### Course Overview

Musculoskeletal disorders (MSDs) are one of the major reasons dental professionals retire prematurely. With over 50% of dentist suffering from MSDs while practicing, it is an important topic to keep in the forefront of the dental practitioner's minds daily. This unique, interactive and inter-professional educational course will be presented by both a Dentist and a Doctor of Physical Therapy and will be of interest not only to the doctors, but to their entire dental team as well. Musculoskeletal injuries should not prevent you from a fulfilling career and a lifetime of practice!

Educational programs are funded, in part, through the generous support of the following sponsors.
