# FALL MEETING

GOLF OUTING, CE & BUSINESS MEETING

October 7-8, 2021

[SEMODENTAL.ORG](http://SEMODENTAL.ORG)

## THURSDAY, OCTOBER 7

### Golf Outing & Business Meeting

#### KIMBELAND COUNTRY CLUB

2175 E Jackson Blvd, Jackson, MO 63755 | 573-243-3923

- 7:15am: Breakfast & Check-In
- 8am: Shotgun Start: 18-Hole Scramble Golf Tournament
- 1pm: Lunch & Business Meeting

### Continuing Education

#### DRURY PLAZA HOTEL CONFERENCE CENTER

3351 Percy Dr, Cape Girardeau, MO 63701 | 573-334-7151

- 8am: Registration & Continental Breakfast
- 9am-Noon: Richard J. Vargo, DMD, DABOMP, FAAOM  
"It Hurts When I Eat Spicy Foods!" (3 CE)

**NOTE: LUNCH ON YOUR OWN, NO  
AFTERNOON CE**

### Officer Installation & Dinner

#### DRURY PLAZA HOTEL CONFERENCE CENTER

3351 Percy Dr, Cape Girardeau, MO 63701 | 573-334-7151

- 5:30pm: Happy Hour
- 6:30pm: Dinner & Officer Installation

## FRIDAY, OCTOBER 8

### Continuing Education

#### DRURY PLAZA HOTEL CONFERENCE CENTER

3351 Percy Dr, Cape Girardeau, MO 63701 | 573-334-7151

- 8am: Registration & Continental Breakfast
- 9am-Noon: Lou Graham, DDS  
"Diagnostically Driven Dentistry: The Business of Dentistry  
& How it All Fits Together" (3 CE)
- 9am-Noon: Robert Lowe, DDS  
"Clinical Treatment Planning and Problem Solving-When It  
Doesn't Go By the Book" (3 CE)
- 1pm-4pm: Lou Graham, DDS  
"Geriatric Dentistry: The Fastest Growing Demographic in  
Dentistry" (3 CE)
- 1pm-4pm: Robert Lowe, DDS  
"The Aesthetics of Occlusion: Back to the Future!" (3 CE)

The Southeast Dental Society is an ADA CERP recognized provider approved by the MDA. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. The Southeast Dental Society designates this activity for 9 continuing education credit.

**ADA CERP®**  
Continuing Education  
Recognition Program

## FAVORITE TV SHOW CHARACTER

The theme for dinner is Favorite TV show/character. Dress up in your best character attire for a chance to win. Prizes for 1st, 2nd & 3rd place. Door prizes will be awarded.

## **Richard J. Vargo, DMD, DABOMP, FAAOM**

is Assistant Professor and Director of Oral and Maxillofacial Pathology at A.T. Still University – Missouri School of Dentistry & Oral Health, St. Louis. He is an oral and maxillofacial pathologist with the SLUCare Physician Group at SSM Health Saint Louis University Hospital, an adjunct assistant professor in the Department of Otolaryngology-Head

and Neck Surgery at Saint Louis University School of Medicine and serves on the expert panel of the Missouri Telehealth Network's Oral Health ECHO. While at ATSU-MOSDOH, he has received the Outstanding Faculty Award (Class of 2020) and Outstanding Teaching Award (Class of 2022). He earned his dental degree from the University of Pittsburgh School of Dental Medicine in 2015 and completed a residency in Oral and Maxillofacial Pathology at the University of Pittsburgh Medical Center. He is a Fellow of the American Academy of Oral and Maxillofacial Pathology and the American Academy of Oral Medicine. He has authored and co-authored numerous publications in peer-reviewed journals and has presented his work both nationally and internationally.

### **IT HURTS WHEN I EAT SPICY FOODS! (3 CE)**

A potpourri of oral pathology cases will be reviewed from patients who presented with the chief complaint of "it hurts when I eat spicy foods".

#### **OBJECTIVES:**

- Recognize the chief complaint of "it hurts when I eat spicy foods."
- Discuss differences between lichen planus and lichenoid mucositis.
- Discuss causes of lichenoid mucositis.
- Define desquamative gingivitis.
- Discuss basic therapies for oral mucosal diseases.
- Recognize the oral manifestations of certain infectious diseases.
- Discuss burning mouth syndrome.

**Lou Graham, DDS** is an internationally recognized lecturer extensively involved in continuing education for dental professionals. His lectures focus on incorporating current clinical advancements through "conservative dentistry." He emphasizes the same concepts he practices: dental health diagnosis, treatment plans for medically compromised patients, conservative treatment, cosmetic dentistry,

customized approaches to periodontal care, implants and laser dentistry. Dr. Graham is the founder of the Catapult Education, a continuing education company whose philosophy and programs use contemporary, interactive formats to integrate time-proven conservative dentistry with 21st century materials and techniques. He is a published author in many leading national and international dental journals. He enjoys providing care at his Chicago-based multi-specialty private practice group, University Dental Professionals.

### **DIAGNOSTICALLY DRIVEN DENTISTRY: THE BUSINESS OF DENTISTRY & HOW IT ALL FITS TOGETHER (3CE)**

In dentistry, superior diagnostics relates to creating more efficient methodologies to result in better decision making, higher quality of care and long-term success. Ultimately these diagnostics can lower the costs to the patient by creating far more customized approaches to their dental care and equally create the ideal treatment plans for longevity. This course will take the attendee into modern-day general dentistry and demonstrate why the GP must be in control in how they integrate treatments with their specialists. Throughout the day, the business of dentistry will be presented, integrating the latest in software technologies and "actionable analytics" to demonstrate clear pathways in creating office/hygiene growth. This is a great team course and is designed with common sense approaches to drive your office forward.

