### GET FREE COURSE TUITION!

#### Volunteer to be an FDC Speaker Host

Volunteers provide an invaluable service to the Florida Dental Convention. Speaker Hosts will be responsible for introducing the speaker, making announcements in front of the course, passing out and collecting surveys, and contacting convention staff if AV assistance is needed.

#### Volunteering has its perks!

- All Speaker Hosts receive a \$25 lunch voucher for Exhibit Hall concessions.
- Lecture Speaker Hosts receive free course tuition for the hosted course.

Volunteer today at [education.floridadentalconvention.com](http://education.floridadentalconvention.com)

# Join Us!

On behalf of the Florida Dental Association (FDA) and the Committee on Conventions and Continuing Education (C-CCE), we are delighted to invite you and your team to join us for the 2024 Florida Dental Convention (FDC) “Your Future. Your Design!” This year’s program offers a fantastic lineup of continuing education (CE). We remain committed to high-quality lectures, cutting-edge workshops and a state-of-the-art Exhibit Hall. **As a reminder, pre-registration is FREE for all FDA member dentists!** As you explore the Registration Brochure, we hope you grow ever more excited to join us on a journey of learning, collaboration and networking, June 20-22, 2024.

Dr. Rodolfo Olmos, Scientific Program Chair, has meticulously designed a program to provide you with a platform to gain new insights, exchange ideas and connect with colleagues who share the same passion for dental excellence. FDC2024 contains some of the nation’s top speakers, presenting innovative information to help you, your team, your practice and your patients. Thursday and Friday will feature next level keynote sessions that are free for the entire dental team. You won’t want to miss Dr. Joshua Austin with “The Mental Dental Connection: The Secret to Being a Better Clinician and Leader,” and Mr. Kenyon Salo with “The Bucket List Life – Create More Experiences, Share More Stories and Live More Fulfilled!”

You and your team can look forward to an impressive lineup of renowned speakers, engaging workshops, and thought-provoking discussions that will undoubtedly broaden your knowledge and inspire you in your practice. Our agenda is packed with informative sessions covering a wide range of topics, ensuring that there is something for everyone. Featured speakers include Ms. Debra Engelhardt Nash, Mr. Kevin Henry, Dr. Mark Kleive, Dr. Sarah Jockin, Dr. Mario Romero, Dr. Sully Sullivan, Ms. Katrina Sanders and more. You also have the opportunity to dive deep into topics focusing on 3D printing and dental implants with in-depth mini residency courses.

The Exhibit Hall has been designed to cater to all of your comprehensive dental needs. The Exhibit Hall will be open Thursday, 11 AM-6 PM; Friday, 8:45 AM-6 PM; and Saturday, 9 AM-2 PM. This allows you ample time to visit the more than 300+ exhibiting companies as well as the free reception in the Exhibit Hall on Thursday from 4-6 PM. The Puppy Break will also be returning to the Exhibit Hall on Friday from 3-5:45 PM so you can take a “paws” from the CE. **Not looking for CE? Non-FDA members and team members can visit the Exhibit Hall for FREE with an Exhibit Hall Only Pass.** Access to the Exhibit Hall is included in the FDA member free preregistration.

Our motto remains, **come for the CE, stay for the FUN!** As always, FDC will host phenomenal social events for you to enjoy time with your colleagues, friends and family. Dance your heart out at “Live! at FDC” with a live band for all ages on Thursday from 8-11 PM. On Friday night, join your colleagues and friends for an unforgettable experience at the “Jurassic Party”! Those 18 and older who like to keep the party going can continue the fun at “The After Party” for a club-like experience with a DJ jamming from 10 PM to 12 AM. These events are FREE for all registered attendees and your badge is required for entry.

We want to express our gratitude to all the speakers, sponsors and partners who have made this event possible, as well as to all of you for your dedication to the dental profession! Have a look at all we have to offer you, your team, your family and guests to make the most of your stay. Secure your hotel room early and register now to get your first choice on your preferred courses and event tickets before they sell out. Come join us – FDC2024 will be amazing! We will #FDCYouSoon.

**Dr. Becky Warnken**  
FDC General Chair

**Dr. Rodolfo Olmos**  
2024 Scientific Program Chair

## FLORIDA DENTAL CONVENTION PARTNERS WITH THE FLORIDA CLEFT PALATE - CRANIOFACIAL ASSOCIATION

The Florida Dental Convention (FDC) is excited to announce its partnership with the Florida Cleft Palate - Craniofacial Association (FCPA) at FDC2024! FCPA will hold its meeting parallel to FDC2024 on Saturday, June 22, at the Gaylord Palms Resort & Convention Center in Orlando.

Visit [www.floridacleft.org/2024-annual-meeting](http://www.floridacleft.org/2024-annual-meeting) to learn more about the FCPA Annual Meeting. We hope to see you there!

## VISIT THE EXHIBIT HALL *FOR FREE!*

### Connect with 300+ Exhibitors with a **FREE Exhibit Hall Only Pass!**

Thursday, June 20 11 AM-6 PM

Friday, June 21 8:45 AM-6 PM

Saturday, June 22 9 AM-2 PM

# PRACTICAL 3D PRINTING: A TWO-DAY MINI-RESIDENCY (MRO1)

## ELEVATE YOUR DENTAL PRACTICE WITH 3D PRINTING!

Join Dr. Sullivan and Ms. DeLoach for an exclusive two-day hands-on mini-residency that will revolutionize your dental office with 3D printing technology. Attend this hands-on course to dive into the world of 3D printing and explore its limitless potential in dentistry, gain practical experience, better understand the basics of advanced design techniques, and learn how to create stunning mock-ups for cosmetic dental procedures that will impress your patients. Put theory into practice with state-of-the-art 3D printers sponsored by SprintRay and utilize Exocad software for designing. Leave this mini-residency with the confidence to implement 3D printing in your office immediately. Do not miss this opportunity to be at the forefront of dental technology and advance your practice with 3D printing. A one-hour lunch break will be provided both days.

### PRACTICAL 3D PRINTING: A TWO-DAY MINI-RESIDENCY (MRO1)

THURSDAY, JUNE 20 – FRIDAY, JUNE 21

8 AM-4 PM, BOTH DAYS | CE CREDITS: 14

# COURSES & WORKSHOPS

ALPHABETICAL BY SPEAKER'S LAST NAME

## SUNRISE YOGA THURSDAY | Y01

6:30-7:15 AM | SPECIAL INTEREST | CE CREDITS: 0

AUDIENCE: ALL ATTENDEES

| REGISTRATION CATEGORY | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|-----------------------|------------|---------|------------|
| ALL ATTENDEES         | \$15       | \$15    | \$25       |

Start your morning with a 45-minute gentle flow yoga al fresco on the Coquina lawn! Leave feeling empowered, regardless of your ability – beginners, as well as seasoned practitioners, will benefit from this class. Please bring your own towel and try to arrive 5 to 10 minutes prior to class starting. Everyone will receive a yoga mat to take home!

## AMUNDSON, DR. MELISSA

NEW DENTIST RECOMMENDED

### TREATING NOMA THROUGH DOCTORS WITHOUT BORDERS IN NIGERIA | C11

9:30-10:30 AM | ORAL PATHOLOGY | CE CREDITS: 1

AUDIENCE: DENTISTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$0        | \$0     | \$29       |
| NON-MEMBER DENTIST       | \$29       | \$29    | \$39       |

This lecture will provide attendees with an understanding of the history and goals of Doctors Without Borders and how Dr. Amundson uses her expertise for this worthy cause. During the lecture, Dr. Amundson will discuss the limitations and challenges of working in resource-poor settings and explain the etiology of noma, its relationship to oral health care and the devastating impact on the population.

This lecture is partially sponsored by

## AMUNDSON, DR. MELISSA

### JAW IN A DAY: EVOLVING TECHNOLOGY IN THE RECONSTRUCTION OF DENTATE COMPOSITE DEFECTS | C12

1-2 PM | ORAL SURGERY | CE CREDITS: 1

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, DENTAL STUDENTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$0        | \$0     | \$29       |
| NON-MEMBER DENTIST       | \$29       | \$29    | \$39       |
| TEAM MEMBER              | \$29       | \$29    | \$39       |
| DENTAL STUDENT           | \$29       | \$29    | \$39       |

This lecture will provide attendees with an understanding of current trends in the reconstruction of traumatic defects involving bone, soft tissue and teeth. Dr. Amundson will also touch on the utilization of pre-operative and intraoperative instrumentation to reconstruct composite defects of the maxilla and mandible. Attendees will learn to recognize the limitations and potential pitfalls of using this technology.

This lecture is partially sponsored by

## AUSTIN, DR. JOSHUA

NEW DENTIST RECOMMENDED

### THE MENTAL DENTAL CONNECTION: THE SECRET TO BEING A BETTER CLINICIAN AND LEADER KEYNOTE | PM02

11:15 AM-12:15 PM | PRACTICE MANAGEMENT | CE CREDITS: 1

AUDIENCE: ALL ATTENDEES

| REGISTRATION CATEGORY | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|-----------------------|------------|---------|------------|
| ALL ATTENDEES         | \$0        | \$0     | \$29       |

Anxiety, pain, depression, burnout – dentistry can be difficult and take a toll. Studies show us that dental professionals experience a high incidence of mental illness. Additionally, many dental professionals do not clearly understand the mental health conditions that their patients present with, which red flags to watch for, what to do or how to intervene. Presented in Dr. Austin's trademark comedic style, this lecture explores strategies for working together to improve mental health so you can be your best. During this lecture, learn how to recognize triggers and warning signs, identify essential tools and resources, discover how and when to refer to a mental health professional, explore and understand mental health terms, learn about common treatments and therapy options, gain coping mechanisms and learn how to manage expectations – both our own and those of our patients.

## THURSDAY, JUNE 20

**AUSTIN, DR. JOSHUA**

NEW DENTIST RECOMMENDED

**WHAT'S NEW? MATERIALS AND TECHNOLOGY THAT EXPEDITE EXCELLENCE | C14**

2-5 PM | DENTAL MATERIALS | CE CREDITS: 3

|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$69       | \$79    | \$89       |
| NON-MEMBER DENTIST       | \$79       | \$89    | \$99       |
| ASSISTANT                | \$49       | \$59    | \$69       |
| DENTAL STUDENT           | \$0        | \$0     | \$0        |

In this fast-moving market, advertising makes every product appear to be the panacea. However, some of the best products and services do not enter the market with fanfare. Dental professionals can become bogged down or confused when trying to decipher which new materials and technologies are right for their practices. As editorial director of Dental Economics magazine, Dr. Austin authors the column, "Pearls for Your Practice," and has personally worked with most new products and technologies that have entered the market. In this interactive, fast-moving course, Dr. Austin shares current trends in dental materials and technologies. Learn how materials have changed over the past few years and how those changes can affect your procedures and practice.

This lecture is partially sponsored by

**BATOON, DR. DIANA****ROCKSTARS IN THE MAKING: DENTAL ASSISTANT BOOTCAMP WORKSHOP | W01**

8-11 AM | ASSISTING | CE CREDITS: 3

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |

Want to be a rockstar in the practice? Learn how to motivate your co-workers, patients and even your doctor to be their best for everyone in the workplace by gaining skills to excel in hands-on dentistry and using the latest technologies in your practice. Everyone has hidden talents that can help a team thrive. Dr. Batoon will give you insight into helping your practice grow and thrive by test-driving the current tools and technologies (scanners, imaging and photos) that can be used to manage conversations with patients in the dental chair. Participants will learn to make aesthetically pleasing temporaries to promote gum health, tips and tricks to improve organizing your restorative set-ups and lab communication, and photography skills for taking shades and lab communication. *Attendance is limited to 22.*

Dental technology helps a practice thrive and work more efficiently. What is the latest and greatest, and what systems are outdated? What other tools can a practice benefit from, and what return on investment can a business owner use to determine profit and benefit for the practice? Using high technology can convert treatment plans to same-day dentistry as well as be instrumental in acceptance rate for other levels of service.

**BLANCHARD, DR. ERIENNE****COLLABORATION OF PHYSICAL THERAPY AND DENTISTRY: HOW CAN WE IMPROVE FACIAL PAIN PATIENTS? | C25**

2:30-3:30 PM | OCCLUSION | CE CREDITS: 1

How are physical therapy and dentistry related? Dentistry is continually faced with facial pain, jaw pain, headaches and tension/grinding. Physical therapists trained in craniofacial work are focused on restoring the balance of the upper cervical spine, the alignment of the TMJ, and assisting with muscle pain reduction as well as reducing neurological pain in the face. Physical therapy can assist the dentist in reducing these areas and improving bite, alignment and parafunctional activities. The dentist can add a physical therapist to their referral group to best care for their patients, improve compliance with appliance usage, and improve their sleep quality. During this course, Dr. Blanchard will discuss craniofacial physical therapy, how and when to make the referral, and how to work together with evaluation to assist in the pain reduction and progression of the patient.

## BLODGETT, DR. KELLY

### OPTIMAL PERIODONTAL REGENERATION | C13

1-5 PM | PERIODONTICS | CE CREDITS: 4

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, PRACTICE ADMINISTRATORS, DENTAL STUDENTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$79       | \$89    | \$99       |
| NON-MEMBER DENTIST       | \$89       | \$99    | \$109      |
| TEAM MEMBER              | \$59       | \$69    | \$79       |
| DENTAL STUDENT           | \$59       | \$69    | \$79       |

Learn a biologically-based approach to treating periodontal disease that harnesses the power of laser light and oxygen-based therapies. This lecture illustrates a progressive periodontal protocol using dental lasers, including the LANAP protocol, periodontal tray therapy using a hydrogen peroxide gel, and ozone therapies. The lecture will be filled with energy, enthusiasm and protocols that are easily reproducible by any dental team. At the end of this lecture, dental professionals will be able to offer a better standard of care that respects the microbiome of the patient's oral and gastrointestinal health, produce more revenue and make happier patients immediately upon returning to their practice.

This lecture is fully sponsored by  **PerioProtect**  
Treat your gums nicely.

At some point in the career of every dentist, he or she will be asked to give a PowerPoint/Keynote presentation to colleagues. As dentists move into advanced education and become key opinion leaders, the need to lecture becomes increasingly significant. For many clinicians, public speaking represents a fate worse than death and causes panic. Additionally, the lack of formal training to develop an engaging presentation leaves many educators feeling helpless. This lecture outlines many scientific principles — as well as tried-and-true methods — for creating compelling content/imagery, managing contemporary slideshow technology and reducing personal anxiety while speaking to colleagues in a meaningful way. *Attendance is limited to 30.*

Participant Requirements: Laptop (preferably Mac) with Keynote or PowerPoint downloaded.

Dentistry is not just about teeth. It is about the person and their environment that can make or break the experience of a patient at the dentist. Neurodivergent patients struggle with “traditional” dental visits in different ways and for different reasons that are unique to them. This deep dive course will help build a better understanding of how each dental team member and the design of the office can positively impact a patient’s oral health by creating an inclusive dental team and practice. Attendance is limited to 30.

Mobile dentistry and teledentistry have become buzzwords since COVID-19; however, they have been around for many years and are here to stay. They are making a significant impact in various dental and medical healthcare settings. The introduction of teledentistry services into CDT codes in 2018 and the increasing number of state practice acts enable direct access to rapidly change how dental services are delivered. There are many innovative ways to weave mobile dentistry and teledentistry into our daily dental practice and make them productive. However, it is essential to understand teledentistry, its different platforms and the many types of mobile dentistry. Digital technology has transformed all aspects of modern life, including the work environment, education and leisure time. In that context, digital technology is transforming health care delivery efficiency. The digital technology transformation affects providers and patients and offers a way to expand services and improve health care. This includes providing access to both generalist and specialist care services in rural and remote areas, as well as care for patients with limited mobility.

**DUNBAR, MS. SONYA  
DUNBAR, MR. GERALD****PLANNING FOR THE UNTHINKABLE WORKPLACE VIOLENCE | PM03**

2-4 PM | PRACTICE MANAGEMENT | CE CREDITS: 2

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, PRACTICE ADMINISTRATORS, DENTAL STUDENTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$69       | \$79    | \$89       |

A gunman shot and killed his wife at a dentist’s office in Tennessee on Wednesday morning, police said. An armed bystander shot the gunman, detained him and waited for police to arrive; Sullivan County Sheriff, Jeff Cassidy, told reporters. The sheriff said that the gunman’s wife worked at the dentist’s office in Kingsport; he did not identify the gunman or his wife and said he did not know the motive for the shooting. In today’s uncertain times, it is essential that staff and patients feel safe at their place of work or when they visit a dental office. This lecture is designed to help dental professionals prepare for what to do if the unthinkable happens.

| DENTAL STUDENT           | \$49       | \$59    | \$69       |

Eighty-five percent of the time dental professionals spend with their patients is in communication. Exceptional communication skills make all the difference in how patients understand, appreciate and accept the care you seek to provide. Introducing practice protocols, treatment standards and payment structures makes a huge difference in gaining patients' approval of practice procedures. By answering the phone and introducing potential patients to the office – utilizing appointment book control, treatment presentation and financial arrangements – you can increase patients and gain compliance more readily. The result: Happier Patients = Patient Growth. This lecture will demonstrate how to determine successful communication outcomes.

