *Attendance is limited to 20.*

Participant Requirements: Surgical loupes.

FDC2022 EXHIBIT HALL HOURS

Thursday, 11 AM-6 PM

HIERS, MR. CASEY

A PRACTICE OWNER'S GUIDE TO THE BUSINESS SIDE OF DENTISTRY | NC18

2-4 PM | FINANCIAL | CE CREDITS: 0
AUDIENCE: DENTISTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$0	$0	$25
NON-MEMBER DENTIST	$49	$49	$59
DENTAL STUDENT	$49	$49	$59

This lecture will address the No. 1 challenge in dentistry today — the business side of dentistry. Dentists know how to do the job of providing great dentistry to patients, but they also are tasked with the bonus job of running a business. The problem is that running a $900,000 to $3 million practice the right way is a full-time job on its own. Dentists continue down the path of business ownership the best they know how, but deep down know it is not maximizing profit. The goal is to have consistent practice accounts and lower overhead, but most times, the hard work being put into the business is not reflected in the income. During this course, attendees will learn how to maximize practice profitability and avoid common pitfalls that can suppress cash flow. Dentists cannot forget their way to exceptional profitability if proper systems and processes are not in place. Mr. Hiers will empower dentists to get off the hamster wheel and treat the business side of dentistry with the same expertise as the clinical.

This lecture is fully sponsored by FOURQUADRANTS

HORNSBY, MS. SARAH

THE ROLE OF MYOFUNCTIONAL THERAPY IN DENTISTRY AND AIRWAY MANAGEMENT | C62

9 AM-12 PM | ORTHODONTICS | CE CREDITS: 3
AUDIENCE: DENTISTS, HYGIENISTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
HYGIENIST	$49	$59	$69
DENTAL STUDENT	$49	$59	$69

This lecture is designed to give dental professionals an overview of the field of orofacial myofunctional therapy and its connection to dentistry and airway health. Myofunctional therapy can be an effective adjunct to dentistry in two ways. First, to guide craniofacial growth and development in children in order to prevent bigger dental and health problems as adults. Second, as part of the process for treating sleep-disordered breathing, malocclusion and TMD in adults in order to address the root cause of their conditions.

CE HIGHLIGHT

ADVANCED APPLICATIONS OF BOTULINUM TOXIN WORKSHOP (W19)

SATURDAY, JUNE 25 | 8 AM-5 PM
BOTULINUM TOXINS | CE CREDITS: 8
AUDIENCE: DENTISTS, ASSISTANTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$1,799	$1,899	$1,999
NON-MEMBER DENTIST	$1,899	$1,999	$2,009
ASSISTANT*	$199	$214	$229

This intense one-day workshop will build on the fundamental knowledge of botulinum toxin and will expand the attendee's scope of practice. Techniques learned in a hands-on botulinum toxin level one or equivalent course will be refined and comprehensive lower face treatments will be covered in detail. Attendees will have the unique opportunity to perform advanced techniques to improve results in upper and lower face botulinum toxin treatment, correct asymmetric smiles, expand neuromodulator portfolios and understand rationale for toxin choice. Upon completion of this full-day course, attendees will have the confidence and skills to grow their existing botulinum toxin practice even further. Attendance is limited to 20.

**Paid team member learning is a co-learning experience with a paid doctor attendee.*

Participant Requirements: Attendees must (1) provide proof of course completion for a hands-on level one botulinum toxin course or other comparable introductory hands-on course two weeks prior to attend, (2) provide proof of current professional liability insurance two weeks prior to the workshop to attend, and (3) must bring their own model patient. View the full course description and participant requirements on page 61.

Dr. Tracy Shaw-Blessing earned her dental degree from Tufts University School of Dental Medicine and completed a residency program Coler-Goldwater Specialty Care Hospital. She is the founder and CEO of Aesthetic Interface. Dr. Shaw-Blessing maintains a private practice in Palm Beach Gardens and Miami Beach, FL.

COURSES & WORKSHOPS *ALPHABETICAL BY SPEAKER'S LAST NAME*

HORNSBY, MS. SARAH

FUNCTIONAL IDENTIFICATION OF RESTRICTED LINGUAL FRENUM WORKSHOP | W24

2-5 PM | SLEEP DISORDERS | CE CREDITS: 3
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$499	$549	$579
NON-MEMBER DENTIST	$549	$579	$609
TEAM MEMBER	$199	$199	$229

This workshop is designed to give the attendees an opportunity to understand the difference between the visual appearance of a tongue-tie and the functional definition of a tongue-tie. Ms. Hornsby will discuss why the function of the tongue is critical for sleep, breathing, airway, TMJ health, periodontal health and so much more. Attendees will have the unique opportunity to learn how to assess and grade tongue mobility using the latest research-validated protocols in the field. Attendees will use the Tongue Range of Motion Ratio (TRMR) Classification System for assessing both anterior and posterior tongue mobility and tongue-tie. The goal of this workshop is for attendees to understand the difference between the visual appearance of a tongue-tie and the functional definition of a tongue-tie. Each attendee will have the unique opportunity to assess their own tongue mobility, frenum restriction, and tongue function as well as that of other attendees. *Attendance is limited to 25.*

KEITH, MR. TODD

IN-OFFICE EMERGENCIES AND AIRWAY MANAGEMENT FOR SEDATION PERMIT HOLDERS | AM1-2

1-5 PM | STATE MANDATED | CE CREDITS: 4
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$329	$369	$389
NON-MEMBER DENTIST	$349	$399	$414
TEAM MEMBER	$299	$349	$369
DENTAL STUDENT	$299	$349	$369

This course will cover ways to ensure the entire dental team is prepared for an in-office emergency before it happens. Signs, symptoms and care of the 15 most common medical emergencies that might occur in the dental office will be covered. Airway management is one of the most important skills for a dentist and the team to know how to perform. Ways to prevent respiratory issues, recognition of respiratory distress and methods of managing respiratory distress and arrest will be discussed. **This course satisfies the current Florida Board of Dentistry's four-hour airway management and medical emergencies continuing education requirement to maintain a sedation permit, effective 3/1/2020. During the licensure biennial renewal period that begins on March 1, 2020 and every licensure biennial renewal period thereafter, all dentists who hold an active sedation permit of any level shall take the following continuing education instead of the continuing education required in subsection (1): A four (4) hour board approved continuing education course in Medical Emergencies that shall include airway management as a component of the course.** *Attendance is limited to 50.*

