

LASER AND PRECIOUS ALLOY INFORMATION

FDC2024 exhibitors demonstrating lasers must provide a description of each piece of laser equipment and its safety features along with the below information to the Deirdre Rhodes, FDC Exhibits Coordinator, at drhodes@floridadental.org by May 20, 2024. If you have any questions, please contact Deirdre Rhodes at 850.350.7108

Please check the appropriate box that pertains to your company's booth product and/or booth activities. By checking the box and completing this form you agree to the terms and conditions stated below as well as those stated in the FDC2024 Exhibitor Prospectus.

Laser Exhibiting Company

The Florida Dental Convention is concerned that exhibitors showing lasers comply with recommended safety precautions. Therefore, the Florida Dental Convention has established the following procedures for laser demonstrations.

- Lasers must be operated only within a suitable enclosed space with eye protection for those viewing and operating the laser.
- All demonstrations of CO2 lasers must be conducted in clear plastic boxes with top and sides enclosed.
- Appropriately colored plastic cubicles must be available for other types of lasers being demonstrated.
- No laser equipment may be left unattended in operable condition.
- An exhibitor may not promote or demonstrate use of laser instruments by dental auxiliaries.

Laser Description: _____

Precious Alloy – Gold Exhibiting Companies

Exhibitors who sell dental gold as gold coins and gold used in decorative items such as jewelry and objects of art are required to submit a signed affidavit agreeing to invoice dental gold as such and separately from gold coins, gold jewelry, gold objects of art and gold used in or for coins. Please submit an affidavit with this complete form.