Several conditions are known to cause excessive gingival display. The tissue being positioned coronally on the teeth results in a silhouette form that is unattractive by not respecting teeth proportion parameters and is often called a "gummy smile." Regarded as a therapeutic approach to treating a gummy smile, anterior crown lengthening can be described as part of a multidisciplinary treatment plan. During the lecture, attendees will learn how to diagnose and evaluate CBCT and how to use the digital workflow to fabricate a 3D-printed surgical guide.

Dental offices are a costly physical plant. When a dentist builds out their practice, they usually do not think that his or her landlord could have the ability to prevent selling the practice, require relocation (at the dentist's cost), or terminate the lease at their discretion. During this lecture, dentists will learn how the value of their dental office is directly tied to having a good lease. This fast-paced, interactive educational lecture will provide dentists with the knowledge and tools they need to deal with their office lease and landlord to gain peace of mind.

Service calls or equipment repairs can be quite costly for dental offices. This course will cover basic preventive maintenance and safety requirements for dental office equipment. Attendees will learn how to properly maintain air compressors, vacuum systems, autoclaves, cavitrons, prophylaxis jets and hand-pieces, as well as how to change O-rings in leaking air/water syringes and solve many other maintenance issues that exist in every dental office.

All attendees will leave the course with a detailed manual that includes inventory forms for general equipment, operator equipment and equipment parts. The manual also contains individual maintenance logs to track repairs and maintenance on dental equipment. At the end of the course, each participant will receive a coupon valued at \$250 toward their next Patterson TechEdge service call. Mr. Gilbert's offers a repeat of this course (DD-NC05) on Friday, June 21 from 9 a.m.-12 p.m.. Attendance is limited to 32.

Have your claims been denied because of missing or incorrect codes for procedures? Two of the most important code sets are the Current Dental Terminology (CDT) and International Classification of Diseases, 10th Revision, Clinical Modification (ICD-10-CM). These code sets must be used correctly to report procedures on dental claims for reimbursement. Because dentistry and healthcare are ever-changing, the CDT code set is updated annually. This lecture will update you on recent code changes, why these changes were made and how your practice is affected. The ICD-10-CM is a code set used to prove medical necessity. Many plans, such as Medicare Advantage, Affordable Care Act and Medicaid plans, require the application of ICD-10-CM codes on the dental claim. Some payers will require a diagnosis code for specific procedures, such as bone grafting. This lecture will help attendees correctly select, apply and document the codes for a successful dental claim submission.

Xerostomia or dryness of the oral cavity, is now affecting 1 out of every 5 adults and has become one of the most common oral health pathologies. There are over 1,100 drugs that contribute to this oral condition. Also, advances in medicine and therapeutic modalities have resulted in a steadily increasing human life expectancy. With longevity, you can expect salivary hypofunction. The rapid rise in diabetes and autoimmune disorders only further magnifies this oral condition and warrants the need for chairside assessment and strategies to treat it. As the population ages and the 'silver tsunami' rolls in, are you prepared to address the challenging condition of xerostomia?

# RDH @ FDC

Learn new RDH skills and techniques and connect with your peers, all while having FUN at FDC2024. We've got the courses you've been searching for – It's CE for you, by you! The FDC dental hygienist consultant has planned CE courses designed for you, the RDH. #ItsNotYourAverageDentalMeeting

FDC OFFERS 80+ COURSES FOR THE RDH. LOOK FOR THE COURSES WITH "HYGIENIST" LISTED AS THE AUDIENCE FOR COURSES RECOMMENDED FOR YOU.

## COME FOR THE CE.

- ▲ **Dianne Watterson, RDH, MBA** – Advanced Hygiene Therapy – Developing a Comprehensive Approach (C08)
- ▲ **Emme Sanders, RDH** – That's Hot ... Real Talk About Inflammation (C07)
- ▲ **Jo-Anne Jones, RDH** – Cleaning Teeth Versus Impacting Lives ... It's Your Choice! (C18)
- ▲ **Anne Guignon, RDH, MPH** – Gaggers, Uptight and Upright Folks – Strategies for Treating "Those Patients" (C63)
- ▲ **Kathy Forbes, RDH** – The Hygiene Appointment – 60 Minutes to do HOW Many Procedures? (C50)
- ▲ **Anne Guignon, RDH, MPH** – Caries: The Ultimate Environmental Catastrophe (C32)
- ▲ **Caitlin Parson, RDH** – Ergonomics and Therapeutic Yoga for Dental Professionals Deep Dive (DD02/DD04)
- ▲ **Sonya Dunbar, RDH, MPH** – Periodontal Disease Does Not Discriminate Based on Age: A Look at the Aging Mouth, Periodontal Disease and Dementia (C30)
- ▲ **Plus, many more options for you!**

## STAY FOR THE FUN!

- ▲ **Free RDH Swag Bag** featuring products from your favorite vendors!
- ▲ **Nightly social events included in your registration**
  - LIVE! At FDC Party on Thursday
  - Jurassic Party on Friday
  - The After Party on Friday
- ▲ **Welcome Cocktail Reception in the Exhibit Hall on Friday.**
- ▲ **Puppy Break in the Exhibit Hall on Friday.**
- ▲ **Free keynote sessions on Thursday and Friday.**
- ▲ **Yoga on the lawn on Thursday and Friday for only \$15.**
- ▲ **Resort-style pool and water park at Gaylord Palms.**
- ▲ **Discounted tickets at Walt Disney World theme parks.**
- ▲ **Exhibit Hall featuring 300+ vendors.**
- ▲ **Plus, endless networking and team-building opportunities.**

## NOT LOOKING FOR CE?

Register as "Exhibit Hall Only," which gives you free access to the Exhibit Hall all three days of FDC, the Welcome Cocktail Reception on Thursday and the Puppy Break on Friday. See Page 3 for more details.

## THURSDAY, JUNE 20

## JONES, MS. JO-ANNE

CLEANING TEETH VERSUS IMPACTING LIVES ...  
IT'S YOUR CHOICE! | C18

2-4 PM | HYGIENE | CE CREDITS: 2

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$69       | \$79    | \$89       |
| NON-MEMBER DENTIST       | \$79       | \$89    | \$99       |
| TEAM MEMBER              | \$49       | \$59    | \$69       |

The oral-systemic link is not new; however, a rapidly growing amount of research is signaling a strong reactionary link with the imperative need to reduce the burden of chronic inflammation. This has become a benchmark of healthcare delivery. Long-running, ongoing chronic disease such as periodontal disease tips the body's balance toward chronic systemic inflammation. Cardiovascular disease, diabetes and even certain types of cancer are all connected through a common pathway — chronic inflammation. Through this lens, you can understand the undeniable link between periodontal disease, the most common chronic inflammatory disease known to mankind, and the risk of systemic illness. Are you just cleaning teeth, or are you actively combating chronic inflammation, improving patients' overall health and potentially adding years to their lives? Today's dental hygienist plays a profound role as a critical stakeholder in improving and extending the quality of life for their patients. Attend this lecture to emerge with a renewed sense of purpose, recognizing that your work goes far beyond the dental chair and has the potential to positively influence the well-being of individuals and communities alike.

This lecture is partially sponsored by **PHILIPS**

## KLEIVE, DR. MARK

ESSENTIAL BUSINESS SYSTEMS FOR EVERY  
DENTAL PRACTICE | NC01

8-10 AM | FINANCIAL | CE CREDITS: 0

AUDIENCE: DENTISTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$69       | \$79    | \$89       |
| NON-MEMBER DENTIST       | \$79       | \$89    | \$99       |

As the dental marketplace continues to evolve, the efficiency of business systems becomes more important to the success of your practices. The dentist and/or team members responsible for these business systems may or may not have formal training that enables them to make strategic decisions so their offices flourish. This lecture will give all attendees a clear understanding of the business systems that make a difference and how to implement them in their practice.

## MACEDO, DR. ROBERTO

NEW DENTIST RECOMMENDED

MINIMALLY INVASIVE PHILOSOPHY IN MODERN DENTISTRY –  
PORCELAIN VENEERS WORKSHOP | W02

8-11 AM | AESTHETIC | CE CREDITS: 3

AUDIENCE: DENTISTS, DENTAL STUDENTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$359      | \$379   | \$399      |
| NON-MEMBER DENTIST       | \$379      | \$399   | \$429      |
| DENTAL STUDENT           | \$359      | \$379   | \$399      |

This workshop is designed to provide a simplified workflow in aesthetic analyses (theoretical tools) and how to perform (hands-on) high-end, minimally invasive cosmetic dentistry. Modern aesthetic dentistry has a minimally invasive philosophy in mind, where enamel preservation is key to successful long-term results; it is paramount to master specific skills (e.g., cosmetic landmarks, smile design, tooth preparation, temporary fabrication, adhesive dentistry and much more). From treatment planning to delivery of the case, what you should know and how to execute each step along the way will be presented to assist you better when performing cosmetic dentistry.

Participant Requirements: Loupes, exam kit (explorer, mirror, perio probe), lab blade and handle

The equipment for this workshop is partially sponsored by

MCDERMOTT, MR. ROBERT  
FIDANZA, MR. DAVIDHOW AUTOMATING INSURANCE VERIFICATION IN YOUR  
PRACTICE CAN CHANGE PROFITABILITY | NC05

2-4 PM | ADMINISTRATION | CE CREDITS: 0

AUDIENCE: DENTISTS, PRACTICE ADMINISTRATORS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$0        | \$0     | \$49       |
| NON-MEMBER DENTIST       | \$49       | \$49    | \$59       |
| PRACTICE ADMINISTRATOR   | \$49       | \$49    | \$59       |

The goal of improving dental practice efficiency is to make improvements and reap rewards without significantly increasing overhead costs. While adding more staff would seem like a viable solution to the issues facing many practices today, the return on investment is significantly less than automating the insurance verification process. A digital transformation of your dental practice is easier than you think. In this lecture, learn how automating insurance verification and relying upon cloud-based software can increase productivity, free up human resources and generate revenue. Automation will cost less than hiring additional staff and allows current staff to focus on patients and revenue-generating projects.

This lecture is fully sponsored by iCoreConnect

## NEWSOME, DR. ELISE

NEW DENTIST RECOMMENDED

### IMPLEMENTING DIGITAL TECHNOLOGY IN YOUR PRACTICE | C04

8-10 AM | DENTAL MATERIALS | CE CREDITS: 2

AUDIENCE: DENTISTS, DENTAL STUDENTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$69       | \$79    | \$89       |
| NON-MEMBER DENTIST       | \$79       | \$89    | \$99       |
| DENTAL STUDENT           | \$49       | \$59    | \$69       |

This lecture will demonstrate how to streamline restorative procedures using intraoral scanners and photography and how to implement 3D imaging and printing into your daily workflows. For dentists looking to start their digital journey or whose digital workload is increasing, learn how digital technology boosts productivity and how simple, time-effective procedures can grow a practice. Discover the fast, efficient, cost-effective and predictable world of dentistry.

## OLMSTED, DR. JOHN

NEW DENTIST RECOMMENDED

### WHAT'S UP DOC ... NEWEST ENDODONTIC TECHNOLOGY | C05

8-11 AM | ENDODONTICS | CE CREDITS: 3

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, DENTAL STUDENTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$79       | \$89    | \$99       |
| NON-MEMBER DENTIST       | \$89       | \$99    | \$109      |
| TEAM MEMBER              | \$59       | \$69    | \$79       |
| DENTAL STUDENT           | \$0        | \$0     | \$0        |

What's up? Many new technological advances will allow you to provide efficient and excellent endodontic care for your patients. The instrumentation phase of endodontic treatment can be categorized as locating the canal orifices, negotiating the canals, opening the orifice, reconfirming working length and utilizing "cutting edge" rotary/reciprocation instruments. Recent improvements in the delivery of irrigation solutions have enhanced the reduction of bacteria and debris in the root canal system. Warm vertical condensation of gutta-percha has improved with the technological advances of introducing heat into the canal and backfilling with gutta-percha. This evidence-based lecture will help the attendees apply new endodontics technology when they return to the office.

## OLMSTED, DR. JOHN

NEW DENTIST RECOMMENDED

### FINDING YOUR GLASS SLIPPER ... ENDODONTIC TREATMENT THAT FITS YOU BEST | C19

2-5 PM | ENDODONTICS | CE CREDITS: 3

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, DENTAL STUDENTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$79       | \$89    | \$99       |
| NON-MEMBER DENTIST       | \$89       | \$99    | \$109      |
| TEAM MEMBER              | \$59       | \$69    | \$79       |
| DENTAL STUDENT           | \$0        | \$0     | \$0        |

You can gather many endodontic glass slippers with this evidence-based lecture. This lecture will highlight diagnosis and treatment planning, access, anesthesia, isolation, restoration of endodontic treated teeth and post-operative care with appropriate antibiotics and pain medications. Which tooth is it? How do I get the patient numb? What is the best restoration after endodontic treatment? Which pain medications and antibiotics are best? During this lecture, learn the answers to these questions and more about the endodontic treatment that fits you best.

## PARSONS, MS. CAITLIN

### ERGONOMICS AND THERAPEUTIC YOGA FOR DENTAL PROFESSIONALS - A DEEP DIVE | DD02

8-10 AM | HYGIENE | CE CREDITS: 2

AUDIENCE: ASSISTANTS, HYGIENISTS

| REGISTRATION CATEGORY | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|-----------------------|------------|---------|------------|
| TEAM MEMBER           | \$129      | \$139   | \$149      |

In this deep dive course, you will learn the risk factors you face as dental professionals and try tools to relieve pain and reduce the risk of work-related injuries by prioritizing your health and mastering your ergonomics. This deep-dive will include a 30-minute chair yoga therapy session. *Ms. Parsons offers a repeat of this deep dive (DD04) on Friday, June 21, from 9-11 a.m. Attendance is limited to 30.*

This deep dive is partially sponsored by

THURSDAY, JUNE 20

**RAGAN, DR. MICHAEL****SAFE AND EFFECTIVE PRESCRIBING OF CONTROLLED SUBSTANCES | OP1-2**

2-4 PM | STATE MANDATED | CE CREDITS: 2

AUDIENCE: DENTISTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$69       | \$79    | \$89       |
| NON-MEMBER DENTIST       | \$79       | \$89    | \$99       |

Oral-facial pain is real, and most dental personnel were taught that the most effective way to alleviate severe acute and chronic pain was with prescription opioids. As a result, most dentists prescribe them – with benefits, but also with unintended consequences for their patients. Opioids are also prescribed in emergency departments to manage dental pain until treatment can be started. Regular use of opioids – whether prescribed by a health care provider or not – can lead to chemical dependence and, when misused, can lead to addiction, overdose and death. Prescribers must be trained to decide when opioid medications should and should not be used. Dental professionals will learn to balance the benefits and risks of opioid prescribing, optimize patient attainment of therapeutic goals and avoid the risk to patient outcome, public health and viability of their practice imposed by deficits in knowledge. This course provides the required information about Florida's CS/CS/HB 21, including the current standards for prescribing controlled substances, particularly opiates; alternatives to these standards; nonpharmacological therapies; prescribing emergency opioid antagonists; and the risks of opioid addiction following all stages of treatment in the management of acute pain. **This lecture satisfies the Florida Board of Dentistry's continuing education requirement for Safe and Effective Prescribing of Controlled Substances. This 2 hours of CE can also be used toward the 8 hour MATE Act requirement.**

**ROMERO, DR. MARIO**

NEW DENTIST RECOMMENDED

**THE HIGHLY AESTHETIC RESTORATIVE PRACTICE: BIOMATERIALS AND TECHNIQUES | C06**

8-11 AM | RESTORATIVE | CE CREDITS: 3

AUDIENCE: DENTISTS, DENTAL STUDENTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$79       | \$89    | \$89       |
| NON-MEMBER DENTIST       | \$89       | \$99    | \$109      |
| DENTAL STUDENT           | \$0        | \$0     | \$0        |

This lecture aims to update general practitioners about various topics that affect the biological response, aesthetics and longevity of composite restorations. Attendees will increase their knowledge of materials and instrument selection, shade mapping and techniques for highly aesthetic anterior composite restorations in detail to allow transformation of a patient's smile in A SINGLE VISIT! This two-part course is best attended as a full-day experience. *For comprehensive learning, you must register and pay for both courses (C06 and W04) for the full-day experience. However, attendees may choose to take the lecture course only.*

**ROMERO, DR. MARIO****THE HIGHLY AESTHETIC RESTORATIVE PRACTICE: A HANDS-ON WORKSHOP | W04**

2-5 PM | RESTORATIVE | CE CREDITS: 3

AUDIENCE: DENTISTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$599      | \$649   | \$699      |
| NON-MEMBER DENTIST       | \$649      | \$699   | \$749      |

This hands-on workshop aims to update general practitioners about a specific technique called the “four stumps” layering technique that will help clinicians achieve immediate great results on their direct composite veneers and large Class IVs. Participants will be able to differentiate dentin and enamel shades, identify color intensifiers, re-create natural texture and perform the finishing process to produce the ideal shape and width of teeth. *The lecture, The Highly Aesthetic Restorative Practice: Biomaterials and Techniques (C06), is a prerequisite for this workshop. You must register and pay for both courses for a full-day experience. Attendance is limited to 25.*

Participant Requirements: Loupes

The equipment for this workshop is partially sponsored by

**SANDERS, MS. EMME****THAT'S HOT ... REAL TALK ABOUT INFLAMMATION | C07**

8-11 AM | HYGIENE | CE CREDITS: 3

AUDIENCE: ASSISTANTS, HYGIENISTS

| REGISTRATION CATEGORY | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|-----------------------|------------|---------|------------|
| TEAM MEMBER           | \$49       | \$59    | \$69       |

Systemic inflammation is killing us! It is now known that an oral infection triggers 50% of acute cardiovascular events. In this lecture, attendees will discover how patients' oral health affects their total health, like heart attack, strokes, diabetes and other inflammatory diseases. Allowing patients to see you as a “health care provider” grants you more opportunities to mitigate patient risks. Be prepared to leave this lecture with actionable steps to save patients' lives.

