May 2022

Dear Doctors,

We are very proud of our 2022 Seminar Series program speakers. These are the full 7CE CERP and PACE programs, presented in-person with breakfast and lunch. These will not be offered virtually or in a hybrid format. As you may know, our in-building food service is under new ownership and has been fully upgraded. The building was recently purchased by the Damianos Realty Group who have already begun major renovation and restoration projects within the facility. We have upgraded our own Audio/Visual technology to bring you large, clear, stunning images and a better overall experience.

The remaining 2022 courses are \$300 per event for members and the non-member cost per event is \$525.

However, effective immediately and continuing through September 1, 2022, members can purchase all three-remaining course for \$750 (saving more than 15% if purchased separately). Non-members can purchase all three remaining course for \$1340.

The 2022 full Seminar Series is as follows:

- [Dr. Daniel Pompa – Medical Emergencies](#) on September 14, 2022
- [Dr. Frank Tuminelli – We've Come a Long Way...](#) on October 26, 2022
- Dr. Michael Proothi – TMJ / Trigeminal Nerve on November 30, 2022

Additional details on the November 30th course will be posted shortly.

Please call the office at **631-232-1400** to book this rate.

We appreciate your patronage and will continue to try and bring you great value and educational programs.

Sincerely,

William Panzarino
Executive Director
Suffolk County Dental Society