LAVEIGNE, MR. DAVE

CPR AND AED CERTIFICATION RENEWAL FOR THE HEALTH CARE PROVIDER | CP3-4

7-9 AM | CERTIFICATION | CE CREDITS: 2
AUDIENCE: ALL ATTENDEES

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$95	$95	$105
NON-MEMBER DENTIST	$115	$115	$125
TEAM MEMBER / GUEST	$95	$95	$105

This basic life support renewal course is designed to provide a wide variety of health care professionals the ability to recognize several life-threatening emergencies, provide CPR for victims of all ages, including ventilation with a barrier device/Ambu bag, use an AED and relieve foreign body airway obstruction in a safe, timely and effective manner. This course will teach skills with the American Heart Association's research-proven, practice-while-watching technique, which allows instructors to observe the students, provide feedback and guide the students' learning of skills. The course is intended for certified or non-certified, licensed or non-licensed health care professionals who wish to renew their active CPR/AED certifications. *Mr. LaVeigne offers a repeat of this course (CP5-6) on Saturday, June 25 from 9:30-11:30 a.m. Individuals with an expired certification are required to take the four-hour certification course (CP1-2) on Saturday, June 25 from 1-5 p.m. Upon completion of the course, each participant receives a digital Health Care Provider CPR/AED card valid for two years.*

SATURDAY, JUNE 25

LAVEIGNE, MR. DAVE

CPR AND AED CERTIFICATION FOR THE HEALTH CARE PROVIDER | CP1-2

1-5 PM | CERTIFICATION | CE CREDITS: 4
AUDIENCE: ALL ATTENDEES

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$115	$115	$125
NON-MEMBER DENTIST	$140	$140	$150
TEAM MEMBER / GUEST	$125	$125	$125

This basic life support course will provide the foundation for saving lives after cardiac arrest. Updated to reflect new science and education in the "2015 American Heart Association Guidelines Update for CPR and ECC," this course will teach basic life support skills for application in both in-facility and prehospital settings, with a focus on high-quality CPR, improvement of chest compression fraction and high-performing team dynamics. Upon completion of the course, each participant will receive a digital Health Care Provider CPR/AED card valid for two years. *Renewals are referred to the two-hour renewal course scheduled for Saturday, June 25 (CP3-4 or CP5-6) from 7-9 a.m. or 9:30-11:30 a.m.*

MARRON-TARRAZZI, DR. IRENE
OTERO, DR. NURIA

NEW DENTIST RECOMMENDED

TIPS AND TRICKS BEHIND SUCCESS IN THE AESTHETIC ZONE: A PERIO-PROSTHO APPROACH | C75

2-5 PM | AESTHETIC | CE CREDITS: 3
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, ADMINISTRATIVE STAFF, LABORATORY TECHNICIANS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69
DENTAL STUDENT	$0	$0	$0

A multidisciplinary approach in dentistry is fundamental for the final success of any aesthetic case. Knowing and understanding what can be done in other disciplines will lead you to create restorations that emulate nature. Cases highlighting the diagnosis, planning, treatment and follow-up of the patient rehabilitation will be discussed. This lecture will cover the essential aspects of tissue management in the aesthetic zone. Attendees will also analyze biological aspects regarding the relation between the tooth's cervical emergence profile and gingival soft tissue, and how they influence the final aesthetic outcome of restorations. Current restorative techniques will be explained to enhance the aesthetic appearance of the dentogingival interface. The second part of the lecture will focus on peri-implant tissue management in the anterior sextant. The importance of flap design, CTG management (importance, techniques and timing), pontic development enhancing techniques and timing will be explored. Additionally, concepts on prosthetically guided soft-tissue conditioning, emergence profile, provisional restorations, abutment design and final restoration will be discussed.

This lecture is partially sponsored by FAP

MAY, MR. GREGORY

DOMESTIC VIOLENCE FOR HEALTH CARE PROFESSIONALS | DV1-4

2-4 PM | STATE MANDATED | CE CREDITS: 2
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, ADMINISTRATIVE STAFF, LABORATORY TECHNICIANS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$69	$79
NON-MEMBER DENTIST	$138	$138	$158
TEAM MEMBER	$69	$69	$79

This course will enable dental professionals to realize the magnitude of domestic violence and gain an understanding of the signs, symptoms and injuries indicative of possible domestic violence. This course also will help dental professionals realize the reluctance of many victims to reveal the true cause of their injuries and will give them resources to share with their patients. Lastly, this course will provide referral information including law enforcement, Florida state regional resources and community-specific domestic violence assistance organizations. **This course satisfies the Florida Board of Dentistry's continuing education requirement for domestic violence.**

MCDONALD, DR. EDWIN

THE EXCEPTIONAL ASSISTANT WORKSHOP: TURNING EVERY DAY FROM ORDINARY TO EXTRAORDINARY | W20

9 AM-12 PM | ASSISTING | CE CREDITS: 3
AUDIENCE: ASSISTANTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
ASSISTANT	$239	$259	$279

When your doctor and your team seek to be exceptional, they depend upon you, the dental assistant, for exceptional results. This workshop will focus on the skills and knowledge that make a dental assistant great! Skills and techniques such as patient examination, impressions, photography and more will be explored with hands-on components. The skills learned and perfected in this workshop will lower stress, increase the predictability and productivity of routine and complex clinical procedures, especially in a practice setting that takes a comprehensive approach to patient care. This lecture is also designed to support the assistant of the dentist enrolled in the Pankey Essentials 1 Workshop (PE1) being offered during the convention. *Attendance is limited to 30.*

This workshop is fully sponsored by Dentsply Sirona

MERIJOHN, DR. GEORGE

NEW DENTIST RECOMMENDED

AEROSOL-FREE DENTISTRY: THRIVING WITH SAFER THERAPY | C63

9-12 AM | SPECIAL INTEREST | CE CREDITS: 3
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, ADMINISTRATIVE STAFF, LABORATORY TECHNICIANS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69
DENTAL STUDENT	$49	$59	$69

The COVID-19 pandemic forevermore made patients concerned about aerosol disease transmission risks in the dental office. Aerosol-generating procedures increase room turnover time, overhead and disease transmission risks. They also decrease productivity and quality treatment time. Safer dentistry is aerosol-free/aerosol-reduced and sound methodology matters. Now is the time for paradigm shifting long term solutions that are practical, evidence-based and cost-effective. Discover how to increase practice volume, exceed patient expectations, maximize team safety and more.