**MASTERING AI: DIAGNOSIS, TREATMENT PLANNING AND COMPREHENSIVE TREATMENT FOR ALL AGES | C21**

2-5 PM | AESTHETIC | CE CREDITS: 3

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, PRACTICE ADMINISTRATORS, LABORATORY TECHNICIANS, DENTAL STUDENTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$0        | \$0     | \$49       |
| NON-MEMBER DENTIST       | \$49       | \$49    | \$59       |
| TEAM MEMBER              | \$49       | \$49    | \$59       |
| DENTAL STUDENT           | \$0        | \$0     | \$0        |

Discover the future of dentistry with Dr. Tomaro! Get ready to discover the application of artificial intelligence (AI), its role in the dental office and how AI will interact with your practice software to boost your practice production by as much as 30%. Successful treatment starts with a successful diagnosis. With the assistance of AI, its role in a comprehensive examination and its unbiased diagnosis, AI presents the ideal workflow from diagnosis to communication with the patient. By involving the patient, the discussion will evolve into the best treatment plan. Dr. Tomaro will demonstrate clinical cases where AI assisted in the actual clinical procedure. Cases from direct to indirect and the WHY of procedures and materials will be presented.

NEW DENTIST RECOMMENDED

**I HAVEN'T GOT TIME FOR THIS PAIN! LOCAL ANESTHETICS AND ANALGESICS AND THEIR CLINICAL DENTAL CONSIDERATIONS | C22**

2-5 PM | PHARMACOLOGY | CE CREDITS: 3

AUDIENCE: ASSISTANTS

| REGISTRATION CATEGORY | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|-----------------------|------------|---------|------------|
| ASSISTANT             | \$49       | \$59    | \$69       |

Management of acute odontogenic pain is accomplished through a clinical approach that successfully incorporates intraoperative local anesthesia and a postoperative regimen of non-opioid and opioid analgesics. However, improper and inappropriate use of local anesthetic agents and analgesics can potentially produce adverse outcomes. Thus, it is critical for clinicians to accurately evaluate the need for pain control, identify associated risks and assess the efficacy of the agents to be administered. This lecture will give attendees an overview of the pharmacology and therapeutics of local anesthetic agents and analgesics. Particular emphasis will be given to effective perioperative pain management and best practices for prescribing analgesics for postoperative pain control.

**WATTERSON, MS. DIANNE**

NEW DENTIST RECOMMENDED

**ADVANCED HYGIENE THERAPY: DEVELOPING A COMPREHENSIVE APPROACH | C08**

8 AM-3 PM | PERIODONTICS | CE CREDITS: 6

AUDIENCE: DENTISTS, HYGIENISTS, DENTAL STUDENTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$139      | \$149   | \$159      |
| NON-MEMBER DENTIST       | \$149      | \$159   | \$169      |
| HYGIENIST                | \$129      | \$139   | \$149      |
| DENTAL STUDENT           | \$129      | \$139   | \$149      |

To successfully treat today's periodontal patients, clinicians must customize treatment plans beyond removing plaque and calculus. Achieving excellent clinical outcomes involves assessing for systemic issues, communicating and customizing home care according to the patient's level of understanding and ability to perform home care procedures and choosing appropriate adjuncts to care. In this lecture, attendees will explore the multi-faceted treatment planning approach, including scheduling and coding, adjuncts to care and choosing appropriate home care aids. Attendees will examine liability risk and documentation and explore strategies for dealing with informed consent and refusal of definitive care. A one-hour lunch break will be provided during this lecture.

# PRACTICE ADMINISTRATOR HIGHLIGHTS

AS A PRACTICE ADMINISTRATOR, YOU SPEND MOST OF YOUR DAY WORKING WITH PATIENTS TO ENSURE THEY BEGIN AND END THEIR APPOINTMENTS HAPPY. BOOST YOUR EXPERTISE IN THE AREAS WHERE YOU SPEND MOST OF YOUR DAYS!

## Communicating with Patients

- ▲ **Laci Phillips-Newland** – Your Patients’ Expectations: Ditch the Rose-Colored Glasses (PM10)
- ▲ **Kevin Henry, MA** – Harnessing the Power of Personalities Within the Dental Practice (PM08)
- ▲ **Lilly Cortes-Pona** – Be “People Smart”: Learn to Communicate Effectively with Everyone! (PM04)
- ▲ **Debra Engelhardt-Nash** – Communication Skills for the Dental Team (PM01)

## Office Organization

- ▲ **Kay Hickey** – Get Compliance All Locked Up! (C33)
- ▲ **Leslie Pasco, DDS** – Dental Office Organization (PM09)
- ▲ **Leslie Pasco, DDS** – Five Steps to Success in Dentistry (NC15)

## Marketing the Practice

- ▲ **Laci Phillips-Newland** – Metrics and Goals – The Numbers Start the Story! (NC08)
- ▲ **Joshua Gindea, DDS** – 2024: Marketing! Marketing! Marketing! I Want More Patients and I Need to Grow My Revenue (NC07)
- ▲ **Brandon Bosch, CME** – How to Make Marketing Work for You (NC17)

## Cyber Security

- ▲ **Debi Carr** – Cyber Security Brings HIPAA Compliance (C49)

## Billing and Coding

- ▲ **Dilaine Gloege, CDA, CPC** – Get Up to Speed with CDT and ICD-10-CM (C03)
- ▲ **Dilaine Gloege, CDA, CPC** – Clean Claims the First Time (C17)
- ▲ **Robert McDermott** – How Automating Insurance Verification in Your Practice Can Change Profitability (NC05)

FDC2024 offers 30+ courses for practice administrators! Look for courses with “practice administrator” listed as the audience for all recommended courses!

**THURSDAY, JUNE 20****YEPES, DR. JUAN****NEW DENTIST RECOMMENDED****DENTAL TRAUMATOLOGY IN THE PEDIATRIC AND ADOLESCENT PATIENT: AN UPDATE | C23**

2-5 PM | PEDIATRIC | CE CREDITS: 3

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, DENTAL STUDENTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$69       | \$79    | \$89       |
| NON-MEMBER DENTIST       | \$79       | \$89    | \$99       |
| TEAM MEMBER              | \$49       | \$59    | \$69       |
| DENTAL STUDENT           | \$0        | \$0     | \$0        |

This lecture will provide the most up-to-date information regarding the fascinating and complex field of dental traumatology in children and adolescents. Dr. Yepes will use case presentations as the learning format and will cover the most common traumas in the primary and permanent dentition. Particular emphasis will be placed on diagnosis and appropriate treatment protocols according to current evidence-based dentistry in this area.

This lecture is partially sponsored by

**ZANDPARSA, DR. ROYA****NEW APPROACHES TO DENTAL IMPLANTS FROM SINGLE RESTORATION TO FULL MOUTH RECONSTRUCTION: STEPS, MATERIALS AND TECHNIQUES | C09**

8-11 AM | RESTORATIVE | CE CREDITS: 3

AUDIENCE: DENTISTS, ASSISTANTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$69       | \$79    | \$89       |

| ASSISTANT                | \$49       | \$59    | \$69       |

Clinical success can be defined as achieving a result that is aesthetic, functional and predictable. During this lecture, the art and science of implant dentistry will be introduced, emphasizing the fundamental principles and techniques required to rehabilitate function and form. This lecture aims to provide dentists with a scientifically-based rationale for all diagnostic, treatment planning and patient care decisions. This lecture allows the dental professional to investigate all potential treatment options before initiating a treatment plan and achieve exceptional outcomes by combining different treatment modalities. Participants will receive a thorough overview and an update of all the new materials, indications, limitations, laboratory considerations, various designs, fabrication techniques and treatment options, with all the possible obstacles and troubleshooting to provide a framework for a successful result every single time.

**ZANDPARSA, DR. ROYA****TRANSFORMING DENTISTRY WITH ARTIFICIAL INTELLIGENCE AND ADVANCED DENTAL TECHNOLOGIES | C24**

2-5 PM | TECHNOLOGY | CE CREDITS: 3

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, DENTAL STUDENTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$69       | \$79    | \$89       |
| NON-MEMBER DENTIST       | \$79       | \$89    | \$99       |
| TEAM MEMBER              | \$49       | \$59    | \$69       |
| DENTAL STUDENT           | \$49       | \$59    | \$69       |

Artificial Intelligence (AI) can assist dental providers with valuable information that can be used in real time and increase clinicians' ability to measure the effectiveness of different treatment modalities. Currently, the application of AI is becoming a reality and part of day-to-day human life; significant developments related to its applications in dentistry have taken place in various areas like practice management, diagnosis and treatment planning, restorative dentistry (aligner design, restoration design, automated quality control, shade matching), orthodontic tracking and much more.

Since detection and diagnosis of dental decay, periodontal disease and related treatment can be subjective, AI can fill the void of inaccuracies and potentially standardize dental treatment. As a result, diagnoses can be more accurate, and treatment planning can be more precise. This lecture will teach what every dentist should know about AI and advanced technologies in dentistry. Participants will get a basic introduction and explore how AI is already being used, its impact on dentistry, its potential and what they can do with the technology.

# COME FOR THE CE, STAY FOR THE FUN!

Cocktail Reception, Thursday, 4-6 PM

Live! at FDC Party, Thursday, 8-11 PM

Jurassic Party, Friday, 7:30-10:30 PM

COURSES & WORKSHOPS

ALPHABETICAL BY SPEAKER'S LAST NAME

SUNRISE YOGA FRIDAY | Y02  
6:30-7:15 AM | SPECIAL INTEREST | CE CREDITS: 0  
AUDIENCE: ALL ATTENDEES

| REGISTRATION CATEGORY | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|-----------------------|------------|---------|------------|
| ALL ATTENDEES         | \$15       | \$15    | \$25       |

Start your morning with a 45-minute gentle flow yoga al fresco on the Coquina lawn! Leave feeling empowered, regardless of your ability – beginners, as well as seasoned practitioners, will benefit from this class. Please bring your own towel and try to arrive 5 to 10 minutes prior to class starting. Everyone will receive a yoga mat to take home!

AMUNDSON, DR. MELISSA  
SURGERY AND TREATMENT PLANNING FOR DENTO-ALVEOLAR DEFECTS OF THE JAWS SECONDARY TO TRAUMA | C27  
9 AM-12 PM | ORAL SURGERY | CE CREDITS: 3  
AUDIENCE: DENTISTS, DENTAL STUDENTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$69       | \$79    | \$89       |
| NON-MEMBER DENTIST       | \$79       | \$89    | \$99       |
| DENTAL STUDENT           | \$0        | \$0     | \$0        |

This lecture will cover both the surgical and prosthetic restoration in maxillofacial injuries involving dentate segments of the maxilla or mandible. Some of the most challenging yet rewarding aspects of trauma reconstruction are injuries involving composite loss of teeth, alveolar bone and soft tissue. Dental defects are frequent sources of anxiety for patients, from scooter crashes to ballistic injuries. In the realm of facial reconstruction, dentition is a critical final touch that can only be provided by us dentists! The role of form and function are prescient in this patient population. Speech, mastication and cosmesis are restorative goals that allow the trauma patient a return to a sense of “normalcy.” This lecture will approach reconstructive options for the seemingly minor avulsed anterior tooth to large composite defects secondary to ballistic injuries. The use of advanced allogenic bone and tissue engineering techniques, autogenous grafts, soft tissue restoration, microvascular reconstruction, implant strategies, and immediately loaded prosthetics will be discussed. Classic staged approaches alongside modern, fully customized, virtually planned and immediately restored cases will be reviewed. Dr. Amundson offers a repeat of this lecture (C39) on Friday, June 21 from 2-5 p.m.

Dental defects are frequent sources of anxiety for patients, from scooter crashes to ballistic injuries. In the realm of facial reconstruction, dentition is a critical final touch that can only be provided by us dentists! The role of form and function are prescient in this patient population. Speech, mastication and cosmesis are restorative goals that allow the trauma patient a return to a sense of “normalcy.” This lecture will approach reconstructive options for the seemingly minor avulsed anterior tooth to large composite defects secondary to ballistic injuries. The use of advanced allogenic bone and tissue engineering techniques, autogenous grafts, soft tissue restoration, microvascular reconstruction, implant strategies, and immediately loaded prosthetics will be discussed. Classic staged approaches alongside modern, fully customized, virtually planned and immediately restored cases will be reviewed. This lecture is a repeat of Dr. Amundson’s course (C27) on Friday, June 21, from 9 a.m.-12 p.m.

This lecture is partially sponsored by

BACHMAN, MS. ANGIE  
MAKE INVENTORY EASY: A PRACTICAL LESSON IN ORGANIZATIONAL EXCELLENCE | PM06  
2-4 PM | PRACTICE MANAGEMENT | CE CREDITS: 2  
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$69       | \$79    | \$89       |
| NON-MEMBER DENTIST       | \$79       | \$89    | \$99       |
| TEAM MEMBER              | \$49       | \$59    | \$69       |

Learn what the nation’s most productive practices have discovered: a great inventory system is required for maximum performance. As practice becomes more complex, creating a smart redesign to improve office workflow and standardize supply management will rapidly boost performance by at least 20%. Offices that fully embrace these concepts often double or even triple their production. At the end of this lecture, attendees will understand that their instruments are supplies and require well-thought-out management systems and develop systems to always know what they have and where it is.

FRIDAY, JUNE 21

**BATOON, DR. DIANA****INTRODUCTION TO WORKFLOW AND BILLING FOR DENTAL SLEEP MEDICINE DEEP DIVE | DD03**

9 AM-12 PM | SLEEP DISORDERS | CE CREDITS: 3

AUDIENCE: DENTISTS, ASSISTANTS, DENTAL STUDENTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$339      | \$369   | \$389      |
| NON-MEMBER DENTIST       | \$369      | \$389   | \$409      |
| ASSISTANT                | \$339      | \$369   | \$389      |
| DENTAL STUDENT           | \$339      | \$369   | \$389      |

Dental sleep medicine can be arduous to implement and get your dental team on board. It is essentially practicing medicine under the direction of a physician. Learn how to successfully treat and manage sleep apnea with oral appliance therapy and be profitable while doing so, as well as understand coding and billing for medical reimbursement for sleep apnea and TMJ. Dr. Batoon will detail how to implement dental sleep medicine into your practice, from proper treatment planning and documentation to each team member's role in successfully treating patients. *Attendance is limited to 22.*

*The equipment for this deep dive is partially sponsored by*

**BELKNAP, DR. AUSTIN**

NEW DENTIST RECOMMENDED

**RECOGNIZING ORAL PATHOLOGIES IN THE DENTAL OFFICE | C40**

2-5 PM | ORAL PATHOLOGY | CE CREDITS: 3

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$69       | \$79    | \$89       |
| NON-MEMBER DENTIST       | \$79       | \$89    | \$99       |
| TEAM MEMBER              | \$49       | \$59    | \$69       |

This lecture will cover common mucosal and radiographic lesions experienced in daily dental practice. The lecture is intended for general dentists, hygienists, and dental assistants to enhance their clinical recognition of mucosal and radiographic lesions. This lecture will provide numerous clinical examples of lesions throughout the oral cavity with various entities ranging from benign to malignant. The goal of this lecture is to review clinical presentations and for attendees to become more comfortable recognizing these clinical oral pathologies. Each case will have a multitude of clinical intra-oral photographs and radiographs, which will conclude with how attendees can manage patients who have these pathologic lesions.