#### **OBJECTIVES:**

- Creating the ideal initial exam, customized per patient and how it intertwines with your in office dental plan.
- How transillumination, fluorescence, digital imaging and CBCT technology truly supplement your explorers and 2D x-rays.
- Today's recall exam, why it becomes the health of your practice.
- New protocols that truly challenge traditional dentistry.
- Today's initial exam and why CBCT imaging will be replacing the FMX, and it will!
- Truly personalizing your communications, why it's not an option!
- The latest in clinical treatments: refractory periodontal disease, selective caries removal, digital scanning, and a novel approach to implant restorative single units.
- Why KPIs are becoming essential to your practice and which analytics are the keys to growth.

### **GERIATRIC DENTISTRY: THE FASTEST GROWING DEMOGRAPHIC IN DENTISTRY (3CE)**

With patients entering their eighth and ninth decades of life and even more, our role as health care providers continues to face new challenges in treating this population. As these patients walk into our offices, they present challenges that are often unique and require customized approaches to care.

## OBJECTIVES:

- Prevention is for all ages and doesn't stop here!
- Why this patient population loves our in-office prevention plan.
- Customizing your approaches for plaque, xerostomia and so much more.
- Reparative dentistry: when, where and why and what materials are best to utilize.
- Customized periodontal protocols that go beyond brushing and flossing.
- Advanced restoratives technique for: post and cores, deep class 2s, 'elevating the margin' technique, perio-splinting, choosing the right cement.

**Robert Lowe, DDS** is an internationally known lecturer whose focus is on today's latest dental materials. He received his dental degree from Loyola University in 1982, has maintained a full-time practice for 30 years and is a world-renowned teacher and clinician. He taught for 10 years at Loyola University School of Dentistry and has received Fellowships in the AGD, ICD, ADI and ACD. In

2004, Dr. Lowe received the Gordon Christensen Outstanding Lecturer Award and in 2005, Diplomate status on the American Board of Aesthetic Dentistry. He has authored numerous scientific articles and contributed to dental textbooks. He is a consultant for several dental manufacturers and a member and clinical evaluator for Catapult Education, the dental industry's premier speaker's bureau.

## CLINICAL TREATMENT PLANNING AND PROBLEM SOLVING-WHEN IT DOESN'T GO BY THE BOOK (3CE)

Don't miss this technique-oriented seminar that is geared toward delivering useful clinical information that can be implemented in practice immediately creating a positive impact on the bottom line!

## OBJECTIVES:

- Which dental material for which clinical situation: How does margin position influence or dictate material selection?
- Multidisciplinary treatment planning: The periodontal restorative connection and the importance of a solid foundation.
- Treatment options for complex restorative and aesthetic cases: Do you have a Plan B? Can you think outside the box as to possible solutions, or are you a textbook treatment planner only?
- Laboratory communication: Are you giving the lab what they need to do their best work?

- Digital impressions: Are they any better than conventional materials?
- Creative clinical solutions for restorative problems that save you chair time, the patient money, and achieve an excellent postoperative result.
- No-prep veneers: Manufacturer hype or realistic clinical option? How new dental materials can make this a more realistic approach or some cases.
- Instant Orthodontics: Viable treatment option or quick fix cop-out revisited ... prosthetic tooth repositioning for aesthetics and function limitations and long-term results.
- Perio-by-the-numbers: Laser assisted gingival and bony procedures that can correct gingival aesthetic levels and biologic width problems.

## THE AESTHETICS OF OCCLUSION: BACK TO THE FUTURE! (3CE)

For all the advances our profession has made over the last several decades in materials science and digital technologies, it is losing the emphasis on which every dental restoration is conceived. This lecture will take everyone 'back to the future' to discover that the importance of sound technique and morphologic precision is just as important in today's dental practice as it was when Dr. Harold M. Shavell, the "Michelangelo of Dentistry", practiced his craft.

## OBJECTIVES:

- "It All Started With Alloy" – Biomorphaesthetics: The Quickest Way To Understand Occlusion... Guaranteed!
- "If You Can Draw It, You Can Carve It" – Using The Principles Of Biomorphaesthetics With Anterior and Posterior Composites
- Morphology and Occlusion – "Back To The Basics" - The Importance of Linguovision
- ABC Contacts – The Pokorny Construct – What Do Those Dots Mean?
- Occlusal Adjustment: Spheroiding or Biomorphaesthetic Reshaping... NOT Grinding
- The Art and Science of Provisionalization
- Tissue Management and Making Master Impressions: "Tissue Mirrors Technique"
- Definitive Cementation Protocols: Conventional and Resin Cements
- "Combined Therapy" and "Perio-By-The-Numbers"
- Creative Treatment Options: "Abstracting Reality"
  - "Shapeshifting" – Making A Silk's Purse From A Sow's Ear
  - Restoring The Worn Dentition: The Role of Anterior Guidance
  - "Instant Orthodontics" – Viable Treatment Option or Quick Fix Cop Out?
  - Instant Orthognathic Surgery: When is "Almost" Good Enough?

# REGISTRATION

Deadline is October 1, 2021. Registration fees will increase after this date.