MILES, DR. DALE

NEW DENTIST RECOMMENDED

CONE BEAM ANATOMY DEEP DIVE: LET'S REVIEW WHAT YOU MAY BE MISSING | DD08

9 AM-12 PM | RADIOGRAPHY | CE CREDITS: 3
AUDIENCE: DENTISTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$199	$229	$249
NON-MEMBER DENTIST	$229	$259	$279

Dentists use imaging every day in the office to help refine clinical treatment decisions. Cone beam CT is an amazing cost-effective imaging modality for dentists, but do you understand it? This anatomy lecture and intimate learning deep dive, involving class discussion and collaboration, will build your confidence for reviewing your cone beam images. Come see what you may have been missing. Upon completion of the course, attendees will have created a chairside anatomy reference manual. *Attendance limited to 24.*

This deep dive is partially sponsored by vatech

MILES, DR. DALE

RADIOGRAPHIC MANIFESTATIONS OF SYSTEMIC DISEASE — FROM PERIAPICALS TO CONE BEAM | C73

2-5 PM | RADIOGRAPHY | CE CREDITS: 3
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, ADMINISTRATIVE STAFF, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69
DENTAL STUDENT	$0	$0	$0

Patients with diabetes, cardiovascular disease, headaches and sinusitis are common systemic problems that dentists encounter in their office. Radiographic manifestations for these problems are frequently present and identifiable on intraoral, panoramic and cone beam CT images — if you know where to look. Early detection of disease helps the patient's primary care physician diagnose the patient's problem and could even save the patient's life. This lecture will review some of the key clinical features of systemic diseases and disorders you will find in your images and give you the tools to recognize the radiographic manifestations on multiple imaging modalities. Come see what you may have been missing and improve your patient care!

This lecture is partially sponsored by vatech

MIRAGLIA, DR. BEN
GUEITS, MS. LAUREN

THE CRITICAL ROLE OF THE DENTAL TEAM TO COMBAT SLEEP-DISORDERED BREATHING | C57

8 AM-12 PM | SLEEP DISORDERS | CE CREDITS: 4
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$79	$89	$99
NON-MEMBER DENTIST	$84	$94	$104
TEAM MEMBER	$69	$79	$89

This lecture is a call to action for all dental professionals who are dedicated to prevent sleep-disordered breathing rather than wait to treat the devastating effects it imposes; ADHD, bed wetting, asthma, cardiovascular disease, lower IQ, depression and other maladies. With an estimated 22 million Americans suffering from obstructed sleep apnea (OSA) and 80% of the cases of moderate and severe obstructive sleep apnea undiagnosed, the dental team is called upon to help reverse this crisis. By understanding the root cause of OSA, malocclusion and soft-tissue dysfunction, hygienists and dentists can take proactive steps in applying lifesaving protocols to prevent OSA in patients of all ages. **This lecture is free for the first 100 hygienists who register for this lecture!**

SATURDAY, JUNE 25

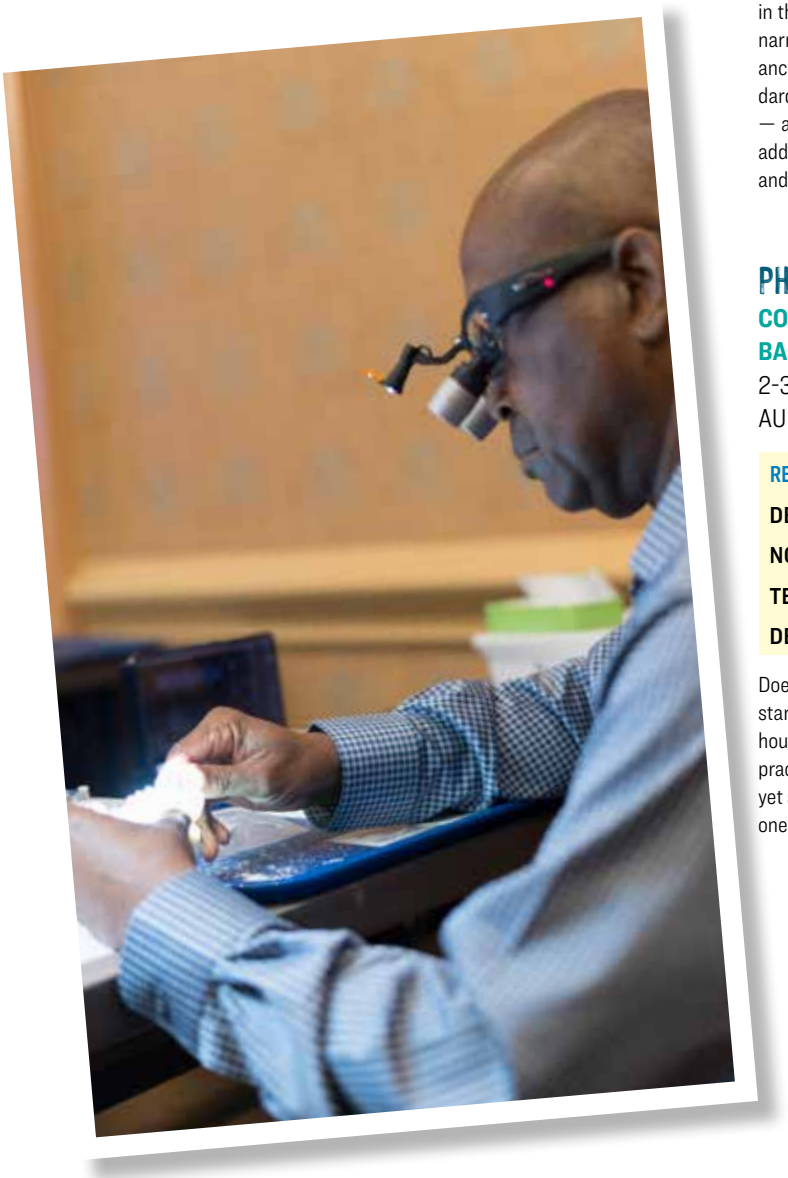
MIRAGLIA, DR. BEN

CONNECTING THE DOTS BETWEEN AIRWAY HEALTH, TMD AND CLEAR ALIGNER THERAPY | C74

2-4 PM | OCCLUSION | CE CREDITS: 2 | AUDIENCE: DENTISTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94

This lecture will be full of case reviews and treatment planning techniques using clear aligner therapy as an adjunct therapy in providing airway health-centered protocols to treat malocclusion and TMD. Discover a new paradigm of airway development that will profoundly impact your treatment modalities. Attendees will leave the lecture feeling confident to implement clear aligner therapy for expansive purposes.