**CARDOZA, DR. ANTHONY****TWENTY-FIRST CENTURY LASER-ASSISTED DENTISTRY | C28**

9 AM-12 PM | LASER | CE CREDITS: 3

AUDIENCE: DENTISTS, DENTAL STUDENTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$69       | \$79    | \$89       |
| NON-MEMBER DENTIST       | \$79       | \$89    | \$99       |
| DENTAL STUDENT           | \$49       | \$59    | \$69       |

This lecture will contrast the daily challenges faced in the conventional delivery of various dental procedures against the solutions offered through laser-assisted dentistry. This lecture is for dentists and will cover various laser applications. These general applications include cavity preparations, soft-tissue procedures, endodontic preparation and bony procedures such as crown lengthening and tori reduction. Examples of these procedures using the diode and hard-tissue lasers will be shown.

## VIP EXPERIENCE AT FDC2024

Get VIP treatment for you and your team (up to eight people) at the keynote sessions or nightly parties – LIVE! At FDC or the Jurassic Party during FDC2024!

**KEYNOTE VIP**

(THURS. OR FRI.)

**Enhance Your Team Bonding  
at the Keynote Session!**

**INCLUDES:**

- + Reserved plush couch seating for up to 8 attendees
- + Afternoon snack and drinks (Thursday)
- + Mimosas and breakfast pastries (Friday)
- + FDC Swag Bags

**Cost: \$500 per keynote****PARTY VIP**

(LIVE! AT FDC OR THE JURASSIC PARTY)

**Make your team  
feel like the  
highlight of the party!**

**INCLUDES:**

- + Reserved plush couch seating for up to 8 attendees
- + Drink tickets at nightly party
- + FDC Swag Bags

**Cost: \$500 per event****LIMITED AVAILABILITY!**

Only 4 VIP opportunities available at each keynote and nightly events. Purchase today within your FDC registration.

## CARDOZA, DR. ANTHONY

NEW DENTIST RECOMMENDED

### TWENTY-FIRST CENTURY LASER-ASSISTED DENTISTRY WORKSHOP | W13

2-5 PM | LASER | CE CREDITS: 3

AUDIENCE: DENTISTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$299      | \$349   | \$379      |
| NON-MEMBER DENTIST       | \$349      | \$379   | \$429      |

Take your practice to a higher level by integrating new laser technology. Dr. Cardoza is a certified laser dentist who will cover laser applications, safety and physics. Participants will gain hands-on experience using lasers using on pig jaws and teeth for soft- and hard-tissue applications. *Dr. Cardoza offers a repeat of this workshop (W23) on Saturday, June 22, from 9 a.m. - 12 p.m. Attendance is limited to 24.*

*The equipment for this workshop is partially sponsored by*

## CASTRO, DR. CARLOS

### EFFICIENT DIGITAL WORKFLOWS FOR IMMEDIATE IMPLANT PLACEMENT: SIMPLE AND PREDICTABLE RESTORATIONS IN TWO VISITS | C29

9-11 AM | IMPLANTS | CE CREDITS: 2

AUDIENCE: DENTISTS, ASSISTANTS, DENTAL STUDENTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$69       | \$79    | \$89       |
| NON-MEMBER DENTIST       | \$79       | \$89    | \$99       |
| ASSISTANT                | \$49       | \$59    | \$69       |
| DENTAL STUDENT           | \$0        | \$0     | \$0        |

Posterior implant-supported restorations have become increasingly prevalent in implant dentistry. However, there is an ongoing debate regarding effective therapies to reduce bone loss around dental implants placed immediately after extraction. Digital dentistry has emerged as a promising approach for improving treatment time efficiency and promoting positive biological outcomes. This lecture aims to review the current literature on immediate implant placement and discuss the biological principles of an accelerated restorative protocol. It will also explore the impact of digitally designed and fabricated restorations on the development of healthy peri-implant tissues and provide a step-by-step protocol for immediate implant placement and restoration in just two visits.

## CASTRO, DR. CARLOS

NEW DENTIST RECOMMENDED

### THE REAL CHALLENGES OF THE RECONSTRUCTIVE PRACTICE IN A DIGITAL ERA: BACK TO THE BASICS | C41

2-4 PM | PROSTHODONTICS | CE CREDITS: 2

AUDIENCE: DENTISTS, LABORATORY TECHNICIANS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$69       | \$79    | \$89       |
| NON-MEMBER DENTIST       | \$79       | \$89    | \$99       |
| LABORATORY TECHNICIAN    | \$49       | \$59    | \$69       |

The practice of dental implant and reconstructive dentistry is often presented with challenges that question the clinician for a starting point of care. Accuracy in treatment planning and sequence is critical to ensure the success of therapy. This lecture will integrate real clinical challenges resolved with critical thinking and modern digital workflows for diagnosis and execution, providing predictable and efficient outcomes.

## CORTES-PONA, MS. LILLY

NEW DENTIST RECOMMENDED

### BE "PEOPLE SMART": LEARN TO COMMUNICATE EFFECTIVELY WITH EVERYONE! | PM04

9-11 AM | PRACTICE MANAGEMENT | CE CREDITS: 2

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, PRACTICE ADMINISTRATORS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$69       | \$79    | \$89       |
| NON-MEMBER DENTIST       | \$79       | \$89    | \$99       |
| TEAM MEMBER              | \$49       | \$59    | \$69       |

People possess a mix of four different behavior traits: dominance (control), extroversion (people), pace (patience) and conformity (systems). One of these traits will be their strongest and dictate 50-70% of their behavior. Since the strengths and natural responses of each trait are unique and very different from the other traits, it can feel like the people you work with all speak languages you do not understand even though they speak English. This is when communication breaks down, and conflict occurs in dental teams. When team members understand these four behavior styles, they can communicate, work more effectively and use each other's strengths, reducing conflict and increasing workplace productivity. The causes of team conflict and how to productively resolve it will be discussed.

REGISTER AS 'EXHIBIT HALL-ONLY' TO TAKE ADVANTAGE OF THIS OFFER. SEE PAGE 3.

**FRIDAY, JUNE 21****CORTES-PONA, MS. LILLY****THE MODERN AND PROFITABLE  
PEDIATRIC DENTAL PRACTICE | NC11**

2-4 PM | ADMINISTRATION | CE CREDITS: 0

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, PRACTICE  
ADMINISTRATORS, DENTAL STUDENTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$69       | \$79    | \$89       |
| NON-MEMBER DENTIST       | \$79       | \$89    | \$99       |
| TEAM MEMBER              | \$49       | \$59    | \$69       |
| DENTAL STUDENT           | \$49       | \$59    | \$69       |

Dentists are facing challenges in dentistry that they have never seen before. It is harder to keep employees and hire new ones. Increased corporate competition, fewer new patients, constant technological advances, limitations in insurance benefits and increased marketing needs are prevalent. This lecture will help dental providers understand their challenges and learn how to best prepare for a modern and profitable dental practice in this new generation of dentistry.

**DEMEOLA, MR. MICHAEL****THE EPIDEMIC OF DENTAL EMBEZZLEMENT:  
DIAGNOSIS, TREATMENT AND PREVENTION | NC12**

2-5 PM | FINANCIAL | CE CREDITS: 0

AUDIENCE: DENTISTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$0        | \$0     | \$49       |
| NON-MEMBER DENTIST       | \$49       | \$49    | \$59       |

Nearly 60% of dental practices are currently experiencing embezzlement. This lecture will give attendees the tools and knowledge to protect assets and identify potential fraud risks. In addition, this lecture will take attendees through a real-world dental embezzlement case from detection to prosecution.

*This lecture is fully sponsored by*

**DUNBAR, MS. SONYA****PERIODONTAL DISEASE DOES NOT DISCRIMINATE BASED ON  
AGE: A LOOK AT THE AGING MOUTH, PERIODONTAL DISEASE  
AND DEMENTIA | C30**

9-11 AM | HYGIENE | CE CREDITS: 2

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, PRACTICE  
ADMINISTRATORS, DENTAL STUDENTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |

| DENTAL STUDENT           | \$0        | \$0     | \$0        |

As dental professionals, many things can hinder success in family, life, entrepreneurship and career; however, one of the most significant barriers is how we speak to ourselves. The words you use hold immense power. The saying, "The words you speak become the house you live in," has great truth. The world mirrors yourself back to you. Using positive language about yourself and your ability to meet challenges and achieve your goals will show up for you externally. This lecture will walk attendees through changing stinking thinking and identifying where these thoughts come from. Each attendee will leave with a virtual road map to continue the work at home.

FEHL, MS. LESLIE

HONING CHAIRSIDE SKILLS TO EXCELLENCE WORKSHOP | W07

9 AM-12 PM | ASSISTING | CE CREDITS: 3  
AUDIENCE: ASSISTANTS

| REGISTRATION CATEGORY | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|-----------------------|------------|---------|------------|
| ASSISTANT             | \$279      | \$299   | \$329      |

Whether you have been a dental assistant for 30 years or 3 months, the artful skill of creating a provisional crown that is aesthetically pleasing to the patient and functional, meeting clinical expectations can be challenging and time-consuming. Dental assistants will work together to fabricate single crowns in a fun, casual atmosphere. Participants will choose to work with acrylic resins and/or bis-acryl resins. Participants will also gain knowledge of the dental anatomical form and safety precautions when using resins. Ms. Fehl offers a repeat of this workshop (W14) on Friday, June 21, from 2-5 p.m. Attendance is limited to 20.

Participant Requirements: Loupes are recommended.

NEW DENTIST RECOMMENDED

PREVENTIVE EQUIPMENT MAINTENANCE DEEP DIVE (REPEAT)  
DD-NC05

9 AM -12 PM | HYGIENE | CE CREDITS: 0  
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$129      | \$139   | \$149      |
| NON-MEMBER DENTIST       | \$139      | \$149   | \$159      |
| TEAM MEMBER              | \$129      | \$139   | \$149      |

This course will cover basic preventive maintenance and safety requirements for dental office equipment. Attendees will learn how to properly maintain air compressors, vacuum systems, autoclaves, cavitrons, prophyl

jets and handpieces, as well as how to change O-rings in leaking air/water syringes and solve many other maintenance issues that exist in every dental office.

All attendees will leave the course with a detailed manual that includes inventory forms for general equipment, operatory equipment and equipment parts. The manual also contains individual maintenance logs to track repairs and maintenance on dental equipment. At the end of the course, each participant will receive a coupon valued at \$250 toward their next Patterson TechEdge service call. Mr. Gilbert offers a repeat of this deep dive (DD-NC07) on Thursday, June 20, from 2-5 p.m. Attendance is limited to 32.

This deep dive is fully sponsored by

| DENTAL STUDENT           | \$49       | \$59    | \$69       |

Caries and erosive tooth wear are global public health problems that create pain and discomfort, impact nutritional intake, affect self-esteem and are co-morbidities for a wide range of systemic diseases and disorders. Numerous research studies demonstrate both conditions are pH-mediated. Insufficient buffering capacity also heavily impacts oral disease development. The economic burden of treating damaged tooth structure is an additional consideration. Low-cost, efficient salivary testing is easy and provides accurate data that helps explain why caries and erosion occur. Salivary testing is a tool that creates engagement, monitors subtle changes over time and tracks progress between professional appointments. With accurate data, clinicians can create custom strategies for each patient. Tools can include salivary stimulation, modifying oral pH and adding supportive minerals and nutrients. This lecture guides dental professionals into a new patient partnership and success era. *This two-part course (C32 and W15) is best attended as a full-day experience. For comprehensive learning, you must register and pay for both courses for the full-day experience. However, attendees may choose to take the lecture only.*

**GUIGNON, MS. ANNE**

**TESTING, TESTING ... ONE, TWO, THREE WORKSHOP | W15**

2-4 PM | ORAL PATHOLOGY | CE CREDITS: 2

AUDIENCE: DENTISTS, HYGIENISTS, DENTAL STUDENTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$189      | \$199   | \$209      |
| NON-MEMBER DENTIST       | \$199      | \$209   | \$219      |
| HYGIENIST                | \$189      | \$199   | \$209      |
| DENTAL STUDENT           | \$189      | \$199   | \$209      |

Do you have patients who have new decay at every visit or struggle with dental hypersensitivity or burning mouth? Do you see teeth that are visibly melting away? The struggle is real. Basic salivary testing can shed light on why patients continue to have disease. Emerging diagnostic testing can add more pieces to the puzzle. Are you ready to incorporate testing, secure more accurate diagnostic data, and gain a higher case acceptance by helping patients finally achieve health through homeostasis? *The lecture, Caries: The Ultimate Environmental Catastrophe (C32), is a prerequisite for this course. You must register and pay for both courses for a full-day experience. Attendance is limited to 30.*

In his more than 16 years serving as managing editor of Dental Economics and group editorial director for Dental Products Report, Mr. Henry has seen a lot of mistakes made by dental practices around the country. Some have caused a practice to lose team members. Some have caused a practice to lose a significant amount of money. One even cost a dentist his license. Learn how to avoid these practices' mistakes in this fast-paced, informative lecture that will have audiences thinking about how they do business. No one likes to admit they are doing something wrong. In today's competitive environment, dentists and dental team members need to know what they are doing right ... and what can be improved.

NEW DENTIST RECOMMENDED

### GET OFF THE TEAM TURNOVER WHEEL! FIND, HIRE AND RETAIN AN AMAZING TEAM | NC13

2-5 PM | SPECIAL INTEREST | CE CREDITS: 0

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, PRACTICE ADMINISTRATORS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$69       | \$79    | \$89       |
| NON-MEMBER DENTIST       | \$79       | \$89    | \$99       |
| TEAM MEMBER              | \$49       | \$59    | \$69       |

Dentists struggle to find team members to fill vacant positions, COVID-19 changed dental team members' mindsets regarding their work and what they want out of it, and dentists must adjust to this new philosophy. The team can bring value to the success of the practice. From the hiring process to everyday activities, interactions with team members (and their interactions with patients) can be the difference between an efficient business and one that customers and employees avoid. With 20 years of experience consulting with dentists and teams, Mr. Henry will share the strategies and resources for attracting remarkable team members. Learn how to rise above the competition to hire well and the steps to building a practice culture that helps to retain a perfect-fit team long-term. Together, using time-tested knowledge and success stories from other practices, let's end the days of "hiring a heartbeat" and ensure you find the right person for your business ... every time.

## HICKEY, MS. KAY

NEW DENTIST RECOMMENDED

### GET COMPLIANCE ALL LOCKED UP! | C33

9-11 AM | COMMUNICATION | CE CREDITS: 2

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, PRACTICE ADMINISTRATORS, DENTAL STUDENTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$69       | \$79    | \$89       |
| NON-MEMBER DENTIST       | \$79       | \$89    | \$99       |
| TEAM MEMBER              | \$49       | \$59    | \$69       |
| DENTAL STUDENT           | \$0        | \$0     | \$0        |

Without good clinical processes, the day can quickly detract from the dental team. Running behind schedule, leaving the room during a procedure to find a missing item and stress are just a few common occurrences practices are dealing with daily. These issues result in a poor patient experience and, when clinicians feel rushed, they may skip steps in safety and compliance. During this lecture, attendees will learn how disorganization and clutter negatively affect clinicians and patients and how good inventory management systems will improve team efficiency and create a cohesive environment. Ms. Hickey will review practices for safety, OSHA compliance and Centers for Disease Control and Prevention recommendations. She will also review products and techniques to help with infection control.

This lecture is partially sponsored by  **CareCredit**  
Making care possible...today.

