

Meet ✨Dr. Houssam Alghadban✨

I opened my practice in Schertz, Texas where I see a good demand for a good periodontist to serve this beautiful and growing area.

My practice is a solo Perio practice that depends on the referrals of my great colleague dentists surrounding me in Schertz, New Braunfels, and San Antonio areas.

As a new Perio practice (Less than a year), I am very fortunate and appreciative to gain the great support, trust, and referrals from my amazing dentists surrounding me as we always enjoy discussing our mutual patients' treatment plans, progression in their oral and periodontal health along with the exciting implant cases where we build a comprehensive plan between my surgical phase and their restorative phase.

My personal - life-changing patients are the ones that I can draw a big, beautiful smile on their faces, especially the ones with high anxiety and who need sedation dentistry. I am happy to be able to perform the treatment and deliver the care and results that they deserve.

Aside from my career that I enjoy every day, in my free time, I enjoy the chance to spend good quality time with my wife and my two beautiful daughters, Talia and Alma. I also love doing outdoor cycling two or three times a week - trying to stay healthy and in good shape. Getting older is not easy!