PHILLIPS NEWLAND, MS. LACI

SYSTEMS, TEAMS AND TECHNOLOGY: CREATING BALANCE-DRIVEN SUCCESS IN YOUR PRACTICE | NC15

9-11 AM | COMMUNICATION | CE CREDITS: 0

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, ADMINISTRATIVE STAFF, LABORATORY TECHNICIANS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69
DENTAL STUDENT	$49	$59	$69

Have you ever juggled? Most dental owners juggle every day between the business, the clinical area, the team and home life. Although it may feel like you have 25 balls in the air, let Ms. Phillips Newland walk you through how to prioritize and organize to narrow it down to three main areas of your practice with the ultimate goal of a balanced day. Let's start with clean well-defined systems, making sure there are standard operating procedures to follow. Next, will focus on — the heart of your practice — and understanding techniques to achieve a happy, high-performing team. Lastly, add in technology. It is only good when it is used in an efficient way. It is time to define and refine this balancing act: Don't drop the ball!

PHILLIPS NEWLAND, MS. LACI

CONSTANTLY PLUGGED IN AND DESPERATELY SEEKING BALANCE | PM06

2-3:30 PM | PRACTICE MANAGEMENT | CE CREDITS: 1.5

AUDIENCE: ALL ATTENDEES

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER / GUEST	$49	$59	$69
DENTAL STUDENT	$49	$59	$69

Does your world spin more rapidly or is life just getting increasingly busy? Are you starting to see and feel the effects from being chronically connected every waking hour? Finding balance in life, both personally and professionally, takes more focus, practice and determination now more than ever before. Can you learn to unplug and yet stay in touch with the world? Absolutely! Sit back, take a breath and admit everyone needs to step away from technology for a short time.

A Speed Networking Event

Start your morning with coffee, pastries and networking with vendors! Sit back and relax with your colleagues while representatives from 10 leading dental companies rotate to your table. Each vendor will have 10 minutes to present information, update you on their latest products and answer your questions. In this fast-paced, fun networking environment, you are sure to leave with new connections and a growing knowledge of new products, services and technologies.

This event is available to registered dentists only. Add your ticket within your FDC registration. Seating is limited, so register today!

At the end of the event, all dentists will receive a **$50 VISA GIFT CARD!**

Continental Breakfast sponsored by fda services inc. INSURANCE FOR DENTISTS

SAKR, MR. DANY

WHAT EVERY DENTAL ASSISTANT NEEDS TO KNOW ABOUT IMPLANT PARTS, PIECES AND OPTIONS WORKSHOP | W25

2-5 PM | ASSISTING | CE CREDITS: 3 | AUDIENCE: ASSISTANTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
ASSISTANT	$329	$349	$379

As implant-related dentistry continues to grow, it presents a serious challenge for dental staff to coordinate the implant parts, systems, sizes and restorative options so there is no surprise on the day of delivery. In this hands-on workshop, Mr. Sakr will review the digital and analog information that needs to be communicated to the lab along with the instruments, parts and drivers needed in the clinic to simplify implant dentistry. *Attendance is limited to 30.*

SHATKIN, DR. TODD

NEW DENTIST RECOMMENDED

MINI DENTAL IMPLANTS FOR LONG-TERM FIXED AND REMOVABLE PROSTHETICS | C64

9 AM-12 PM | IMPLANTS | CE CREDITS: 3

AUDIENCE: DENTISTS, ASSISTANTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$0	$0	$25
NON-MEMBER DENTIST	$49	$49	$59
ASSISTANT	$49	$49	$59
DENTAL STUDENT	$49	$49	$59

In this lecture, Dr. Shatkin will discuss and demonstrate the use of mini dental implants for lower and upper denture stabilization, for partial dentures and in fixed applications for individual and multiple missing teeth. Dr. Shatkin also will discuss how and when to use the bendable mono mini dental implants and the use of mini dental implants or mono mini implants for full-arch fixed applications. Additionally, Dr. Shatkin will discuss and demonstrate the patented F.I.R.S.T. (Fabricated Implant Restoration Surgical Technique) procedure and how, once it is learned, you are able to increase your yearly income substantially your first year.

This lecture is fully sponsored by Shatkin F.I.R.S.T.

SATURDAY, JUNE 25

SHAW-BLESSING, DR. TRACY

ADVANCED APPLICATIONS OF BOTULINUM TOXIN WORKSHOP | W19

8 AM-5 PM | BOTULINUM TOXIN | CE CREDITS: 8
AUDIENCE: DENTISTS, ASSISTANTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$1,799	$1,899	$1,999
NON-MEMBER DENTIST	$1,899	$1,999	$2,009
ASSISTANT*	$199	$214	$229

This intense one-day workshop will build on the fundamental knowledge of botulinum toxin and will expand the attendee's scope of practice. Techniques learned in a hands-on botulinum toxin level one or equivalent course will be refined and comprehensive lower face treatments will be covered in detail. Attendees will have the unique opportunity to perform advanced techniques to improve results in upper and lower face botulinum toxin treatment, correct asymmetric smiles, expand neuromodulator portfolios and understand rationale for toxin choice.

The following areas will be explained and demonstrated: frown lines (glabella), forehead lines (frontalis), crow's feet (orbicularis oculi), brow lift, masseters and temporalis for clenching/grinding and/or migraines, peri-oral rhytids/"lip flip" (orbicularis oris), gummy/asymmetric smiles (levator labii superioris alequae nasi, depressor anguli oris, depressor labii inferioris), downturned oral commissures (depressor anguli oris), bunny lines (nasalis), nasal tip lift (depressor septi), and the jawline/neck (platysmal banding). Upon completion of this full-day course, attendees will have the confidence and skills to grow their existing botulinum toxin practice even further. *Attendance is limited to 20.*

**Paid team member learning is a co-learning experience with a paid doctor attendee.*

Participant Requirements: Attendees must provide proof of course completion for a hands-on level one botulinum toxin course or other comparable introductory hands-on course two weeks prior to attend. Attendees will be expected to be currently treating patients with botulinum toxin in their practice for upper face applications (frown lines, forehead lines, crow's feet). Proof of course completion in the form of a CE certificate or written information including the course title, providing organization and date taken will suffice.

