Dear 2020 Oregon Dental Conference Attendee,

Thank you for registering for the 2020 Oregon Dental Conference.

In light of recent Coronavirus/COVID-19 developments, we are writing to notify you that the Oregon Dental Association is still moving forward with the 2020 Oregon Dental Conference (April 2-4).

The Oregon Dental Association is closely monitoring the situation here in Portland and in Oregon. We are working with the Oregon Convention Center and with our local tourism bureau (Travel Portland) on day-by-day updates as well as monitoring updates from the Oregon Health Authority, the Centers for Disease Control and Prevention (CDC), World Health Organization (WHO), and US Department of Health and Human Services.

The safety of our Oregon Dental Conference participants is our highest priority. The Oregon Convention Center has placed hand sanitizing stations throughout their venue and at every entrance. Their staff has been directed to disinfect all hard surfaces to maintain a high level of cleanliness.

As of today, the risk of exposure in Portland is low. Portland is currently open for business and travel is not restricted. It is difficult to predict a situation like this so if there are any changes to our current plans, we will let you know.

We are looking forward to a successful event. Please reach out to us at 503.218.2010 or odc@oregondental.org if you have any questions.

Thank you,

Oregon Dental Association
