

## Sign Up for WSDA's Phone2Action Advocacy Text System

Signing up for WSDA's new text message-based action alerts will enable you to receive updates to your phone at the moment that action is most necessary on critical dental issues. By simply clicking a link in a text message, you will be able to contact legislators about dental issues by email, phone, and various social media platforms.

### How to sign up:

Text "WSDA" to the number 52886

Once you text "WSDA" to 52886, you will be asked for your name, zip code, and email address. After answering these questions you will be entered into the system and will receive a text message every time we need you to respond to an action alert.