Attendees must provide proof of their current professional liability insurance two weeks prior to attend with the expiration date included. The Florida Dental Association (FDA) assumes no liability if a participant is refused coverage by an insurer for any reason or is unable to obtain materials for use in practice.

Attendees must bring their own model patient. *This is a teaching course so please advise your model patient that they must be available for approximately 3-4 hours in the afternoon between 1-5 PM on Saturday, June 25. You and your team member may serve as patients.* **The FDA does not provide model patients.**

SNYDER, DR. TODD

NEW DENTIST RECOMMENDED

THE ART OF AESTHETICS AND OCCLUSION | C65

9 AM-12 PM | OCCLUSION | CE CREDITS: 3
AUDIENCE: DENTISTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
DENTAL STUDENT	$0	$0	$0

Aesthetically pleasing restorations take a lot of effort to place properly and also provide proper function with no postoperative problems. Modern materials are being developed every year that can simplify restorative care when diagnosed and treatment planned properly. By performing a thorough diagnosis of the occlusion prior to treatment planning, it will allow clinicians to avoid future complications and costly failures. The objective of this lecture is to present a predictable and systematic approach to occlusion and aesthetic restorations that will enable clinicians to achieve consistent quality results.

This lecture is partially sponsored by American College of Dentists Excellence and Ethics

SNYDER, DR. TODD

NEW DENTIST RECOMMENDED

THE NUTS AND BOLTS OF VENEERS | C76

2-5 PM | OCCLUSION | CE CREDITS: 3
AUDIENCE: DENTISTS, ASSISTANTS, LABORATORY TECHNICIANS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69
DENTAL STUDENT	$0	$0	$0

Patients' interest in cosmetic dentistry is increasing every year with billions of dollars being spent to obtain a perfect smile. The ability to place believable porcelain veneers is crucial to a good cosmetic dental program. The numerous dental products and myriad of materials that are currently available to dentists can yield some incredible results, but oftentimes can be overwhelming and/or confusing. Without a blueprint and instructions to show the process from start to finish and all the steps in between, it can be quite challenging for many. This course also will discuss all the nuts and bolts necessary to fabricate amazing, life-like veneers and when to use them. This lecture will discuss the veneering procedure from diagnosis and treatment planning to preparation, provisionals, try-in and cementation.

TAU, DR. LEONARD

NEW DENTIST RECOMMENDED

RAVING PATIENTS: GET CREDIBLE, GET VISIBLE, GET MORE NEW PATIENTS | NC16

9-11 AM | ADMINISTRATION | CE CREDITS: 0
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, ADMINISTRATIVE STAFF, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69
DENTAL STUDENT	$0	$0	$0

Word of mouth has always been the foundation for the acquisition of new patients by a dental practice but in the internet age, word of mouth is transformed because of reviews sites like Google, Yelp and Facebook. Online reviews are now one of the biggest ranking factors in a local search. Being credible is only one piece of the puzzle though. Your practice also needs to be found online when people are searching for a dentist near them. Are you at the top of the Google Maps Pack? If not, you are invisible and all those great reviews are not doing much good. In this lecture, Dr. Tau will share numerous tips and best practices to not only become credible, but also visible online. This comprehensive reputation marketing course will cover how to generate reviews as well as how to handle the dreaded negative review. Dr. Tau also will share what the best practices are when it comes to online reviews. Additionally, Dr. Tau will discuss the system that has been tried and tested in his own office enabling him to take his practice to the next level simply by marketing his reputation. If you want to learn everything there is to know about online reviews, this is the lecture for you.

TAU, DR. LEONARD

NEW DENTIST RECOMMENDED

USING TECHNOLOGY TO INCREASE TREATMENT ACCEPTANCE | C77

2-4 PM | TECHNOLOGY | CE CREDITS: 2
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69

What separates high-earning doctors from the low-earning ones? There are many things, but one of the most important is case acceptance. You may be the best clinician with the most precise hand skills, but if you cannot articulate why patients should allow you to treat their dental needs, then your success in dentistry will be limited. Nowadays, there are many software technologies available that will help you increase this acceptance. Dr. Tau will review many of the available technologies he uses in his practice that helps him achieve 85% case acceptance. Don't miss this high-value class with pearls you can leave with and implement the next business day.

This lecture is partially sponsored by di. DENTALINTELLIGENCE

VASQUEZ, DR. JAVIER

NEW DENTIST RECOMMENDED

REAL-TIME PATIENT MOVEMENTS: DIGITIZATION AND INTEGRATION OF 2D AND 3D DATA TO ACHIEVE THE PROPER AESTHETICS AND FUNCTION | C66

9-11 AM | AESTHETIC | CE CREDITS: 2
AUDIENCE: DENTISTS, ASSISTANTS, ADMINISTRATIVE STAFF, LABORATORY TECHNICIANS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69
DENTAL STUDENT	$49	$59	$69

This lecture will show attendees the newest advantages of technology in reference to real human mandibular dynamics and the implication in restorative treatments. Dr. Vasquez will explore the following: physiological determination of the cervical dimension in six dimensions in space; facial analysis and facial orientation for determination of functional landmarks; interdisciplinary dentistry based in 3D data integration; and finally, the diagnosis and plan of digital dentistry and function. A huge jump in the evolution of dentistry will be discussed.