## JOCKIN, DR. SARAH

### FULL ARCH SUCCESS: AVOIDING COMPLICATIONS | C43

2-5 PM | ORAL SURGERY | CE CREDITS: 3

AUDIENCE: DENTISTS, DENTAL STUDENTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$79       | \$89    | \$99       |
| NON-MEMBER DENTIST       | \$89       | \$99    | \$109      |
| DENTAL STUDENT           | \$0        | \$0     | \$0        |

You have seen the 90-minute surgery start-to-finish using stackable guides. You have heard of the perfect passive fit with photogrammetry. Now, peek behind the curtain to see what happens in a busy full arch practice! Dr. Jockin will not hold back on common complications encountered with a focus on full arch fixed implant cases. From patient selection to restorative failures, golden nuggets are hidden at every corner. Be smart and learn from her mistakes so your patients have a seamless implant experience in your practice.

## JONES, MR. GREG

## DEMEOLA, MR. MICHAEL

## KAPLAN, MR. JASON

### ARE YOU READY FOR OWNERSHIP OR RETIREMENT? START PLANNING TODAY! | NC14

2-5 PM | FINANCIAL | CE CREDITS: 0

AUDIENCE: DENTISTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$0        | \$0     | \$49       |
| NON-MEMBER DENTIST       | \$49       | \$49    | \$59       |

Thinking about practice ownership or retirement? Whether you are ready to transition now or in five years, this crash course presented by some of the top professionals in their respective fields will teach you the ABCs and 1-2-3s of what dentists need to know to confidently put together a successful practice transition plan. During this lecture, attendees will receive insight on important considerations, including market conditions and trends, legal review and buyer strategies when planning the next step in their careers. This lecture will detail the process of buying and selling dental practices. The speakers will review how to properly structure a practice to reduce tax liability, examine non-compete agreements, discuss purchasing issues, compare real estate purchases versus leases and explain dental board compliance. Attendees will have the opportunity to ask questions and surround themselves with peers facing similar realities.

**JONES, MS. JO-ANNE**

NEW DENTIST RECOMMENDED

**WNL: WITHIN NORMAL LIMITS OR A DANGEROUS ASSUMPTION? | C34**

9-11 AM | HYGIENE | CE CREDITS: 2

AUDIENCE: DENTISTS, HYGIENISTS, DENTAL STUDENTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$69       | \$79    | \$89       |
| NON-MEMBER DENTIST       | \$79       | \$89    | \$99       |
| HYGIENIST                | \$49       | \$59    | \$69       |
| DENTAL STUDENT           | \$49       | \$59    | \$69       |

The ability to save a life through earlier diagnosis is a gratification that may not be compared to anything we do in dentistry. Yet the complexities of clinical presentations do not always make this an easy task. WITHIN NORMAL LIMITS ... it is a very bold and broad sweeping statement that definitively distinguishes between health and disease and, in some cases, an outcome of life versus death. The responsibility of this statement and the onus to the patient is of grave consequence and may be a very dangerous assumption. Medical and dental litigation is swiftly changing, with malpractice insurance premiums escalating. There has been a significant rise in failure to diagnose and failure to biopsy. Through a guided visual journey of inspiring and moving oral/oropharyngeal cancer stories of survivors and those who have lost their lives, learn the subtle life-saving symptoms and critical screening techniques that will increase your opportunity to save a life by translating acquired knowledge directly to practice! This is a lecture you will never forget. *This two-part course (C34 and W16) is best attended as a full-day experience. For comprehensive learning, you must register and pay for both courses for the full-day experience. However, attendees may only take the morning lecture course (C34).*

This lecture is partially sponsored by

**PHILIPS****JONES, MS. JO-ANNE****WHAT'S IN YOUR ORAL CANCER SCREENING TOOLKIT? WORKSHOP | W16**

2-4 PM | HYGIENE | CE CREDITS: 2

Have you ever wished you could attend a course that would reinforce the nuts and bolts of the general practice of dentistry? Dr. Lou Graham and Dr. Ron Kaminer have over sixty years combined experience working in and managing large multispecialty practices. This two-day course will take you through many procedural elements of general practice, breaking down concepts into easy principles that can be incorporated immediately into your practice. The speakers will cover diagnostics and learning enhancement tools to provide a complete exam, including artificial intelligence, CBCT, restorative dentistry, practice management, lessons on lasers, and improving communication skills. A one-hour lunch break will be provided each day.

This hands-on workshop is designed to discuss and demonstrate oral surgical procedures that can be performed safely by general practitioners in the office with ease and confidence. Dr. Khan will discuss his journey in this discipline and review tips, tricks and mentorship he gained in his more than 20-year career as a wet-fingered general practitioner. Dr. Khan will use a combination of cases with photos, videos, CBCT, radiographs, history and physical exam data to demonstrate how to extract teeth, raise flaps, place implants and grafts, suture well, draw blood for platelet-rich fibrin, interpret blood tests, perform biopsies, expose teeth for orthodontics and do frenectomies. *Dr. Khan offers a repeat of this course (W17) on Friday, June 21, from 2-5 p.m. Attendance is limited to 30.*

Sleep and airway dentistry has become the latest way to increase dental practice differentiation and achieve through collaborative care patient overall wellness. Unfortunately, being a hot topic and featured more prominently at dental conferences does little for the reality of practice integration. Delve into a deeper understanding of the benefits of incorporating orofacial myofunctional therapy into the dental practice and how to navigate integration.

# THE BOOTCAMP! A TWO-DAY CRASH COURSE ON DAY- TO-DAY DENTISTRY (C35)

## GET THE NUTS & BOLTS OF GENERAL PRACTICE DENTISTRY!

Have you ever wished you could attend a course that would reinforce the nuts and bolts of the general practice of dentistry? Dr. Lou Graham and Dr. Ron Kaminer have over sixty years combined experience working in and managing large multispecialty practices. This two-day course will take you through many procedural elements of general practice, breaking down concepts into easy principles that can be incorporated immediately into your practice. The speakers will cover diagnostics and learning enhancement tools to provide a complete exam, including artificial intelligence, CBCT, restorative dentistry, practice management, lessons on lasers, and improving communication skills. A one-hour lunch break will be provided each day.

### THE BOOTCAMP! A TWO-DAY CRASH COURSE ON DAY-TO-DAY DENTISTRY (C35)

FRIDAY, JUNE 21-SATURDAY, JUNE 22 | 9 AM-5 PM, BOTH DAYS  
CE CREDITS: 14 | AUDIENCE: DENTISTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |

Analog or digital, aesthetic dentistry does not happen by mistake or luck. It takes a firm understanding and blending of shape, color, contour and aesthetic proportions. During this two-day workshop, Dr. Melkers and his technician partner, Mr. Lammott, will walk participants through the perspectives and solutions that help dentists succeed against aesthetic challenges. Participants will manage challenges in shape, color, contour and proportions in everyday dentistry and beyond. This two-day workshop is a unique opportunity to spend time understanding how a clinician and technician adapt and overcome daily challenges as a team. A one-hour lunch break will be provided each day. *Attendance is limited to 20.*

**NG, DR. JONATHAN****MASTERING DIGITAL IMPRESSION TECHNIQUES: A HANDS-ON WORKSHOP | W19**

2-5 PM | PROSTHODONTICS | CE CREDITS: 3

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, LABORATORY TECHNICIANS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |

| TEAM MEMBER              | \$349      | \$399   | \$429      |

Digital impressions can be confusing, and using them is sometimes daunting. This workshop aims to show how simple impressions are. Hands-on use of scanners for various scenarios will show attendees how to make a scan for natural teeth, implants and edentulous arches. This workshop will also explore how the digital impression is changing the way dental professionals do dentistry by reviewing workflows and scan strategies. This workshop is not only perfect for those just starting out with digital impressions. It will also be an essential learning opportunity for those already using digital impressions to learn useful tips and tricks for more efficient and predictable scans. *Dr. Ng offers a repeat of this workshop (W28) on Saturday, June 22, from 9 a.m.-12 p.m. Attendance is limited to 20.*

Do you wonder which endodontic instrument is the safest and most efficient? Do you have challenges with irrigation solutions? Are you tired of lateral condensing of accessory points? This evidence-based hands-on workshop will provide cutting-edge rotary/reciprocation instrumentation with new flexible and safe files, the location of calcified canals and MB2 and obturation of the root canal system. *This course is a repeat of Dr. Olmsted's course (W11) on Friday, June 21 from 9 a.m.-12 p.m. Attendance is limited to 30.*

Participant Requirements: Loupes

This workshop and equipment are partially sponsored by

## PARSONS, MS. CAITLIN

### ERGONOMICS AND THERAPEUTIC YOGA FOR DENTAL PROFESSIONALS – A DEEP DIVE (REPEAT) | DD04

9-11 AM | HYGIENE | CE CREDITS: 2

AUDIENCE: ASSISTANTS, HYGIENISTS

| REGISTRATION CATEGORY | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|-----------------------|------------|---------|------------|
| TEAM MEMBER           | \$129      | \$139   | \$149      |

In this deep dive course, you will learn the risk factors you face as dental professionals and the tools to relieve pain and reduce the risk of work-related injuries by prioritizing your health and mastering your ergonomics. This course will include a 30-minute chair yoga therapy session. *This course is a repeat of Ms. Parsons' deep dive (DD02) on Thursday, June 20, from 8-10 a.m. Attendance is limited to 30.*

This deep dive is partially sponsored by

### FIVE STEPS TO SUCCESS IN DENTISTRY | NC15

2-5 PM | ADMINISTRATION | CE CREDITS: 0

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, PRACTICE ADMINISTRATORS, LABORATORY TECHNICIANS, DENTAL STUDENTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$69       | \$79    | \$89       |
| NON-MEMBER DENTIST       | \$79       | \$89    | \$99       |
| TEAM MEMBER              | \$49       | \$59    | \$69       |
| DENTAL STUDENT           | \$0        | \$0     | \$0        |

This interactive lecture is all about the five steps to success in dentistry. Why are some dentists more successful and happier than others? What is the one thing dentists do that is killing new patient numbers in their practices and sabotaging productivity? How do you survive the era of big-box dentistry? To answer these questions, Dr. Pasco will discuss topics like adopting the right mindset for success, building the right team to support success, organizing and systemizing the dental practice for productivity and preparing the dentist for the future of dentistry. This lecture applies to dentists in any phase of their career.

Dental school does a great job teaching us dentistry, but what about all the things we don't learn about? Continuing education? Leadership? Running a practice, being an associate or buying into an existing practice? All of these come with challenges and their ups and downs, and we've been down many of these roads before ourselves. We know what worked for us and what issues we had (big AND small!) and provide a new – and real – insight into the world of dentistry beyond school and formal training.

Dentistry is a business, and you want to be a great business owner. Key performance indicators are the numbers used to measure business success. These key numbers tell you how you are performing and your success as a team. This lecture will examine these numbers, learn how to find them and how to interpret them. Having the ability to pull and examine these numbers is just the start of the story. You can easily identify the good and the bad numbers, but what is next? Understanding the rest of the story is key to your success. Join Ms. Phillips Newland as she examines getting the numbers, interpreting the numbers and ultimately affecting change and building success in your practice.

The American Academy of Periodontology has clarified its paradigm for dentistry's role in the oral-systemic link: removing calculus is no longer the gold standard in managing inflammation. Instead, optimal systemic health begins by implementing new, innovative and evidence-based protocols. These protocols require dental professionals to take an active role in the balance of the oral microflora, the management of inflammation and the integration of screening techniques in dental offices. This lecture offers insight into systemic health conditions related to active periodontal infections. It offers dental professionals a clear understanding of how their work can impact the overall health of patients with these conditions, both positively and negatively. Attendees will be provided with clear and actionable steps to create a more ethical, productive, mindful periodontal therapy program for the dental practice. Ms. Sanders will present this compelling, thought-provoking course on the microbiology of bodily systems as they encounter bacterial invasion from periodontium diseases in a motivating, meaningful format based on research and industry-standard protocols. The lecture will also include a brief overview of current and newly approved techniques for the management of oral inflammation, including point-of-service HbA1c testing, a discussion of the role of tethered oral tissues in systemic disease and the importance of nutrition in the management of oral inflammation.

Dentists may face greater challenges than many investors, and they are now operating in an environment of great industry and financial changes. Keeping up with the ever-evolving regulations affecting the dental industry and dental practices may take up a significant amount of time, leaving you little time to assess changing tax laws and keep up with rapidly shifting financial markets. During this lecture, attendees will learn about the special challenges dentists face as investors due to higher liability risks, complex financial situations, large student loan debt and above-average incomes.

ALPHABETICAL BY SPEAKER'S LAST NAME

## SUZUKI, DR. KEVIN

### BONE AUGMENTATION IN PREPARATION FOR DENTAL IMPLANTS: A TWO-DAY MINI-RESIDENCY | MR02

FRIDAY, JUNE 21 &amp; SATURDAY, JUNE 22 | 9 AM-5 PM, BOTH DAYS

ORAL SURGERY | CE CREDITS: 14

AUDIENCE: DENTISTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$1599     | \$1699  | \$1799     |
| NON-MEMBER DENTIST       | \$1699     | \$1799  | \$1899     |

As more practitioners train in the techniques of oral implantology, additional methods of augmentation are also needed to attain appropriate bone volume, dimension and density. This combination lecture and hands-on mini-residency will discuss and teach principles of bone augmentation rationale, sciences, medical evaluation, anatomy and techniques in handling and applying bone augmentation to prepare deficient sites for more ideal conditions to place dental implants. A one-hour lunch break will be provided each day. *Attendance is limited to 20.*

*Participant Requirements: Loupes are optional.*

*The equipment for this mini-residency is partially sponsored by*

## VIOLA, DR. THOMAS

### IT'S (MEDICALLY) COMPLICATED! ESSENTIAL PHARMACOLOGY FOR TREATING MEDICALLY COMPLEX DENTAL PATIENTS | C36

9 AM-12 PM | PHARMACOLOGY | CE CREDITS: 3

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, PRACTICE ADMINISTRATORS, DENTAL STUDENTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$69       | \$79    | \$89       |
| NON-MEMBER DENTIST       | \$79       | \$89    | \$99       |
| TEAM MEMBER              | \$49       | \$59    | \$69       |
| DENTAL STUDENT           | \$0        | \$0     | \$0        |

Dental professionals must frequently draw upon their knowledge of pharmacology for optimal care of today's medically-complex dental patients. However, armed with relatively brief exposure to such a vast subject during formal education and faced with ever-changing medication therapy guidelines, many dental professionals cannot keep up with the latest trends in disease state management. This course will provide an overview of the dental implications of prescription medications, non-prescription medications, herbal products and nutritional supplements most frequently used by patients. Particular emphasis will be given to delivering this essential information in a format that makes it practical and helpful for all dental team members.

## WIEDEMANN, DR. THOMAS

### GUIDED VERSUS ROBOTICALLY-ASSISTED IMPLANT PLACEMENT: THE FUTURE IS HAPTIC | C37

9-11 AM | TECHNOLOGY | CE CREDITS: 2

AUDIENCE: DENTISTS, DENTAL STUDENTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$69       | \$79    | \$89       |
| NON-MEMBER DENTIST       | \$79       | \$89    | \$99       |
| DENTAL STUDENT           | \$49       | \$59    | \$69       |

The use of cone beam computed tomography (CBCT) and 3D image planning software programs is becoming a mainstay of contemporary dental practice and more so in implant dentistry. These digital technologies have allowed prosthetic and surgical teams to plan complex surgeries virtually. It has enabled guided tools to assist with the surgical placement of endosteal dental implants. Besides freehand implant surgery, three types of guided implant surgeries have emerged from 3D imaging and planning technology: physical static guides, camera-based dynamic navigation, and, more recently, haptic robotic guidance. Robot-assisted dental surgery combines the advantages of both the physical constraints of static guides and the flexibility of image-based dynamic navigation. The first FDA-approved commercially available robotic system for dental implant surgery provides physical (haptic) and visual guidance to the surgeon during dental implant surgery. Robotic technology also provides a valuable aid to the dental prosthetic and surgical teams during dental implant rehabilitation. Based on the widespread use and reliability of robotic technology in other areas of medicine, robotic technology will play a significant role in the accuracy of implant rehabilitation in the future and in predoctoral and postgraduate education.

## YEPES, DR. JUAN

### DENTAL PROTOCOLS FOR MEDICALLY COMPROMISED CHILDREN | C38

9 AM-12 PM | PEDIATRIC | CE CREDITS: 3

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, DENTAL STUDENTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$69       | \$79    | \$89       |
| NON-MEMBER DENTIST       | \$79       | \$89    | \$99       |
| TEAM MEMBER              | \$49       | \$59    | \$69       |
| DENTAL STUDENT           | \$0        | \$0     | \$0        |

This lecture will provide attendees with the most up-to-date information regarding the fascinating and emerging field of oral medicine in pediatric dentistry. The lecture will use case presentations as the learning and discussion format. Dr. Yepes will cover the spectrum of the most common medical issues in children with repercussions in dental treatment. Diseases such as asthma, diabetes, congenital heart disease, autism, ADHD and several syndromes will be discussed with particular emphasis on the dental protocols for treating patients with these conditions safely.

