Orofacial Myology and the Connection to Dentistry

Presented by Laura Powell, MS, CCC-SLP, COM – Therapy Unlimited (1.5 CE Credits)

Course Objectives:

- Develop an understanding of underlying causes and presentation (identification) of orofacial myofunctional disorders
- Develop an understanding of the implications of orofacial myofunctional disorders on dentistry
- Develop an understanding of an appropriate course of treatment for orofacial myofunctional disorders

About the Speaker: Laura is the owner and founder of Therapy Unlimited, a private practice in mid-Missouri offering speech therapy, occupational therapy, reading intervention and more. Therapy Unlimited was started in 2014. Laura is grateful to work alongside a group of hard-working, loving and family-centered therapists/interventionists.

Since 2007, Laura has dedicated her clinical skills to the treatment of orofacial myofunctional, articulation and voice disorders in patients of all ages. Her professional successes have granted her the opportunity to present at various events sponsored by dental associations, including the Columbia Dental Society, the Missouri Academy of Pediatric Dentistry and the Dental Hygiene Study Club. She has also presented at the Missouri Speech-Language-Hearing Association Convention and Voice Symposiums.

Laura is a graduate of Fontbonne University, where she earned a Master of Science in Communication Disorders. Since then, she's put her passion and specialized skill set to work in private practices, outpatient clinics, otolaryngology clinics, early childhood intervention sites and public schools. Currently, Laura is a member of the American Speech-Language-Hearing Association (ASHA), the International Association of Orofacial Myology (IAOM), and the Missouri Speech-Language Hearing Association (MSHA).

The only certified orofacial myologist in the mid-Missouri area and a founding member of the Missouri State Orofacial Myology Association (MOSOMA), Laura has performed the diagnosis and treatment of orofacial myofunctional disorders, pediatric feeding aversion, noxious oral habits, apraxia, receptive language disorders, expressive language disorders, articulation disorders, pragmatic language disorders, cognitive-communication deficits, aphasia and voice disorders (including paradoxical vocal cord movement disorder). Laura teaches Voice Disorders at the University of Missouri as an adjunct instructor.

Hidden Liability Exposures in the Dental Office

Presented by Jerri Wildhaber, CISR & Lindsey Kutscher, CISR – MDIS (1.5 CE Credits)

Exposing the everyday liability exposures your dental practice faces, with real claim examples from dental practices and how your insurance can protect you from these exposures.

Course Objectives:

- Identify the liability exposures from your patients, your staff, or others
- Determine when you need to put the proper insurance in place to protect your practice
- What to do in the event of a potential claim or an actual loss

About the Speakers: Coming from Missouri Dental Insurance Services (MDIS), Jerri, Operations Director and Lindsey, Practice Insurance Manager have worked with dentists for a combined total of 45 years. They have been helping dentists protect their practice, assess their risk and liability exposures and providing them with insurance solutions for their individual practice needs. MDIS is a wholly owned subsidiary of the Missouri Dental Association and is dedicated to supporting the membership through quality insurance programs.