VASQUEZ, DR. JAVIER

NEW DENTIST RECOMMENDED

PROCESS OF DATA INTEGRATION AND ALTERNATIVE TREATMENTS WITH A MULTIDISCIPLINARY APPROACH WORKSHOP | W26

2-5 PM | AESTHETIC | CE CREDITS: 3
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, ADMINISTRATIVE STAFF

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$399	$429	$499
NON-MEMBER DENTIST	$429	$449	$519
TEAM MEMBER	$399	$429	$499

Do you love the power of interdisciplinary digital alternatives? In this new era of digitization, dental professionals must understand what it means to gather 3D data and what it is needed for. In the dental world, treatments are driven by facial analysis and everything that is harmonic with each independent individual. This workshop will introduce attendees to the equipment needed for a smooth 3D data integration at their office. Participants will see what is needed to design a mock-up, how a mock-up is presented and the visual impact it has on treatment planning. This hands-on experience will get attendees knowledgeable and excited to integrate 3D data use at their office. *Attendance is limited to 30.*

SATURDAY, JUNE 25

VAUGHN, MRS. JESSICA

FROM THE BACK TO THE FRONT: BECOMING A CLINICAL TEAM MEMBER TO A PRACTICE ADMINISTRATOR | C67

9-11 AM | ASSISTING | CE CREDITS: 2
AUDIENCE: ASSISTANTS, ADMINISTRATIVE STAFF

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
TEAM MEMBER	$49	$59	$69

Clinical team members, such as dental assistants, tend to become part of the practice's administration team. Whether it is an insurance guru, treatment coordinator, schedule coordinator or even office manager, it is important to understand and be prepared about the challenges and changes ahead. Ms. Vaughn will go through her journey from becoming a dental assistant to practice administrator/office manager — the ups and downs and the rewards. This lecture is designed for anyone who is being cross-trained or is considering making a move to the role of practice administrator.

WESSELS, MS. ROBIN

PREVENTION OF MEDICAL ERRORS (REPEAT) | RM5-8

2:30-4:30 PM | STATE MANDATED | CE CREDITS: 2
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$69	$79
NON-MEMBER DENTIST	$138	$138	$158
TEAM MEMBER	$69	$69	$79

Few dental errors are attributed to faulty medical judgment; the majority are attributed to system failures inherent in health care delivery. By analyzing professional liability closed-claim data, common performance and diagnostic errors have been identified that will serve as the focal point of this risk management course. **This course satisfies the Florida Board of Dentistry's continuing education requirement for medical errors.** *This course is a repeat of Ms. Wessels' lecture (RM1-4) on Friday, June 24 from 2:30-4:30 p.m.*

This lecture is fully sponsored by THE DOCTORS COMPANY

WILLIAMSON, MR. RICK

BODY PRAXIS: PHYSICAL REHABILITATION FOR DENTAL PROFESSIONALS DEEP DIVE — "THE PREVENTION AND REVERSAL OF MUSCULOSKELETAL DISORDERS IN DENTISTRY" | DD09

9 AM-12 PM | SPECIAL INTEREST | CE CREDITS: 3
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, ADMINISTRATIVE STAFF, LABORATORY TECHNICIANS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$129	$129	$149
NON-MEMBER DENTIST	$139	$139	$159
TEAM MEMBER	$129	$129	$149

Are you among the growing number of dental professionals suffering from neck and back pain? This course offers an exclusive structural redevelopment and wellness program to address the serious musculoskeletal disorders that afflict many dentists and team members. Mr. Williamson will review clinical observations, muscle recruitment, spine segmental mobility and breathing techniques to restore function and alleviate pain. A unique training regimen will be introduced to address specific injuries and dysfunction caused by repetitive workplace positions and movements. This course will include a live assessment of attendees and offer tips to maintain a healthy, pain-free body. *Mr. Williamson offers a repeat of this deep dive (DD10) on Saturday, June 25 from 2-5 p.m. Attendance is limited to 30.*

WINGROVE, MS. SUSAN

JUST FOR THE HEALTH OF IT! MAINTENANCE, HOME CARE AND DISEASE TREATMENT | C68

9-11 AM | HYGIENE | CE CREDITS: 2
AUDIENCE: DENTISTS, HYGIENISTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
HYGIENIST	$49	$59	$69
DENTAL STUDENT	$49	$59	$69

Dental professionals now have a new role of educating patients on inflammation elimination with a focus on biofilm. It is a vital time to protect patients' teeth, implants, restorations and most importantly, their overall health. This lecture will reveal answers to the challenges of providing safe, effective detection, diagnosis and disease treatment based on latest research and guidelines. Elevate your professional in-office assessments, prophylaxis and home-care recommendations to a new level!

This lecture is partially sponsored by ivoclar vivadent: passion vision innovation

WINGROVE, MS. SUSAN

LONG-TERM PREVENTION OF PERI-IMPLANT COMPLICATIONS: CERAMIC AND TITANIUM IMPLANTS | C78

2-4 PM | PERIODONTICS | CE CREDITS: 2
AUDIENCE: DENTISTS, HYGIENISTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
HYGIENIST	$49	$59	$69
DENTAL STUDENT	$49	$59	$69

To prevent peri-implant complications, professional in-office assessment, maintenance and home-care recommendations are vital. For long-term implant success, clinicians need to detect early signs of implant complications, diagnose any complications to provide early intervention and be able to perform professional in-office maintenance treatment. This lecture will follow the global healthy implant initiative for ceramic and titanium implants based on Ms. Wingrove's clinical white paper, "Long-term Prevention of Peri-implant Complications" and textbook, "Peri-Implant Therapy for the Dental Hygienist: First and Second Editions."

This lecture is partially sponsored by ivoclar vivadent: passion vision innovation

YEPES, DR. JUAN

ORAL RADIOLOGY IN THE PEDIATRIC AND ADOLESCENT PATIENT: FROM RADIATION SAFETY TO LESIONS AND CBCT | C69

9 AM-12 PM | ORAL PATHOLOGY | CE CREDITS: 3
AUDIENCE: DENTISTS, HYGIENISTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
HYGIENIST	$49	$59	$69
DENTAL STUDENT	$49	$59	$69

This lecture will provide attendees with the most common radiographic lesions that are presented in infants, children and adolescents. The lecture will use a case presentation learning and discussion format and will cover the entire spectrum of oral radiology in pediatric dentistry. Topics such as radiation safety, digital radiology, CBCT in pediatric dentistry, radiographic interpretation and common radiographic lesions in children will be covered in this lecture.