**ZANDPARSA, DR. ROYA****RESTORATIVE DENTAL IMPLANT WORKSHOP | W12**

9 AM-12 PM | IMPLANTS | CE CREDITS: 3

AUDIENCE: DENTISTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$399      | \$449   | \$479      |
| NON-MEMBER DENTIST       | \$449      | \$499   | \$529      |

This workshop is designed for dental professionals seeking to elevate their expertise in the surgical placement of dental implants. It offers an immer-

sive experience in the art and science of implant placement and restoration, providing participants with the tools they need to confidently navigate the world of dental implants. This workshop aims to equip participants with the knowledge, techniques and confidence necessary to excel in their clinical approach, enhance patient outcomes and broaden their professional horizons. *Attendance is limited to 30.*

**ZANDPARSA, DR. ROYA****CAD/CAM TECHNOLOGY WORKSHOP | W21**

2-5 PM | TECHNOLOGY | CE CREDITS: 3

AUDIENCE: DENTISTS, ASSISTANTS, DENTAL STUDENTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$199      | \$229   | \$249      |
| NON-MEMBER DENTIST       | \$229      | \$249   | \$269      |
| ASSISTANT                | \$199      | \$229   | \$249      |
| DENTAL STUDENT           | \$199      | \$229   | \$249      |

In this CAD/CAM Technology Workshop, participants will immerse themselves in modern dentistry by exploring the latest computer-aided design and manufacturing advancements. The workshop will cover essential aspects of the digital workflow, from scanning models using intraoral scanners (IOS) to mastering digital designs through current software tools. Participants will gain hands-on experience in 3D printing, a revolutionary technology reshaping dental fabrication. Moreover, the workshop will showcase the potential of artificial intelligence in dentistry, providing a practical demonstration of its capabilities and making this workshop an indispensable learning experience for those looking to stay at the forefront of modern dental technology. *Attendance is limited to 30.*

The equipment for this workshop is partially sponsored by

## BELKNAP, DR. AUSTIN

### OLD GLORY, ORAL PATHOLOGY | C48

9 AM-12 PM | ORAL PATHOLOGY | CE CREDITS: 3

AUDIENCE: DENTISTS, DENTAL STUDENTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$69       | \$79    | \$89       |
| NON-MEMBER DENTIST       | \$79       | \$89    | \$99       |
| DENTAL STUDENT           | \$49       | \$59    | \$69       |

This patriotic lecture will cover common mucosal lesions organized based on the color of the "Old Glory" - Red, White and Blue. The lecture is intended for general dentists and hygienists to enhance the clinical recognition of these colored mucosal lesions. The lecture presents several clinical examples of common-colored mucosal lesions of the oral cavity with a variety of entities ranging from benign to malignant. During this lecture, attendees will review clinical presentations so they can become more comfortable recognizing these oral lesions. Each case will have a multitude of clinical intra-oral photographs. Each case presented will conclude with how to manage their patients with these various pathologic mucosal lesions.

## BOSCH, MR. BRANDON

### HOW TO MAKE MARKETING WORK FOR YOU | NC17

9-11 AM | SPECIAL INTEREST | CE CREDITS: 0

AUDIENCE: DENTISTS, PRACTICE ADMINISTRATORS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$0        | \$0     | \$49       |
| NON-MEMBER DENTIST       | \$49       | \$49    | \$59       |
| PRACTICE ADMINISTRATOR   | \$49       | \$49    | \$59       |

Dr. Marketing is here to make sense of the complex world of dental marketing. Most practices we meet are unaware of all the interesting ways to generate patient leads, how a lead can be tracked through a Google or Facebook campaign, or how much a marketing budget should be and what it should be spent on. This lecture will cover common marketing mistakes, rules and regulations the association sets, determining a proper marketing budget, and more. Mr. Bosch will also share strategies of what some of Dr. Marketing's top dental practices are doing across the country. The goal is to ensure dental practices are effectively marketed based on their growth goals and budget and that they meet the ethical standards of marketing a dental practice.

This lecture is fully sponsored by

## CARDOZA, DR. ANTHONY

### TWENTY-FIRST CENTURY LASER-ASSISTED DENTISTRY WORKSHOP (REPEAT) | W23

9 AM-12 PM | LASER | CE CREDITS: 3

AUDIENCE: DENTISTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$299      | \$349   | \$379      |
| NON-MEMBER DENTIST       | \$349      | \$379   | \$429      |

Take your practice to a higher level by integrating new laser technology. Dr. Cardoza is a certified laser dentist who will cover laser applications, safety and physics. Participants will gain hands-on experience using lasers using on pig jaws and teeth for soft- and hard-tissue applications. *This workshop is a repeat of Dr. Cardoza's workshop (W13) on Friday, June 21, from 2-5 p.m. Attendance is limited to 24.*

The equipment for this workshop is partially sponsored by

## CARDOZA, DR. ANTHONY

### DISPELLING THE "CSI EFFECT" MYTH - AN OVERVIEW OF CONTEMPORARY FORENSIC DENTISTRY | C61

2-5 PM | FORENSIC | CE CREDITS: 3

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, DENTAL STUDENTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$69       | \$79    | \$89       |
| NON-MEMBER DENTIST       | \$79       | \$89    | \$99       |
| TEAM MEMBER              | \$49       | \$59    | \$69       |
| DENTAL STUDENT           | \$0        | \$0     | \$0        |

Because of the current popularity of forensic fare on television, the general public is getting a skewed view of the true nature of forensic investigation. This issue is commonly known as the "CSI effect." In this course, Dr. Cardoza will dispel this myth related to forensic odontology. Topics will include forensic dental identification of decedents of varying postmortem states, including skeletal, fragmented, decomposed, burned remains and pattern injuries related to bite mark investigation, not only in human bites but also animal bites. *Note: Sensitive material will be shown during this course. Attendee discretion is advised.*

IT PAYS TO BE A MEMBER! FDA MEMBERS CAN TAKE ADVANTAGE OF FREE PRE-REGISTRATION!  
(DEADLINE: 6/7)

## SATURDAY, JUNE 22

## CARR, MS. DEBI

NEW DENTIST RECOMMENDED

## CYBER-SECURITY BRINGS HIPAA COMPLIANCE | C49

9-11 AM | TECHNOLOGY | CE CREDITS: 2

AUDIENCE: ALL ATTENDEES

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$69       | \$79    | \$89       |
| NON-MEMBER DENTIST       | \$79       | \$89    | \$99       |
| TEAM MEMBER / GUEST      | \$49       | \$59    | \$69       |
| DENTAL STUDENT           | \$0        | \$0     | \$0        |

Cyber-attacks against small healthcare entities continue to rise annually. Cyber-attacks are a real threat to private practice. There have been several amendments to HIPAA and Executive Orders that could adversely affect a practice financially, reputationally and emotionally. This lecture will provide a plan of action that attendees can implement as soon as they return to their practices.

## FORBES, MS. KATHY

## THE HYGIENE APPOINTMENT – 60 MINUTES TO DO HOW MANY PROCEDURES? | C50

9-11 AM | HYGIENE | CE CREDITS: 2

AUDIENCE: HYGIENISTS

| REGISTRATION CATEGORY | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|-----------------------|------------|---------|------------|
| HYGIENIST             | \$49       | \$59    | \$69       |

The dental hygiene appointment time is stuck at one hour while the number of procedures expected to be completed grows! Between infection control protocols, medical history and drug interaction evaluations, risk assessment protocols, selection of diagnostic codes, aging population issues (mental and physical), and more, it is amazing that any hygienist can develop an appropriate dental hygiene treatment plan and provide quality dental hygiene/periodontal therapy, which includes radiographs, periodontal chartings, patient education and more. It is up to the hygienist (in collaboration with the dentist) to provide comprehensive assessments to develop a plan for treatment and management of dental hygiene and periodontal procedures. Is there enough time? And will that treatment meet the Standard of Care? What documentation will be required? What about the diagnostic codes (ICD-10) that may impact dental claims submissions? There are many questions, and Ms. Forbes will help answer them during this course.

## FORBES, MS. KATHY

## CDT CODES – WHAT HYGIENE SCHOOL DIDN'T TEACH YOU | C62

2-4 PM | HYGIENE | CE CREDITS: 2

AUDIENCE: HYGIENISTS

| REGISTRATION CATEGORY | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|-----------------------|------------|---------|------------|
| HYGIENIST             | \$0        | \$0     | \$69       |

The dental profession is guilty of devaluing hygienists' services by using the term "cleaning" to describe their preventive/therapeutic services. So, what is the procedure completed? An accurate, evidence-based diagnosis is the best method to determine the appropriate treatment. The clinician will develop a treatment plan once this dental hygiene diagnosis is determined. This includes selecting the correct CDT procedure codes for the treatment. Too often, the procedure code selected may be inaccurate because dental software programs ONLY include the code number and title, NOT the descriptor.

As technology and treatment modalities evolve, new CDT procedure codes are developed, and the ADA's Code Maintenance amends current CDT procedure codes. This course will provide the latest nomenclature and descriptors for the evaluation codes (exams) used to determine the preventive/periodontal procedure codes (the seven "cleaning" codes). Ms. Forbes will also break down the various procedure codes for preventive products hygienists use and recommend on a daily basis (i.e., D1206, D1208, D1354, D1355 and now, D2991). What about the ICD-10 Diagnostic Codes (over 700 of them) listed in the current CDT Procedure Codes Manual? How and why do we need to know these? So many questions! **This course is free for the first 100 hygienists to register!**

## GORDON, DR. BRANDON

## WHAT'S THAT? AN IN-DEPTH ASSISTANTS GUIDE TO IMPLANT PARTS WORKSHOP | W22

8 AM-12 PM | PROSTHODONTICS | CE CREDITS: 4

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$299      | \$319   | \$339      |
| NON-MEMBER DENTIST       | \$319      | \$339   | \$359      |
| TEAM MEMBER              | \$299      | \$319   | \$339      |

This workshop is designed to help assistants and other support staff understand the various parts of implant restorations. The knowledge gained from this course can be used to facilitate better communication with patients, labs and others. This workshop will allow participants to become confident in their knowledge of implants, abutments and when to use them while assisting appropriately. Attendees will be presented with information to help them determine which treatment is the best option for their case. *Dr. Gordon offers a repeat of this workshop (W30) on Saturday, June 22 from 1-5 p.m. Attendance is limited to 20.*

Participant Requirements: Loupes, if participants have them.

The equipment for this workshop is partially sponsored by

## GOTTLIEB, DR. MARC

### IMPRESSION TECHNIQUES, CONCEPTS AND MATERIALS FOR THE DENTAL TEAM WORKSHOP | W24

9 AM-12 PM | ASSISTING | CE CREDITS: 3

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, DENTAL STUDENTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$159      | \$179   | \$199      |
| NON-MEMBER DENTIST       | \$179      | \$189   | \$209      |
| TEAM MEMBER              | \$159      | \$179   | \$199      |
| DENTAL STUDENT           | \$159      | \$179   | \$199      |

Let Dr. Gottlieb provide you with an up-to-date snapshot of where the art of dental impressions is today. This combination of lecture, demonstration and workshop is designed for everyone in the dental office, from assistants to veteran providers. During this hands-on workshop, attendees will learn how to understand the differences between the four major digital impression systems, evaluate a dental impression for accuracy and adequacy, and review the currently available impression materials. *Attendance is limited to 30.*

*The equipment for this workshop is partially sponsored by*

## GOTTLIEB, DR. MARC

### AIRWAY MANAGEMENT AND MEDICAL EMERGENCIES FOR THE DENTAL PROFESSIONAL | AM1-2

1-5 PM | STATE MANDATED | CE CREDITS: 4

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, PRACTICE ADMINISTRATORS, LABORATORY TECHNICIAN, DENTAL STUDENTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$649      | \$699   | \$719      |
| NON-MEMBER DENTIST       | \$699      | \$749   | \$769      |
| TEAM MEMBER              | \$649      | \$699   | \$719      |
| DENTAL STUDENT           | \$649      | \$699   | \$719      |

Medical Emergencies can happen anywhere: in your office, the gym or at home. As a health professional, you need to be prepared. Many of your patients live longer or medicate themselves with unexpected side effects or complications. There's no simple solution, but Dr. Gottlieb will show you how to be proactive and avoid serious complications.

Dr. Gottlieb will demonstrate, through case studies, how to manage simple problems to a full cardiac arrest. The course will review how to reverse sedative agents and utilize a variety of airway adjuncts to stabilize the patient until help arrives. You have taken CPR and other programs, and this course will pull it all together. **This course satisfies the current Florida Board of Dentistry's four-hour airway management and medical emergencies continuing education requirement to maintain a sedation permit, effective 3/1/2020. FS64B5-14.004 - For each biennium, all dentists who hold an active sedation permit of any level must complete a four-hour board-approved continuing education course in Medical Emergencies. The continuing education required by this subsection may be included in the thirty (30) hours required by Section 466.0135, F.S. (2) To be approved by the board, the Medical Emergencies continuing education course must include a three-hour hands-on airway management component. Attendance is limited to 30.**

## GUIGNON, MS. ANNE

### CAN YOU HEAR ME NOW? THE DISTURBING IMPACT OF CHRONIC NOISE POLLUTION | C51

9-10:30 AM | SPECIAL INTEREST | CE CREDITS: 1.5

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, DENTAL STUDENTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$59       | \$69    | \$79       |
| NON-MEMBER DENTIST       | \$69       | \$79    | \$89       |
| TEAM MEMBER              | \$39       | \$49    | \$59       |
| DENTAL STUDENT           | \$39       | \$49    | \$59       |

Dental health care workers are subjected to both intermittent and continuous noise. Basic hearing hygiene recommends avoiding noises that are too loud, too close or last too long — a nearly impossible set of recommendations for dental office employees. Noise-induced hearing loss (NIHL) is a very real threat, resulting in a permanent, life-altering disability. It is critical for every dental professional to understand the relative risks of developing NIHL, how NIHL develops and the symptoms of this life-altering condition.

### GAGGERS, UPTIGHT AND UPRIGHT FOLKS – STRATEGIES FOR TREATING “THOSE PATIENTS” | C63

2-4 PM | HYGIENE | CE CREDITS: 2

AUDIENCE: HYGIENISTS

| REGISTRATION CATEGORY | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|-----------------------|------------|---------|------------|
| HYGIENIST             | \$49       | \$59    | \$69       |

Do you really know how to serve an anxious patient best? What about one who resists reclining? Or a person who cannot turn their head or is confined to a wheelchair? How do you deal with a patient complaining that every tooth is sensitive? What about those gaggers? What is the best way to respond to the patient who gives you a big eye roll while you are just trying to do your job? No one ever said treating dental patients would be easy; but, if you have practiced for more than 5 minutes, you know these real-world challenges exist. Who wants to be annoyed with a patient? No one! Learn how to decrease these frustrating experiences with creative accommodations where you can provide better treatment that does not leave you feeling so depleted.

Every day, whether they are employees or patients, people with different personalities and motivations walk into their dental practice. Employees, with their different viewpoints, can either focus on their common denominators or the things that make them different. In this lecture, Mr. Henry will look at harnessing the good and bad of what makes each dental professional unique and discuss ways to turn differences into strengths within the practice. This lecture will focus on different personality types, both within the practice and your patients and how a business can be more harmonious and prosper from understanding what makes each person unique and a key part of the puzzle of success.

