

- **GPS Tracker and Personal Duress device in one**
- Compact, wearable, water resistant
- Long battery life
- “Panic button” Alerts by email and text message
- Full GPS tracking portal

How can I quietly & quickly notify the authorities of a “situation” here?

Man, Joe sure could have used some timely help the other day when he hurt himself at the substation...

Are we getting good “value” from our current tracking solution?

**Where are our assets & resources in the field?
How can we make our locations and staff “safer”?**

Where are all my trailers and construction equipment? I thought the large backhoe was at yard #23?

What service tech is closest to Mr. Jones house for his emergency service call?

Healthcare workers
1st Responders
Social Workers/Counselors
Home Services Workers
Inspectors/Government Workers
Maintenance & Field Service Workers
Delivery Workers

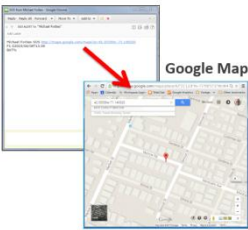

Retail workers
Patients at risk for “wandering”
High Value Shipping Containers/Assets
Collection Workers
Vehicles/Trailers/Generators, etc.
Educators/Students
Other “lone” field workers or ???