This lecture is partially sponsored by AIR TECHNIQUES equipped for life® FAPD

YEPES, DR. JUAN

COMMON ORAL LESIONS IN BABIES, CHILDREN AND ADOLESCENTS: FROM SOFT-TISSUE LESIONS TO CANKER SORES | C79

2-5 PM | PEDIATRIC | CE CREDITS: 3
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/15	REGULAR	ONSITE 6/10
DENTIST - FDA/ADA MEMBER	$69	$79	$89
NON-MEMBER DENTIST	$74	$84	$94
TEAM MEMBER	$49	$59	$69
DENTAL STUDENT	$49	$59	$69

This lecture will provide attendees with the most up-to-date information regarding the fascinating and emerging field of oral pathology in pediatric dentistry. The lecture will use a case presentation learning and discussion format and will cover the entire spectrum of the most common oral soft-tissue lesions in infants, children and adolescents. Dental professionals should attend this lecture to understand the most up-to-date treatment options available for the pediatric patient suffering from common oral lesions.

This lecture is partially sponsored by AIR TECHNIQUES equipped for life® FAPD

ATTENDEE BASICS

LOCATION

FDC2022 will be held at the Gaylord Palms Resort & Convention Center located at 6000 W. Osceola Parkway, Kissimmee, FL 34746.

HOTEL RESERVATIONS

Visit hotel.floridadentalconvention.com to make your reservation online at either hotel. **FDC does not use a third party for hotel reservations**.

GAYLORD PALMS RESORT & CONVENTION CENTER

- Room Rate: $209 per night, including free nightly self-parking
- Reservations: Call 877.491.0442 to make your reservation within the room block

FAIRFIELD INN & SUITES

- Room Rate: $119 per night, including free nightly self-parking and breakfast
- Reservations: Call 407.390.1532 to make your reservation within the room block
- Shuttle service to Gaylord Palms is not provided

FREE OFFSITE PARKING & SHUTTLE SERVICE

Free remote parking is the most convenient option for FDC attendees not staying at Gaylord Palms. Free shuttle service is provided at Wide World of Sports just minutes from Gaylord Palms. Shuttle services will run every 15-30 minutes beginning on Thursday, June 23 at 7 AM and continues through Saturday, June 25 at 6 PM. Directions to off-site parking and the detailed shuttle schedule will be available one month prior to FDC at hotel.floridadentalconvention.com.

Note: Allow ample time (at least one hour prior to course start) for parking and shuttle service. Refunds will not be given for courses missed due to parking or shuttle bus delays.

If you are not a hotel guest, there is a $30 self-parking or $40 valet daily charge at Gaylord Palms. **Gaylord Palms parking is extremely limited for drive-in attendees and remote parking is recommended**.

BADGE PRINTING AND MATERIALS

Badges are issued based on the registration category specified and are required for entry into all courses, events and the Exhibit Hall. **Badges will not be mailed** — attendees will receive a barcoded email one week prior to the meeting. Bring this email with you on-site to print your badge.

NON-SMOKING/NON-VAPING MEETING

In keeping with good health practices, FDC has been officially designated a non-smoking and non-vaping meeting.

EMOTIONAL SUPPORT ANIMALS

If you require an emotional support animal (ESA), please contact FDC by Monday, June 20 at 800.877.9922. Under the Americans with Disability Act, ESAs are not given the same rights and exemptions as service animals and approval of ESAs in public areas and businesses are at the discretion of those entities. If prior approval is not given by FDC, attendees will be asked to remove the ESA from the event.

REGISTRATION INFORMATION

PREREGISTRATION

Advance registration saves time and money. All courses, including workshops, will be registered à la carte. **To receive the Early Bird rate, registrations must be paid online or submitted by mail and postmarked by April 15, 2022. To receive the Regular rate, registrations must be paid online or submitted by mail and postmarked by June 10, 2022**. Registration forms submitted via mail postmarked after the June 10 deadline will not be processed. All registration activity after this deadline will be subject to on-site pricing and must be completed online or at the on-site registration desk at Gaylord Palms. All fees for on-site registration increase by at least $20 per registrant and by at least $10 per course.

HOW TO REGISTER

Register online at floridadentalconvention.com or complete the Advance Registration Form and mail to:

Florida Dental Convention
Attn: FDC Meeting Assistant
545 John Knox Road, Ste. 200
Tallahassee, FL 32303

Please only use one method of transmission to avoid duplicate records or multiple charges. Telephone and fax registration is not available.

You may adjust your registration online at floridadentalconvention.com or by calling the FDC customer service line, 850.807.4997, before June 10. After this date, adjustments to mailed-in registrations must be made on-site at Gaylord Palms and are subject to on-site pricing. Online adjustments can be made at any time. However, on-site pricing will apply after June 10.

FEE PAYMENT

All fees must be made in U.S. dollars by Visa, MasterCard, Discover, American Express or by personal check drawn on a U.S. bank and made **payable to the Florida Dental Association**. Although we try to assure accuracy, FDC cannot be responsible for any typographical fee errors in our printed registration brochure or on our website.

CHILD REGISTRATION

Children ages 8 to 18 who want to attend Dueling Pianos, Sea Vibes or the Exhibit Hall must be registered and have a badge for entry. Children younger than 8 years of age do not need a badge but must be accompanied by a registered parent or guardian to attend evening social events. Children are only allowed in the Exhibit Hall if accompanied by a registered parent or guardian. **Infant strollers and carriages are not allowed in the Exhibit Hall, unless medically necessary, at any other time than the designated stroller hours of 9-11 AM on Saturday, June 25**. For the safety and convenience of others, the use of baby carriers is strongly encouraged.

GUEST REGISTRATION

Non-dental spouses and family over the age of 18 will register as a Guest. Attendees registered as "Guest" may attend registered keynote sessions and courses, the Exhibit Hall, and registered events such as Dueling Pianos and Sea Vibes. Registered guests are unable to receive CE credit for any courses attended. Guests who want CE credit should register as their appropriate professional category.

FREE EXHIBIT HALL PASSES

Free Exhibit Hall Only registrations are available for non-FDA member dentists, team members and their guests. Access to the Exhibit Hall is included in the free FDA member preregistration. This registration category allows attendees to only access the Exhibit Hall. Exhibit Hall Only registrants may not take courses or attend any events such as Dueling Pianos and Sea Vibes. To upgrade your registration, call 850.807.4997 before June 20, or go to the Registration Desk on-site.