### DEFY GRAVITY: DON'T LET THE DEMONS OF DENTAL ASSISTING GET YOU DOWN | C64

2-5 PM | ASSISTING | CE CREDITS: 3

AUDIENCE: ASSISTANTS

| REGISTRATION CATEGORY | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|-----------------------|------------|---------|------------|
| ASSISTANT             | \$49       | \$59    | \$69       |

Every day, dental assistants face a variety of challenges in their job. How those challenges are met can affect these valuable team members' professional and personal lives. In this fast-moving and interactive lecture, dental assistants will learn how to identify the issues that can “get under their skin” and how to deal with them. Mr. Henry explores the typical dental assistant's four main job-related concerns (money, respect, teamwork and attitude) and identifies steps to embracing one's potential and leadership mindset. Additionally, dental assistants will learn why they are a key part of the dental practice's business success and what they can do not only to enhance their careers but also the bottom line of the business.

| ASSISTANT             | \$189      | \$199   | \$209      |

It is a fact that dentistry can be chaotic and stressful at times. There is an abundance of inventory to keep track of, and it is stored everywhere! The clinical workflow process is a topic that has been overlooked for far too long. Yet, having sound organizational systems is critical to achieving a healthy bottom line with a happy staff who love to come to work! Attend this workshop and learn how to calm the chaos and put the fun back into dentistry. You will learn first-hand how to create the most organized and efficient instrument and material setups to streamline processes from treatment room setup to sterilization. After a short lecture, be ready to have fun while learning with various games, contests and activities! *Attendance is limited to 40.*

The equipment for this workshop is partially sponsored by

According to the American Dental Association Health Policy Institute's 2023 report, more than 30% of dental practices are looking to hire dental assistants and hygienists. Working short-staffed has become the "new normal," and unfortunately, it will not get better anytime soon. Finding and retaining new team members is crucial to building a successful and sustainable team. This lecture will offer strategies to do just that. You need solutions to stay efficient, productive and — let's face it — sane! Dentistry can be chaotic, even with an entire team in place. Working short-staffed can impact patient care, staff morale and the overall efficiency and productivity of the practice. Sound clinical work processes are essential for safety, delivering high-quality care and maintaining the effectiveness of the office. Ms. Hickey has a colorful solution to establish a system that helps teams be safe, happy and efficient!

Full arch therapy has gone fully digital! Are you ready to jump in? Join Dr. Jockin for an engaging workshop that demonstrates, step-by-step, how to set up your case for success. Dr. Jockin and her "Full Arch Success Team" will take you on a deep dive using one of her own cases, first in theory, then demonstrate with live surgery videos followed by hands-on model surgery where participants will execute surgery using a printed replica of that patient. Dr. Jockin will cover the procedure and the prep work step-by-step: the submission process of CT and intraoral scans with photos and treatment planning with remote designers. Participants will also practice the clinical procedure step-by-step: guide installation, alveoplasty, fully guided implant placement and guided analog conversion. Dr. Jockin will also discuss alternative temporization approaches using photogrammetry and 3D-printed temporaries. Participants will execute all steps and are welcome to take the printed model home for educational purposes. From initial impression to temporization, it's all about digital workflows. Attendance is limited to 30.

## FROM “HOW?!” TO “WOW!” – MANAGING AESTHETIC CHALLENGES TWO-DAY WORKSHOP (W10)

ATTENDANCE IS LIMITED TO 20 - SIGN UP EARLY!

Analog or digital, aesthetic dentistry does not happen by mistake or luck. It takes a firm understanding and blending of shape, color, contour and aesthetic proportions. During this two-day workshop, Dr. Melkers and his technician partner, Mr. Lammott, will walk participants through the perspectives and solutions that help dentists succeed against aesthetic challenges. Participants will manage challenges in shape, color, contour and proportions in everyday dentistry and beyond. This two-day workshop is a unique opportunity to understand how clinicians and technicians adapt and overcome daily challenges as a team. A one-hour lunch break will be provided each day.

# BACK BY POPULAR DEMAND! PRF WORKSHOPS BY DR. KHAN

## KHAN, DR. WAJI

### PLATELET-RICH FIBRIN (PRF) WORKSHOP: REGENERATION OPTIONS FOR HAIR, FACIAL AESTHETICS AND SURGERY | W26

9 AM-12 PM | IMPLANTS | CE CREDITS: 3

AUDIENCE: DENTISTS, ASSISTANTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$339      | \$399   | \$429      |
| NON-MEMBER DENTIST       | \$449      | \$449   | \$469      |
| ASSISTANT                | \$339      | \$359   | \$379      |

Have you ever wondered what platelet-rich fibrin (PRF) is? The answer is a matrix concentrated of autologous platelets, leukocytes and fibrin. Gain predictable regeneration and accelerated healing for an overall increase of treatment success with Dr. Khan's course in PRF applications to various implant surgical procedures and hair and skin improvements. PRF is a second-generation platelet concentrate that can enhance soft- and hard-tissue healing. Its advantages over platelet-rich plasma include ease of preparation, ease of application, minimal expense and lack of biochemical modification (no bovine thrombin or anticoagulant is required). This considerably reduces the biochemical handling of blood as well as risks associated with the use of bovine-derived thrombin. PRF also contains physiologically available thrombin that results in the slow polymerization of fibrinogen into fibrin, which results in a physiologic architecture that is favorable to wound healing and promoting regen.

Attendees can expect to learn how to use PRF to enhance soft- and hard-tissue healing and its advantages over platelet-rich plasma. Participants will be able to learn two ways to draw blood from a patient and techniques for making sticky bone, injections, plugs and membranes. *Dr. Khan offers a repeat of this course (W32) on Saturday, June 22, from 2-5 p.m. Attendance is limited to 30.*

*Participant Requirements: Attendees must provide proof of current professional liability insurance two weeks prior to attending with the expiration date included. The Florida Dental Association (FDA) assumes no liability if an insurer refuses a participant's coverage for any reason or is unable to obtain materials for use in practice.*

NEW DENTIST RECOMMENDED

### ORTHODONTIC SPACE MANAGEMENT FOR REPLACING MISSING TEETH WITH DENTAL IMPLANTS | C53

9-11 AM | AESTHETIC | CE CREDITS: 2

AUDIENCE: DENTISTS, DENTAL STUDENTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$69       | \$79    | \$89       |
| NON-MEMBER DENTIST       | \$79       | \$89    | \$99       |
| DENTAL STUDENT           | \$0        | \$0     | \$0        |

Demand for orthodontic treatment is increasing among adult patients who often need restorative treatment to replace missing or misshapen teeth. This lecture provides a comprehensive review of the orthodontic treatment options in relation to space management for restorative treatment of missing teeth, emphasizing an interdisciplinary approach to diagnosis and treatment planning of restoring function and aesthetics.

## KHATAMI, DR. SHIVA

### CLEAR ALIGNER THERAPY: A TEAM APPROACH WORKSHOP FOR DENTISTS AND ASSISTANTS | W33

2-5 PM | ORTHODONTICS | CE CREDITS: 3

AUDIENCE: DENTISTS, ASSISTANTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$469      | \$549   | \$699      |
| NON-MEMBER DENTIST       | \$549      | \$699   | \$849      |
| ASSISTANT                | \$199      | \$229   | \$249      |

This workshop will guide doctors and their teams through different diagnosis and treatment planning options and the biomechanics of clear aligner therapy. The workshop will focus on why orthodontic tooth movement is necessary in preparation for restorative treatment, how to select proper candidates for orthodontic tooth movement with clear aligners, and how to properly diagnose and treatment plan the selected cases to achieve optimal outcomes. The hands-on portion of the course will be spent on clinical case review and hands-on activities with the doctors, while staff will have a chance to learn about scanners, scanning techniques and how to use software to communicate treatment needs. *Attendance is limited to 25.*

### MAKING A GREAT FIRST IMPRESSION! IMPROVING BOTH DIGITAL AND ANALOG TECHNIQUES WORKSHOP | W27

9 AM-12 PM | DENTAL MATERIALS | CE CREDITS: 3

AUDIENCE: DENTISTS, ASSISTANTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$189      | \$229   | \$259      |
| NON-MEMBER DENTIST       | \$229      | \$259   | \$289      |
| ASSISTANT                | \$189      | \$229   | \$259      |

Would you like to improve your confidence in obtaining a very accurate digital or analog impression the first time? Would you like to explore the current scanning technology, newest impression materials and tips and tricks for their use? This hands-on workshop will highlight specific techniques to capture a replica of your patient's mouth. Specific emphasis will target soft-tissue and hard-tissue management. *Attendance is limited to 30.*

Patients often come to your offices in search of the ideal smile and renewed dental health. Yet, you have a multitude of challenges to overcome to achieve the patient's desired goals. This lecture thoroughly explores patient examination techniques, including muscles and joints. Additionally, attendees will uncover the art and science of smile design principles, delving into the nuances of incisal edge positioning and the intricate development of anterior guidance. This lecture will assess occlusal and functional wear patterns, guiding attendees through a comprehensive analysis of wear-related issues that patients may face. Attendees will leave this lecture armed with the ability to perform comprehensive patient examinations, assess wear patterns and develop treatment plans for complex patients.

Molar incisor hypomineralization (MIH) is a clinically challenging condition affecting as many as 20-40% of children's newly-erupted permanent teeth. MIH makes the teeth often hypersensitive, difficult to numb and has poor bond strength to resin restoratives. Fortunately, the development of new materials offers promising new treatment options that are minimally invasive and well-tolerated by patients. This lecture will review emerging clinical treatments like silver diamine fluoride, atraumatic restorative treatment with glass ionomer cement and Hall Technique to manage MIH.

| DENTAL STUDENT           | \$339      | \$369   | \$389      |

There is increasing demand from parents for minimally invasive treatment options to restore dental caries in young children. An evidence-based, minimally invasive treatment option for the management of severe early childhood caries is the Hall Technique (HT). This approach is particularly advantageous for young, apprehensive patients who may otherwise require sedation for traditional surgical interventions to place stainless steel crowns (SSCs). An emerging treatment modality that expands on the HT concept of sealing off carious lesions from cariogenic biofilm is atraumatic restorative treatment (ART) using a glass hybrid restorative system and strip crown forms. This offers a non-invasive yet aesthetic treatment alternative to pre-fabricated cosmetic crowns in young children with severely decayed primary incisors. This hands-on workshop will walk participants through the step-by-step clinical placement of HT SSCs and glass ionomer cement ART strip crowns. Participants will increase their confidence and mastery of these minimal interventions, helping them expand access to care while reducing cost and risk for pediatric patients. *Attendance is limited to 30.*

*Participant Requirements: Additional stone-mounted teeth, cotton pliers, loupes and headlight are optional.*

Digital impressions can be confusing, and using them is sometimes daunting. This workshop aims to show how simple impressions are. Hands-on use of scanners for various scenarios will show attendees how to make a scan for natural teeth, implants and edentulous arches. This workshop will also explore how the digital impression is changing the way dental professionals do dentistry by reviewing workflows and scan strategies. This workshop is not only perfect for those just starting out with digital impressions. It will also be an essential learning opportunity for those already using digital impressions to learn useful tips and tricks for more efficient and predictable scans. *This workshop is a repeat of Dr. Ng's course (W19) on Friday, June 21, from 2-5 p.m. Attendance is limited to 20.*

*The equipment for this workshop is partially sponsored by*

## BONE AUGMENTATION IN PREPARATION FOR DENTAL IMPLANTS: A TWO-DAY MINI- RESIDENCY (MR02)

ATTENDANCE IS LIMITED TO 20 - SIGN UP EARLY!

As more practitioners train in the techniques of oral implantology, additional methods of augmentation are also needed to attain appropriate bone volume, dimension and density. This combination lecture and hands-on mini-residency will discuss and teach principles of bone augmentation rationale, sciences, medical evaluation, anatomy and techniques in handling and applying bone augmentation to prepare deficient sites for more ideal conditions to place dental implants. A one-hour lunch break will be provided each day. *Participant Requirements: Loupes are optional.*

*The equipment for this mini-residency is partially sponsored by*

| DENTAL STUDENT           | \$0        | \$0     | \$0        |

The biggest problem in a dental office can be a lack of organization and systems that can keep the office from being efficiently busy and productive. Lack of efficiency and productivity is the key contributor to staff problems, but when efficiency and productivity increase, the team and your patients are happier! This lecture will discuss overall organization as well as systems for hiring, training, phones, case acceptance, financial management, scheduling, dental care delivery, follow-ups and increasing referrals and online reviews. Plus, Dr. Pasco will include a special bonus plan to increase hygiene productivity! This lecture is for the dentist and dental office team at any level.

Why do some patients do what you say while others do exactly the opposite? Most dentists believe their case acceptance is fine, but the truth is, it's not — and this is a problem. What is the one thing that dentists are doing that is killing case acceptance and new patient numbers? In this easy-to-understand lecture, we'll use simple, applicable steps the dentist and their team can use to find a solution to the mystery of increasing case acceptance and helping more patients get on the road to better dental health. This lecture is interactive, and when attendees are finished, they know exactly what to do at their very next case presentation to get a YES! When your patients say YES, everybody wins. Every team member is a part of case acceptance, so this interactive lecture is for any dentist at any phase in their career as well as any team members.

Have you noticed a decline in practice production, profits and patient retention? Is team morale and communication down, and you are just as tired? Between social media, your website, online reviews and word of mouth, most potential patients have an expectation of your practice before their first visit. Is your practice living up to those expectations? Do you see new patients once but notice they are not accepting treatment and not returning to your practice? It is time to put on a different pair of glasses and see things from a new perspective, the patient's perspective. Uncover the unseen gaps in your practice that patients notice — sometimes at an unconscious level. Gain an action plan to identify the tangible and intangible details to evaluate. Attendees will leave this lecture with renewed vigor, excited to make the changes that will generate raving fans and increase production and success in your practice.

Have you ever had that patient walk in who needs a lot of dentistry but does not know where to start? Maybe you were skeptical that the multiple chips and wear on the occlusion came from "the one time they bit into their fork funny?" Or should you be concerned if the patient tells you they had TMJ, but it is all better now, and their jaw does not make noise anymore? Even when you think you know how to make the teeth look better, do you wonder, "Will these beautiful veneers be built to last?" or "Can I really use direct resins for this patient?" Decades ago, Dr. Peter Dawson defined checklists as more predictable and efficient with even the most complex dental cases. Today, his classic principles resonate even more with the synergy of new technology available. This lecture will provide both the systematic approach of complete dentistry and the digital dentistry tools to realize the same successful outcomes better, faster, and stronger than ever before. *Dr. Reingold offers a repeat of this lecture (C68) on Saturday, June 22 from 2-5 p.m.*

SANDERS, MS. KATRINA

BETWEEN THE THREADS: UNCOVERING COMPREHENSIVE IMPLANT THERAPEUTICS FOR THE DENTAL HYGIENIST WORKSHOP | W29

9 AM-12 PM | PERIODONTICS | CE CREDITS: 3

AUDIENCE: DENTISTS, HYGIENISTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$229      | \$259   | \$279      |
| NON-MEMBER DENTIST       | \$259      | \$279   | \$309      |
| HYGIENIST                | \$229      | \$259   | \$279      |

The American Academy of Implant Dentistry estimates about three million dental patients in the United States have dental implants, with a projected 500,000 implants being placed each year. In many cases, dental implants are utilized to replace decayed, diseased or periodontally involved teeth in oral conditions that are less than favorable. As research continues to unpack data around the increasing failure rate of dental implants in previously or actively diseased oral conditions, the role of the preventive dental hygienist becomes increasingly imperative.

Join periodontal hygienist, Ms. Sanders as she uncovers the modalities of complex care for dental implant patients. This comprehensive workshop looks between the threads to better understand the imperative role of dental hygienists in identifying potential dental implant candidates, evaluating systemic conditions affecting dental implant success, assessing stable and diseased peri-implant sites, diagnosing Stage IV and peri-implant diseased cases, maintaining single, multiple or all-on-four/all-on-six patient cases

and actively treating peri-implant diseased patients. Let’s establish and maintain a stable foundation of dental implant protocols while threading through research and uncovering new trends and techniques aimed to elevate comprehensive standards in the provision of dental implant care ... together. *Attendance is limited to 30.*

Injection failure not only causes unnecessary patient discomfort and apprehension, it can also frustrate providers. The causes are varied due to patient-specific considerations, varied anatomical modifications and injection techniques. As a practicing clinician for more than a decade, Ms. Sanders has never delivered an inferior alveolar nerve block, yet she consistently achieves successful mandibular anesthesia. Learn how you can, too! Now for the good news. In this interactive, engaging workshop, Ms. Sanders will guide participants through the common causes of injection failure, including anatomical and physiological conditions. Explore techniques used in private practice, including appropriate doses of anesthesia, and anatomical and armamentarium considerations. Attendees will also discover alternative injection techniques and discuss new trends in the provision of pain management. Building on a solid basis of anatomy, participants will learn how to deliver and troubleshoot local alternative injections safely and effectively. *Attendance is limited to 30.*

## SATURDAY, JUNE 22

## SHAH, DR. KIANOR

## ARTIFICIAL INTELLIGENCE AND DENTISTRY | C69

2-4 PM | TECHNOLOGY | CE CREDITS: 2

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, PRACTICE ADMINISTRATORS, LABORATORY TECHNICIANS, DENTAL STUDENTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$69       | \$79    | \$89       |
| NON-MEMBER DENTIST       | \$79       | \$89    | \$99       |

Throughout this lecture, attendees will gain practical insights into how artificial intelligence (AI) is enhancing diagnostic accuracy, treatment planning, patient engagement and the overall patient experience in dentistry. Whether a practicing dentist, dental student or simply interested in the intersection of technology and oral healthcare, this course will equip you with the knowledge and understanding needed to embrace the AI revolution in dentistry and provide the best care possible to your patients.

