CE Credit Hours

1

Target Audience Course Objectives

How to maximize clinical outcomes with materials and procedures.

Achieving better bonds.

Direct composites, for esthetics and efficiency.

Excellence in light curing.

Presenter Chuck Hudson, M. Eng. 3M Oral Care

Accreditation AGD and CERP

Lane County District Dental Society has been designated an approved PACE Program Provider by the Academy of General Dentistry. The AGD accepts this program provider's formal COE programs for membership maintenance, fellowship, and mastership credits. Approval does not imply acceptance by a state or provincial board of dentistry or AGD endorsement. The current term of AGD approval extends from 1/16/2020 to 1/15/2023.

ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Lane County Dental Society designates this activity for two continuing education credits. Concerns or complaints about a CE provider may be directed to the provider or ADA CERP at www.ada.org/cerp.

Program Description

The demand for excellence in esthetics and function with direct dental materials continues to grow. This, coupled with the need for efficient procedures, has resulted in advancements in dental materials and new methods to maximize the clinical outcomes. From adhesion to light curing, this presentation focuses on bringing control and predictability to your direct restorations.