WORKSHOPS

Registrants may be required to bring instruments or other materials to workshops or to attend a mandatory prerequisite lecture. In addition, it is the responsibility of each registrant to check the course description carefully for equipment needs, participant requirements or prerequisites. Room capacity for workshops is limited and attendees are registered on a first-come, first-paid basis. Seats cannot be held without payment.

Disclaimer: For those attending workshops, please be aware of the potential risks associated with using new techniques and procedures without having fully attained a competency level to practice them.

COURSE WAITING LISTS

If a course becomes full, registrants may be placed on a waiting list. Those registering online can select to be added to a course waiting list during the registration process. Those registering via mail will be contacted by an FDC representative to be added to the wait list. If space opens in the course before June 10, the registrant will be placed in the course and the credit card on file will be charged. If the registrant does not wish to take the course, contact FDA staff and a refund will be processed and the seat will be released to the next attendee on the waiting list.

REGISTRATION, COURSE CANCELLATIONS AND TRANSFERS

COURSE CANCELLATIONS AND TRANSFERS

A **CANCELLATION** refers to any termination of a course, workshop, event or complete registration for FDC. A **TRANSFER** refers to the movement of an individual out of one course, workshop or event and into another course, workshop or event.

CANCELLATIONS & REFUNDS

All cancellations and/or requests for refunds must be made in writing and received postmarked by June 10, 2022. All complete registration cancellations are subject to a service and handling fee of $30 per cancelled registrant. Refunds are paid to the individual whose name appears at the top of the check or on the credit card used to pay for registration. Please allow up to six weeks after the meeting for refunds to be processed. **No cancellation refunds for courses, workshops, events or complete registrations will be honored for any reason after the June 10, 2022 deadline**.

Registration fees for Dentist/ADA Member include dual membership to the Florida Dental Association and are non-refundable.

ON-SITE TRANSFERS

On-site transfers will not be allowed for any limited seating sessions (such as workshops and deep-dive courses). On-site transfers will be allowed for lecture courses if space permits. If an individual wishes to transfer from one session into another on-site, that individual must pay for the difference in cost of the new session. Please see a registration agent on-site to inquire about course transfers. **No refunds will be given for on-site transfers regardless of difference in course tuition**.

REGISTRATION DEADLINES

EARLY: March 1-April 15
REGULAR: April 16-June 10
CANCELLATIONS: June 10
ON-SITE: June 11-25

QUESTIONS?

For questions regarding the Florida Dental Convention, please contact the FDA at 800.877.9922.

CE INFORMATION

CE VERIFICATION

CE verification is automatically provided for all attendees. To receive CE credit for course attendance, attendees must scan their badge upon entering and exiting each course. The system will calculate the amount of time an attendee was present and award the credit appropriately. Per the Florida Board of Dentistry (BOD), to receive 1 hour of CE credit, attendees must be present in a course a minimum of 50 of the 60 minutes.

Attendees will be emailed their CE certificate automatically by June 27, 2022. Attendees also can obtain a printed CE certificate at any time after the end of their courses. CE stations are located on the classroom level Thursday through Saturday, 7 AM-5:30 PM. CE certificates can be accessed online for free after the convention at floridadentalconvention.com until Sept. 1, 2022. After this date, there is a cost to obtain a CE certificate.

All verified course attendance will be automatically submitted for Florida-licensed attendees to CE Broker on their behalf no later than July 22, 2022. Your CE certificate will list all registered verified courses attended; however, credit will not be reported to CE Broker for NC (non-credit) course codes. Verified course attendance for NC courses will be listed as zero hours on your CE certificate. Each state varies on what is accepted for continuing education and those courses can be self-reported to your reporting entity after the event, should your organizing BOD accept those courses.

CE/CERP

Florida dentists are required to complete a minimum of 30 credit hours of approved continuing education in dental-related subjects each biennium. Attendees can earn up to 33.5 credit hours at FDC.

The Florida Board of Dentistry (BOD) accepts up to 3 hours of credit biennially for practice-management courses that address: principles of ethical practice management, substance abuse, effective communication with patients, time-management and burnout-prevention instruction. Dentists who have questions about whether the BOD will accept a particular course should visit their website (floridasdentistry.gov/licensing/dentist) or call 850.245.4474.

ADA C·E·R·P® | Continuing Education Recognition Program

The Florida Dental Association (FDA) is approved as a continuing education provider by the Florida BOD. The FDA also is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

Concerns or complaints about a CE provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at ADA.org/CERP.

COURSE CODE KEY	
C	Clinical Course, CE approved by Florida BOD
PM	Practice Management Course, CE approved by Florida BOD
W/PE	Hands-on Workshop, CE approved by Florida BOD
MR	Hands-on Mini-residency, CE approved by Florida BOD
DD	Deep Dive Course, CE approved by Florida BOD
NC	Non-credit Course, Not CE approved by Florida BOD

DISCLAIMERS/POLICIES

COVID-19 DISCLAIMER

Preventive measures aimed at reducing the spread of COVID-19 will be in place at FDC; however, it is not possible to fully eliminate the risk. All attendees and guests at FDC voluntarily assume all risks of exposure to COVID-19. Visit floridadentalconvention.com for health and safety updates.

COURSE SATISFACTION DISCLAIMER

Should you choose to register for a course outside the recommended audience, refunds will not be issued if you are dissatisfied with the course.

SCIENTIFIC PROGRAM DISCLAIMER

The FDA and the Committee on Conventions and Continuing Education make every effort to present high-caliber speakers in their respective areas of expertise. The speakers' presentations in no way imply endorsement of any product, technique or service presented during these presentations. The FDA specifically disclaims responsibility for any material presented. In addition, participants must always be aware of the hazards of using limited knowledge in integrating new techniques or procedures into their practice. Only sound evidence-based dentistry should be used in patient therapy.

PHOTO RELEASE POLICY

By registering for FDC2022, you are authorizing the FDA the right to photograph you, your invitees and guests while attending courses or using common or public areas of the hotel, and to use the photographs in all formats and media for any purpose, including for education, marketing and trade purposes. By registering, you release FDA from all claims arising out of the use of the photographs, including without limitation all claims for compensation, libel, invasion of privacy or violation of copyright ownership.

EMAIL LIST POLICY

By registering for FDC2022, you authorize the FDA the right to add you to their email marketing list to receive convention updates for 2022 and subsequent years. You can opt out at any time but will not receive pertinent information regarding your registration.