## SHAH, DR. SARA

## HORMONAL HARMONY: EXPLORING THE HIDDEN LINKS BETWEEN HEALTH, HORMONES AND YOUR SMILE | C59

9 AM-12 PM | ORAL MEDICINE | CE CREDITS: 3

AUDIENCE: DENTISTS, DENTAL STUDENTS

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$69       | \$79    | \$89       |
| NON-MEMBER DENTIST       | \$79       | \$89    | \$99       |
| DENTAL STUDENT           | \$49       | \$59    | \$69       |

This lecture will provide comprehensive exploration into the intricate interconnections between hormonal fluctuations during pregnancy, menopause, and conditions like osteoporosis, and their profound effects on periodontal health. Through detailed discussions and evidence based insights, participants will uncover the nuanced influences of these hormonal shifts on oral tissues, enabling dental professionals to recognize, manage, and tailor treatments for periodontal issues commonly associated with these stages. This lecture is designed to equip dentists with invaluable knowledge, empowering them to provide specialized care, effectively address oral health challenges linked to women's hormonal changes, and optimize dental outcomes for their patients.

## SHAH, DR. SARA

## BALANCING ACTS: HORMONES AND SYSTEMIC IMPACT ON PERIODONTAL HEALTH | C70

2-5 PM | ORAL MEDICINE | CE CREDITS: 3

AUDIENCE: ALL ATTENDEES

| REGISTRATION CATEGORY    | EARLY 4/12 | REGULAR | ONSITE 6/7 |
|--------------------------|------------|---------|------------|
| DENTIST - FDA/ADA MEMBER | \$69       | \$79    | \$89       |
| NON-MEMBER DENTIST       | \$79       | \$89    | \$99       |
| TEAM MEMBER / GUEST      | \$49       | \$59    | \$69       |
| DENTAL STUDENT           | \$49       | \$59    | \$69       |

This lecture will provide an in-depth look at women's unique oral health considerations throughout their lives, recognition of these conditions and management to address patients' concerns. Attendees will learn about the hormonal changes that women experience and their effects on oral health, including pregnancy and menopause. The course will also cover the impact of osteoporosis on oral health. Additionally, the lecture will explore preventive measures to maintain good oral health and periodontal and restorative dentistry options for common conditions in women. The course will conclude with a Q&A session, where attendees can ask questions and share experiences related to women's oral health. By the end of the course, attendees will have a deeper understanding of the unique oral health considerations women experience throughout their lives and the available management options for each phase.

# Are You Ready for Ownership or Retirement? Start Planning Today.

Course Code: NC14

## Event Information

### Orlando, FL @ FDC

Gaylord Palms Resort  
6000 W. Osceola Pkwy,  
Kissimmee, FL, 34746

Friday, June 21st, 2024  
2:00 p.m. to 5:00 p.m.

At the Florida Dental  
Convention. Conference  
room TBD.

We cordially invite you to attend this immersive seminar about planning for your future. Learn from industry experts to successfully navigate selling or buying a practice.

## Topics of Discussion

- What is a dental practice worth and what determines value
- How to prepare for a future practice transition
- Current market conditions & trends
- How to finance your practice with no money down
- What costs are involved in an acquisition
- Legal review: LOI, lease, asset purchase agreement and more
- Should I sell my practice to a DSO (Corporate Dentistry)
- What does a buyer consider when purchasing? What does a seller consider when selling?
- Pitfalls of the legal process
- How to prepare your business financials and documentation
- Taxes, allocation, and how to minimize costs
- And much more...

## Featured Speakers

Greg Jones, Dental Practice Broker  
Doctor's Choice

Jason Kaplan, Esq.  
Palm Beach Law Group

Michael DeMeola, CPA, CVA, CFE  
DeMeola Temple CPA Group

## How to Attend

This seminar is being conducted through the Florida Dental Association (FDA) therefore you must register through the FDA. Look for course code "NC14".

We look forward to sharing our knowledge. See you there!

# ATTENDEE BASICS

## LOCATION

FDC2024 will be held at the Gaylord Palms Resort & Convention Center located at 6000 W. Osceola Parkway, Kissimmee, FL 34746.

## HOTEL RESERVATIONS

Visit [hotel.floridadentalconvention.com](https://hotel.floridadentalconvention.com) to make your reservation online at either hotel. **FDC does not use a third party for hotel reservations.**

### GAYLORD PALMS RESORT & CONVENTION CENTER

- Room Rate: \$215 per night, including free self-parking
- Reservations: Call 877.491.0442 to make your reservation within the room block

### FAIRFIELD INN & SUITES

- Room Rate: \$129 per night, including free self-parking and breakfast
- Reservations: Call 407.390.1532 to make your reservation within the room block
- Shuttle service to Gaylord Palms is not provided

## FREE REMOTE PARKING & SHUTTLE SERVICE

Free remote parking is the most convenient option for FDC attendees not staying at Gaylord Palms. Free shuttle service is provided at Wide World of Sports just minutes from Gaylord Palms. Shuttle services will run every 15-30 minutes beginning on Thursday, June 20 at 7 AM and continuing through Saturday, June 22 at 6 PM. Directions to off-site parking and the detailed shuttle schedule will be available one month prior to FDC at [floridadentalconvention.com](https://floridadentalconvention.com).

*Note: Allow ample time (at least one hour prior to course start) for parking and shuttle service. Refunds will not be given for courses missed due to parking or shuttle delays.*

If you are not a hotel guest, there is a \$35 self-parking or \$47 valet daily charge at Gaylord Palms. **Gaylord Palms parking is extremely limited for drive-in attendees and remote parking is recommended.**

## BADGE PRINTING & MATERIALS

Badges are issued based on the registration category specified and are required for entry into all courses, events and the Exhibit Hall. **Badges will not be mailed** — attendees will receive a barcoded email one week prior to the meeting. Bring this email (electronic or hardcopy) with you on-site to print your badge.

## NON-SMOKING/NON-VAPING MEETING

In keeping with good health practices, FDC has been officially designated a non-smoking and non-vaping meeting.

## EMOTIONAL SUPPORT ANIMALS

If you require an emotional support animal (ESA), please contact FDC by Monday, June 17 at 800.877.9922. Under the Americans with Disabilities Act, ESAs are not given the same rights and exemptions as service animals and approval of ESAs in public areas and businesses are at the discretion of those entities. If prior approval is not given by FDC, attendees will be asked to remove the ESA from the event.

# REGISTRATION INFORMATION

## PREREGISTRATION

Advance preregistration saves time and money. All courses, including workshops, will be registered à la carte. **To receive the Early Bird rate, registrations must be paid online or submitted by mail and postmarked by April 12, 2024. To receive the Regular rate, registrations must be paid online or submitted by mail and postmarked by June 7, 2024.** Registration forms submitted via mail postmarked after the June 7 deadline will not be processed. All registration activity after this deadline will be subject to on-site pricing and must be completed online or at the on-site registration desk at Gaylord Palms. All fees for on-site registration increase by at least \$20 per registrant and by at least \$10 per course.

## HOW TO REGISTER

Register online at [floridadentalconvention.com](https://floridadentalconvention.com), by using the QR code, or complete the Advance Registration Form and mail to:

Florida Dental Convention  
Attn: FDC Meeting Assistant  
545 John Knox Road, Ste. 200  
Tallahassee, FL 32303

Please only use one method of transmission to avoid duplicate records or multiple charges. Telephone and fax registration is not available.

You may adjust your registration online at any time at [floridadentalconvention.com](https://floridadentalconvention.com) or by calling the FDC customer service line, 850.807.4997, Monday-Friday, 8 AM-5 PM. However, on-site pricing for all online and in-person adjustments will apply after June 7. See page 77 for the cancellation policy.

## FEE PAYMENT

All fees must be made in U.S. dollars by Visa, MasterCard, Discover, American Express or by personal check drawn on a U.S. bank and made **payable to the Florida Dental Association**. Although we try to assure accuracy, FDC cannot be responsible for any typographical fee errors in our printed registration brochure or on our website.

## CHILD REGISTRATION

Children ages 8 to 18 who want to attend Live at FDC, Jurassic Party or the Exhibit Hall must be registered and have a badge for entry. Children younger than 8 years of age do not need a badge but must be accompanied by a registered parent or guardian to attend evening social events. Children are only allowed in the Exhibit Hall if accompanied by a registered parent or guardian. **Infant strollers and carriages are not allowed in the Exhibit Hall, unless medically necessary, at any time other than the designated stroller hours of 9-11 AM on Saturday, June 22.** For the safety and convenience of others, the use of baby carriers is strongly encouraged.

## GUEST REGISTRATION

Non-dental spouses and family older than 18 must register as a Guest. Attendees registered as "Guest" may attend registered keynote sessions and courses, the Exhibit Hall, and registered events such as Live at FDC and the Jurassic Party. Registered guests are unable to receive CE credit for any courses attended. Guests who want CE credit should register as their appropriate professional category.

## FREE EXHIBIT HALL PASSES

Free Exhibit Hall Only registrations are available for non-FDA member dentists, team members and their guests. Access to the Exhibit Hall is included in the free FDA member preregistration. This registration category allows attendees to only access the Exhibit Hall. Exhibit Hall Only registrants may not take courses or attend any events such as Live at FDC and the Jurassic Party. To upgrade your registration, call 850.807.4997 before June 7, or go to the FDC Registration Desk On-site.

## WORKSHOPS

Registrants may be required to bring instruments or other materials to workshops or to attend a mandatory prerequisite lecture. In addition, it is the responsibility of each registrant to check the course description carefully for equipment needs, participant requirements or prerequisites. Room capacity for workshops is limited and attendees are registered on a first-come, first-paid basis. Seats cannot be held without payment.

*Disclaimer: For those attending workshops, please be aware of the potential risks associated with using new techniques and procedures without having fully attained a competency level to practice them.*

## COURSE WAITING LISTS

If a course becomes full, registrants may be placed on a waiting list. Those registering online can select to be added to a course waiting list during the registration process. Those registering via mail will be contacted by an FDC representative to be added to the wait list. If space opens in the course before June 7, the registrant will be placed in the course and the credit card on file will be charged. If the registrant does not wish to take the course, contact FDA staff and a refund will be processed and the seat will be released to the next attendee on the waiting list.

# REGISTRATION, COURSE CANCELLATIONS AND TRANSFERS

## COURSE CANCELLATIONS AND TRANSFERS

A **CANCELLATION** refers to any termination of a course, workshop, event or complete registration for FDC. A **TRANSFER** refers to the movement of an individual out of one course, workshop or event and into another course, workshop or event.

## CANCELLATIONS & REFUNDS

All cancellations and/or requests for refunds must be made in writing and postmarked by June 7, 2024. All complete registration cancellations are subject to a service and handling fee of \$30 per cancelled registrant. Refunds are paid to the individual whose name appears at the top of the check or on the credit card used to pay for the registration. Please allow up to six weeks after the meeting for refunds to be processed. **No cancellation refunds for courses, workshops, events or complete registrations will be honored for any reason after the June 7, 2024 deadline.** Refunds will not be given for no-shows, employee terminations, or sickness/COVID-19 after the June 7 deadline.

**Registration fees for Dentist/ADA Member include dual membership to the Florida Dental Association and are non-refundable.**

## ON-SITE TRANSFERS

On-site transfers will not be allowed for any limited seating sessions (such as workshops and deep-dive courses). On-site transfers will be allowed for lecture courses if space permits. If an individual wishes to transfer from one session into another on-site, that individual must pay for the difference in cost of the new session. Please see a registration agent on-site to inquire about course transfers. **No refunds will be given for on-site transfers regardless of difference in course tuition.**

## REGISTRATION DEADLINES

**EARLY: March 1-April 12**

**REGULAR: April 13-June 7**

**CANCELLATIONS: June 7**

**ON-SITE: June 8-June 22**

## QUESTIONS?

For questions regarding the Florida Dental Convention, please contact the FDA at 800.877.9922 or [fdc@floridadental.org](mailto:fdc@floridadental.org).

# CE INFORMATION

## CONTINUING EDUCATION (CE)

CE verification is automatically provided for all attendees. To receive CE credit for course attendance, attendees must scan their badge upon entering and exiting each course. The system will calculate the amount of time an attendee was present and award the credit appropriately. Per the Florida Board of Dentistry (BOD), to receive 1 hour of CE credit, attendees must be present in a course a minimum of 50 of the 60 minutes.

**Attendees will be emailed their CE certificate automatically by June 24, 2024.** Attendees also can obtain a printed CE certificate at any time after the end of their courses. CE stations are located on the classroom level Thursday through Saturday, 7 AM-5:30 PM. CE certificates can be accessed online for free after the convention at [floridadentalconvention.com](http://floridadentalconvention.com).

**All verified course attendance will be automatically submitted for Florida-licensed attendees to CE Broker on their behalf no later than July 22, 2024.** Your CE certificate will list all registered verified courses attended; however, credit will not be reported to CE Broker for non-credit (NC) course codes. Verified course attendance for NC courses will be listed as zero hours on your CE certificate. Each state varies in what is accepted for continuing education and those courses can be self-reported to your reporting entity after the event, should your organizing BOD accept those courses.

## CE REQUIREMENTS

Florida dentists are required to complete a minimum of 30 credit hours of approved continuing education in dental-related subjects each biennium. Attendees can earn up to 20 credit hours at FDC.

The Florida BOD accepts up to 3 hours of credit biennially for practice-management courses that address: principles of ethical practice management, substance abuse, effective communication with patients, time-management and burnout-prevention instruction. Dentists who have questions about whether the Florida BOD will accept a particular course should visit its website ([floridadentistry.gov/licensing/dentist](http://floridadentistry.gov/licensing/dentist)) or call 850.245.4474.

## ADA CERP

The Florida Dental Association (FDA) is approved as a continuing education provider by the Florida BOD. The FDA also is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

Concerns or complaints about a CE provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at [ccepr.ada.org](http://ccepr.ada.org).

**ADA CERP®** | Continuing Education Recognition Program

## COURSE CODE KEY

|           |  |
|-----------|--|
| <b>C</b>  | Clinical Course, CE approved by Florida BOD            |
| <b>PM</b> | Practice Management Course, CE approved by Florida BOD |
| <b>W</b>  | Hands-on Workshop, CE approved by Florida BOD          |
| <b>MR</b> | Hands-on Mini-residency, CE approved by Florida BOD    |
| <b>DD</b> | Deep Dive Course, CE approved by Florida BOD           |
| <b>NC</b> | Non-credit Course, Not CE approved by Florida BOD      |

# DISCLAIMERS/POLICIES

## VIDEO RECORDING/PHOTOGRAPHY DISCLAIMER

Video recording and photography is strictly prohibited in all scientific sessions unless otherwise stated by the speaker. Course audio recordings are available to purchase onsite for \$20 each, if you wish to view course content at a later date.

## COURSE SATISFACTION DISCLAIMER

Should you choose to register for a course knowing you are outside of the recommended audience, refunds will not be issued if you are dissatisfied with the course.

## SCIENTIFIC PROGRAM DISCLAIMER

The FDA and the Committee on Conventions and Continuing Education make every effort to present high-caliber speakers in their respective areas of expertise. The speakers' in no way imply endorsement of any product, technique or service presented during these presentations. The FDA specifically disclaims responsibility for any material presented. In addition, participants must always be aware of the hazards of using limited knowledge in integrating new techniques or procedures into their practice. Only sound evidence-based dentistry should be used in patient therapy.

## PHOTO RELEASE POLICY

By registering for FDC2024, you are authorizing the FDA the right to photograph you, your invitees and guests while attending courses or using common or public areas of the hotel, and to use the photographs in all formats and media for any purpose, including for education, marketing and trade purposes. By registering, you release FDA from all claims arising out of the use of the photographs, including without limitation all claims for compensation, libel, invasion of privacy or violation of copyright ownership.

## EMAIL LIST POLICY

By registering for FDC2024, you authorize the FDA to add you to its email marketing list to receive convention updates for 2024 and subsequent years. You can opt out at any time but will not receive pertinent information regarding your registration.

# 2024 FLORIDA DENTAL CONVENTION

**PRE-REGISTRATION DEADLINE** for mail registration is Friday, June 7, 2024. (Mailed registrations postmarked after this date will not be processed).
